Soviet Union *The European Union's Broader Neighbourhood* Sieglinde Gstöhl, Erwan Lannon, 2015-07-16 Over the past decade the European Union EU has gradually developed the European Neighbourhood Policy ENP with its neighbours At the same time the neighbours of the EU s neighbours have presented new challenges This book addresses the EU s broader neighbourhood comprising of the ENP countries and the neighbours of its neighbours With specific focus on Saharan Africa the Middle East and Central Asia it discusses trans regional policy issues that arise from the EU s relations with regions beyond the ENP Based on an interdisciplinary policy oriented approach this volume explores major political legal security and socio economic challenges and identifies opportunities for cooperation across the EU s broader neighbourhood This book will be of interest to students experts and scholars interested in EU affairs and politics international relations EU and international law diplomacy and area studies **Economic Cooperation in the Wider Central Asia Region** Martin Raiser, Anton Dobronogov, 2006-01-01 This paper explores ways to unlock the potential for regional development and economic cooperation in the wider Central Asia region It argues that understanding critical clusters of interrelated issues and explicitly taking into account geopolitical and political economy considerations are key in this regard Regional countries and other stakeholders should focus on a few areas where there are real prospects for success in the short run a combination of modest win win initiatives and in some cases bold strokes that augment and change the distribution of benefits and hence make cooperation more likely to deliver progress **The Russian Minorities in the Former Soviet Republics** Anna Batta, 2021-12-24 This book explores the differing treatment of Russian minorities in the non Russian republics which seceded from the Soviet Union in the early 1990s Providing detailed case studies it explains why intervention by Russia occurred in the case of Ukraine despite Ukraine s benevolent and inclusive treatment of the large Russian minority whereas in other republics with less benevolent approaches to minorities intervention did not occur for example Kazakhstan where discrimination against the Russian minority increased over time and Latvia where the country on its accession to the European Union was deemed to have good minority rights protection despite a record of discrimination against the Russian minority Throughout the book emphasises the importance of the perceptions of the republic government regarding the interaction between the minority s kin state and the minority the role that minorities played within the nation building process and after secession and the dual threat coming from both the domestic and international spheres *Minerals Yearbook* , 1992 Multidisciplinary Perspectives on Cross-Border Trade and Business Abdul-Talib, Asmat-Nizam, Zakaria, Norhayati, Abdul-Latif, Samshul-Amry, 2021-12-10 Cross border business transactions have become increasingly important due to new norms of conducting business Cross border business has led to the emergence of multiple business opportunities and challenges to various stakeholders Such global reality cannot simply be ignored thus business entities that operate across national borders need to fully employ global business strategies to compete and survive in the dynamic global environment Multidisciplinary Perspectives on Cross Border Trade and Business captures a multi faceted outlook on

international business phenomena particularly when cross border businesses are severely affected by global crises such as the COVID 19 pandemic This book discusses the perspectives of stakeholders from both developed and developing countries as they handled international crises including the COVID 19 pandemic Covering topics such as knowledge acquisition internationalization and small and medium enterprises this book is an essential resource for business executives practitioners policymakers graduate and post graduate students of government or business administration professors researchers and academicians Aid in Transition Theodor N. Grigoriadis, 2014-10-14 This book is the one of the first to address aid effectiveness as a political and comparative economics question Since the collapse of the Soviet Union and the transition of its republics to market structures and more representative forms of government the European Commission has recognized the necessity of a closer economic cooperation with Russia Ukraine and Kazakhstan the three largest economies of the former Soviet Union This book suggests that the foreign aid of the European Union provided a set of reform incentives to post Soviet planners It created the grounds for the institutional and social transformation of the bureaucracy at both central and regional levels by integrating it into the aid allocation process In Russia Ukraine and Kazakhstan the observed subordination of NGOs to the developmental priorities of the bureaucracy occurred at the expense of diversity and political openness Nevertheless this reality led to the emergence of transnational sovereignty partnerships that reduced poverty for the general population and motivated both bureaucrats and entrepreneurs to cooperate Empirical models alone are not sufficient to delineate all the aspects of principal agent relationships in post Soviet bureaucracies This is why formal modeling and analysis of qualitative data are extremely useful Evaluation reports indicate the problems and challenges faced by aid bureaucrats and suggest that the weakly institutionalized environments of Ukraine and Central Asia Kazakhstan are less conducive to aid effectiveness than the heavily bureaucratized environment of Russia The proposed incentives system for the allocation of foreign aid links EU foreign policy with bureaucratic decision making and reflects the choice sets of the donor and the recipient Multilevel definitions of aid effectiveness are provided in the course of the book chapters
