The Economy of Iraq Abbas Alnasrawi, 1994-03-23 The economy of Iraq has fluctuated wildly since the 1950s It has been affected by changes in governments by wars and by general instability This book analyzes a complex subject and is especially timely at this critical juncture in the history of Iraq the Middle East and international relations Abbas Alnasrawi traces the growth of the Iraqi economy since 1950 assesses its present state of crisis and underdevelopment and explores its prospects for recovery Alnasrawi contends that the economic development of Iraq was shaped by the rise in oil revenue the war between Iran and Iraq and the invasion of Kuwait and its aftermath The discussion

begins with the burst of Iraq's oil industry and the development policies under the monarchy. Subsequent chapters highlight development planning during the first ten years of the republic, the development plans of the ruling Baath party, the destructive consequences of the Iran Iraq war and the recent invasion of Kuwait and the future of the Iraqi economy to the year 2010. This in-depth examination puts this subject into a manageable context for students of the Middle East.

Mobilizing Human Resources in the Arab World (RLE Economy of Middle East) R. Paul Shaw, 2015-05-15 R. Paul Shaw has travelled widely in the Arab world obtaining data and gathering impressions first hand from national and local planners. In this book he identifies population and manpower problems that are likely to become more serious and more difficult to solve if they are neglected at this early stage of Arab development. He focuses on five broad areas which are directly or indirectly related to mobilizing human resources and his book will be of special interest to all those who are concerned with such issues as population migration, employment, inequality, the emancipation of women, construction and agriculture. Dr Shaw proposes policy directives which are sensitive to the problems as they are seen by the Arab governments themselves and sets out practical guidelines which can be used by Arab planners and policy makers. An important feature of the book with respect to current literature on Arab development is that it moves away from a preoccupation with growth-related investments to a concentration on development-related population, manpower and employment issues. By bringing together such comprehensive empirical and bibliographic information, it will also be invaluable as a reference source for some twenty Arab countries. First published in 1983.

The Problems Of Arab Economic Development And Integration Adda Guecioueur, 2019-07-11 In this book, scholars, journalists and officials of Arab, pan-Arab and non-Arab institutions afford insights into the problems of Arab economic development and integration. The contributors who met on the occasion of the 11th Arab Summit, also known as the First Arab Economic Summit, demonstrate that Arab economic integration is the best means by which individual Arab countries can achieve economic development. Their study of the integration process, the obstacles encountered and the results achieved, in addition to being of interest to anyone concerned with the Arab world, is of particular relevance to those studying economic development in the Third World and South-South or North-South relations.

Arab Oil Policies in the 1970s Yusuf Sayigh, 2015-05-15 Until 1973 few people, either in the advanced industrial countries or in the developing countries of the Third World, thought seriously on the issues and complexities involved in the production and marketing of the oil on which they relied. It was only with the sudden steep increases in oil prices that the oil industry became a matter of general discussion and the Organisation of Petroleum Exporting Countries (OPEC) became a front-page topic for analysis and comment. However, real understanding of the organisation and its policies did not accompany this rush of interest and much confusion has followed. In particular, the Arab exporters have received the weight of the criticism although they have only a share in the market and not a monopoly. This book attempts to instil a greater mutual understanding between oil exporters and importers.

although it is not a wholesale endorsement of Arab policies by outlining the major policy areas in this field It looks at new policy options and their implications in exploration marketing and pricing and at downstream operations such as the petrochemical and gas industries In conclusion this study identifies the wide ranging opportunities that the new oil policies have opened up for the Arab countries in the national regional and international context and assesses and clarifies the responsibilities which accompany this success First published in 1983 **Exiles, Travellers and Vagabonds** ,2016-10-20 Travel writing migrant writing exile writing expatriate writing and even the fictional travelling protagonists that emerge in literary works from around the globe have historically tended to depict mobility as a masculine phenomenon The presence of such genres in women s writing however poses a rich and unique body of work This volume examines the texts of Francophone women who have experienced or reflected upon the experience of transnational movement Due to the particularity of their relationship to home and the consequent impact of this on their experience of displacement the study of women s mobility opens up new questions in our understanding of the movement from place to place and in our broader understanding of colonial and postcolonial worlds Addressing the proximities and overlaps that exist between the experiences of women exiles migrants expatriates and travellers the collected essays in this book seek to challenge the usefulness relevance or validity of such terms for conceptualising today s complex patterns of transnational mobility and the gendered identities produced therein *Writing Classified and Unclassified Papers for National Security* James S.
