Designing for Learning C. Carney Strange, James H. Banning, 2015-06-16 Understand the design factors of campus environmental theory that impact student success and create a campus of consequence Designing for Learning is a comprehensive introduction to campus environmental theory and practice summarizing the influence of collegiate environments on learning and providing practical strategies for facilitating student success through intentional design This second edition offers new coverage of universal design learning communities multicultural environments online environments social networking and safety and challenges educators to evaluate the potential for change on their own campuses You ll learn which factors make a living learning community effective and how to implement these factors in the renovation of campus facilities An updated selection of vignettes case scenarios and institutional examples help you apply theory to practice and end of chapter reflection questions allow you to test your understanding and probe deeper into the material and how it applies to your environment Campus design is no longer just about grassy quads and ivy covered walls the past decade has seen a surge in new designs that facilitate learning and nurture student development This book introduces you to the many design factors that impact student success and helps you develop a solid strategy for implementing the changes that can make the biggest difference to your campus Learn how environments shape and influence student behavior Evaluate your campus and consider the potential for change Make your spaces more welcoming inclusive and functional Organize the design process from research to policy implementation Colleges and universities are institutions of purpose and place and the physical design of the facilities must be undertaken with attention to the ways in which the space s dimensions and features impact the behavior and outlook of everyone from students to faculty to staff Designing for Learning gives you a greater understanding of modern campus design and the practical application that brings theory to life *Training Manual for an Ecosystem Model* LuAnne Aulepp, Ursula Delworth, Western Interstate Commission for Higher Education, 1976 **The Missing Competency** Sharon A. Aiken-Wisniewski, Deborah J. Taub, Rich Whitney, 2023-07-03 Authors Sharon Aiken Wisniewski Rich Whitney and Deborah Taub have done a great service to student affairs and to student learning and development with this fine book The Missing Competency A Program Development Model for Student Affairs The profession owes them great appreciation for returning the foundational competency of programming to our collective attention and providing a contemporary model to implement programs of quality From the foreword by Susan R Komives Program development is central to the work of student affairs professionals yet the field has not prioritized the development of competency in this area This theory to practice sequential guide to program development fills that gap in the literature The authors describe the elements of program planning and delivery from the inception of the idea through the use of assessment to revise and improve the program for the

future Whether a new professional or a seasoned leader this volume offers the reader a deeper understanding of program development Starting with a foundational understanding of this process the book proceeds to a step by step process taking a program from an idea to a proposal with goals objectives budget and timeline with tasks and beyond planning to implementation The book concludes with stressing the importance of assessment as the program continues to develop over time Each chapter applies program development concepts through program examples Finally the authors leave readers with tools and templates to support the process

Student Development in College Nancy J. Evans, Deanna S. Forney, Florence M. Guido, Lori D. Patton, Kristen A. Renn, 2009-11-05 The second edition of Student Development in College offers higher education professionals a clear understanding of the developmental challenges facing today's college students Thoroughly revised and updated this edition includes new integrative theories of student development expanded coverage of social identity theories a targeted focus on higher education related research a current review of student development research and application and reconceptualization of typology theories as a way to understand individual differences Praise for the Second Edition of STUDENT DEVELOPMENT IN COLLEGE Student Development in College is a rich comprehensive exploration of the major theoretical perspectives that inform development The authors attention to nuances and complexities results in a substantive history of theory development and a careful story about how various perspectives evolved yielding contemporary theorizing The book is a masterful blend of theoretical lenses and their use in designing developmentally appropriate practice for diverse populations of contemporary college students It is an excellent resource for all educators who work on college campuses Marcia Baxter Magolda Distinguished Professor Educational Leadership Miami University This is an invaluable work for anyone seeking an introduction to college student development theories or those seeking to update their existing knowledge

It offers a thorough and complex review of both the foundational theories and the newer often more culturally relevant theories and models Raechele L Pope program coordinator Higher Education Program University at Buffalo The original book was a tremendous contribution to the field of higher education and especially student affairs After more than ten years this revision is a timely and focused enhancement to the literature that nurtures quality professionals to think differently about topics relevant to our field Well done a second time around Gregory Roberts executive director ACPA College Student Educators International **Research in Education** ,1974 **Student Affairs Leadership** Linda Kuk,James H. Banning,2023-07-03 Kuk and Banning offer readers a new lens for viewing leadership one that goes beyond a focus on the behavior and values of leaders as individuals to examine how positional leaders interact with their environments to engage in leadership in context This book is addressed to aspiring and senior student affairs officers and offers a new ecological framework that recognizes that today s leaders are affected by factors they may not control and work within an environment they cannot expect to mold solely through their execution of skills and strategies Based on research supported through a grant from the National Association of Student Personnel Administrators NASPA Foundation this book explores leadership as an interactive process within varied environmental contexts and through an analysis of the transactional process between the leader the organizational members and the various components of the organizations environment It describes how leaders deploy differing competencies skills and strategies in varied contexts and how they choose to use past experiences their training and personal characteristics to set priorities and navigate the cultural social physical legal and political resource and ethical environments of their organizations Several chapters conclude with an account of how the experiences of the SSAO participants in the research informed their practice of leadership and understanding of how leadership actually works

Elucidating the Determinants Between the Environment and Individuals' Behaviors Amidst the COVID-19 Pandemic and the Post-COVID Era Ayesha Mumtaz, Ondrej Holy , Erum Rehman,2025-02-07 Individuals behavior is considered to be impacted by the environment and molded by the interaction of certain environmental parameters and fundamental human traits The COVID 19 epidemic had caused behavioral alterations However the impact of environmental characteristics such as social culture neighborhood and household and related interconnections with both personal and demographic traits such as biological sex age personality and health concerns has received relatively minimal attention As the epidemic subsides such transformed patterns may endure or revert to former patterns with variations between population subgroups such as the general population patients teenagers expectant mothers and the elderly The existence or absence of multiple environmental parameters may influence the disparity Recognizing these multiplex interactions between the environmental behavioral patterns and individuals may enable our societies readiness for the post pandemic phase This research topic intends to shed light on the interactions between individual traits and environmental parameters with a spectrum of pandemic influenced behaviors Certain health improving behaviors including social connection and physical exercise may have decreased

throughout the epidemic environment while others may have expanded such as sedentary behaviors screen time and social media use Particular environmental characteristics that were recognized as enhancers or barriers of specific behaviors before the COVID 19 outbreak may persist to interact throughout and after the epidemic These investigations are critical for comprehending the overarching effect of the environment on individuals behavior Individual preferences may also influence pandemic induced behaviors which are influenced by an individual s societal setting It would be possible to design communities and territories that encourage a healthy lifestyle while also being more resistant to epidemics of infectious diseases that may occur more frequently in the coming decades as a consequence of climatic transformation and urban development by conducting investigations on such behaviors thereby providing evidence on how the interactions between individuals and the environment influence multiple health related behaviors **Research and Intervention**, 1994
