Rod Morgan, Chairman Youth Justice Board. There are over nine million men, women, and children in prison around the world, and the number of people in prison in England and Wales has increased significantly in recent years. Yet in many respects, prison remains the last secretive public institution in our society.

*Understanding Prisons* provides a unique in-depth examination of prisons: how they function, what they achieve, and their historical and political context. The book describes how prisons developed into their present form, looks at who is sent to prison and what happens to them while they are there, explains how the prison system and staff in England and Wales are organised, examines how order and control is maintained and how high security prisons operate, looks at prisoners' families and the wider community, offers a future vision of the prison system. *Prison Governors* Shane Bryans, 2013-08-21. This book provides the first systematic study of prison governors, a hidden and powerful but much neglected group of criminal justice practitioners. Its focus is on how they carry out their task, how that has changed over time, and how their role has evolved. The author himself a former prison governor, explains how prison governors have changed under external pressures and examines a number of the factors that have been influential in changing their working environment, in particular the changing status of prisoners and the development of the concept of prisoners' rights, the increasing scrutiny of the press and politicians, competitive elements introduced by privatization of the penal institutions, and the introduction of risk management approaches. Based on extensive research, including interviews with 42 prison governors, this book also explores a number of important biographical factors. The author describes the demographic characteristics of the sample of governors interviewed, including their social origins, educational and occupational backgrounds, their reasons and motivation for joining the prison service, their career paths, and also explores their values and beliefs. In the light of the findings of this study, the author also makes a number of important suggestions for changes that should be made to policy and practice and explores the implications for how our prisons should be governed in the future.
