Reinberger, Elizabeth McLean, 2015-10-21 A highly readable beautifully illustrated study of the homes built by elite colonial Philadelphians as retreats which balanced English models with developing local taste Colonial Americans if they could afford it liked to emulate the fashions of London and the style and manners of English country society while at the same time thinking of themselves as distinctly American The houses they built reflected this ongoing cultural tension By the mid eighteenth century Americans had developed their own version of the bourgeois English countryseat a class of estate equally distinct in social function and form from townhouses rural plantations and farms The metropolis of Philadelphia was surrounded by a particularly extraordinary collection of country houses and landscapes Taken together these estates make up one of the most significant groups of homes in colonial America In this masterly volume Mark Reinberger a senior architectural historian and Elizabeth McLean an accomplished scholar of landscape history examine the country houses that the urban gentry built on the outskirts of Philadelphia in response to both local and international economic forces social imperatives and fashion What do these structures and their gardens say about the taste of the people who conceived and executed them How did their evolving forms demonstrate the persistence of European templates while embodying the spirit of American adaptation The Philadelphia Country House explores the myriad ways in which these estates which were located in the country but responded to the ideas and manners of the city straddled the cultural divide between urban and rural Moving from general trends and building principles to architectural interiors and landscape design Reinberger and McLean take readers on an intimate tour of the fine fashionable elements found in upstairs parlors and formal gardens They also reveal the intricate working world of servants cellars and kitchen gardens Highlighting an important aspect of American historic architecture

this handsome volume is illustrated with nearly 150 photographs more than 60 line drawings and two color galleries      **The Jeffersons at Shadwell** Susan Kern, 2010-09-21 Merging archaeology material culture and social history historian Susan Kern reveals the fascinating story of Shadwell the birthplace of Thomas Jefferson and home to his parents Jane and Peter Jefferson their eight children and over sixty slaves Located in present day Albemarle County Virginia Shadwell was at the time considered the frontier However Kern demonstrates that Shadwell was no crude log cabin it was in fact a well appointed gentry house full of fashionable goods located at the center of a substantial plantation Kern's scholarship offers new views of the family's role in settling Virginia as well as new perspectives on Thomas Jefferson himself By examining a variety of sources including account books diaries and letters Kern re-creates in rich detail the daily lives of the Jeffersons at Shadwell from Jane Jefferson's cultivation of a learned and cultured household to Peter Jefferson's extensive business network and oversight of a thriving plantation Shadwell was Thomas Jefferson's patrimony but Kern asserts that his real legacy there came from his parents who cultivated the strong social connections that would later open doors for their children At Shadwell Jefferson learned the importance of fostering relationships with slaves laborers and powerful office holders as well as the hierarchical structure of large plantations which he later applied at Monticello The story of Shadwell affects how we interpret much of what we know about Thomas Jefferson today and Kern's fascinating book is sure to become the standard work on Jefferson's early years      *Holy Things and Profane* Dell Upton, 1997-01-01 *Holy Things and Profane* is a study of architecture of the thirty seven extant colonial Anglican churches of Virginia and of their vanished neighbors whose existence is recorded in contemporary records particularly the forty six vestry books and registers that have survived in whole or in part Preface      **Vernacular Architecture** Mr. Rohit Manglik, 2024-01-15 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels      Vernacular Architecture Henry Glassie, 2000-12-22 Based on thirty five years of fieldwork Glassie's *Vernacular Architecture* synthesizes a career of concern with traditional building He articulates the key principles of architectural analysis and then centering his argument in the United States but drawing comparative examples from many locations in Europe and Asia he shows how architecture can be a prime resource for the one who would write a democratic and comprehensive history      **At Home in the Eighteenth Century** Stephen G. Hague, Karen Lipsedge, 2021-09-17 The eighteenth century home in terms of its structure design function and furnishing was a site of transformation of spaces identities and practices Home has myriad meanings and although the eighteenth century in the common imagination is often associated with taking tea on polished mahogany tables a far wider world of experience remains to be introduced *At Home in the Eighteenth Century* brings together factual and fictive texts and spaces to explore aspects of the typical Georgian home that we think we know from Jane Austen novels and extant country houses while also

engaging with uncharacteristic and underappreciated aspects of the home At the core of the volume is the claim that exploring eighteenth century domesticity from a range of disciplinary vantage points can yield original and interesting questions as well as reveal new answers Contributions from the fields of literature history archaeology art history heritage studies and material culture brings the home more sharply into focus In this way *At Home in the Eighteenth Century* reveals a more nuanced and fluid concept of the eighteenth century home and becomes a steppingstone to greater understanding of domestic space for undergraduate level and beyond

**Congressional Record** United States. Congress,1967 *George Washington's Mount Vernon* Robert F. Dalzell Jr.,Lee Baldwin Dalzell,2000-02-24 *George Washington's Mount Vernon* brings together for the first time the details of Washington's 45 year endeavor to build and perfect Mount Vernon In doing so it introduces us to a Washington few of his contemporaries knew and one little noticed by historians since Here we meet the planter patriot who also genuinely loved building a man passionately human in his desire to impress on his physical surroundings the stamp of his character and personal beliefs As chief architect and planner of the countless changes made at Mount Vernon over the years Washington began by imitating accepted models of fashionable taste but as time passed he increasingly followed his own ideas Hence architecturally as the authors show Mount Vernon blends the orthodox and the innovative in surprising ways just as the new American nation would Equally interesting is the light the book sheds on the process of building at Mount Vernon and on the people slave and free who did the work Washington was a demanding master and in their determination to preserve their own independence his workers often clashed with him Yet as the Dalzells argue that experience played a vital role in shaping his hopes for the future of American society hope that embraced in full measure the promise of the revolution in which he had led his fellow citizens George Washington's Mount Vernon thus compellingly combines the two sides of Washington's life the public and the private and uses the combination to enrich our understanding of both Gracefully written with more than 80 photographs maps and engravings the book tells a fascinating story with memorable insight

*The WPA Guide to Virginia* Federal Writers' Project,2013-10-31 During the 1930s in the United States the Works Progress Administration developed the Federal Writers Project to support writers and artists while making a national effort to document the country's shared history and culture The American Guide series consists of individual guides to each of the states Little known authors many of whom would later become celebrated literary figures were commissioned to write these important books John Steinbeck Saul Bellow Zora Neale Hurston and Ralph Ellison are among the more than 6 000 writers editors historians and researchers who documented this celebration of local histories Photographs drawings driving tours detailed descriptions of towns and rich cultural details exhibit each state's unique flavor The WPA Guide to Virginia documents the vital role the Old Dominion played in the history of the first 150 years of the United States and before It is packed with historical information particularly from the Colonial and Revolutionary years and supplemented with photos of historic buildings and sites Also worth note are the artistic photographs of the state's ordinary people and its natural

beauty including the Shenandoah and Chesapeake Bay regions      *Federal Justice in the Mid-Atlantic South* Peter Graham Fish, 2002 Also probed is the part played by the early federal courts in America's neutrality based foreign policy and in promoting economic enterprise by affording national forums for credit transactions for corporations for patent claimants for those who suffered losses on the sea including maritime labor and for real property owners and claimants Political and social control issues some of historic significance reached the courts in the mid Atlantic South Professor Fish treats the national security impulses that dominated the seditious libel trial of James Callender the treason trial of Aaron Burr and the trials of numerous privateers pirates for violating the nation's piracy and neutrality laws including the first capital case heard by a regularly constituted circuit court The author explores judges invocation of higher law their embrace of a common law of crimes and their perplexity in construing uncertain language in statutes prohibiting the international slave trade      The Woodwright's Companion Roy Underhill, 2011-07-01 With The Woodwright's Companion Roy Underhill continues to demonstrate how to start with a tree and an axe and make one thing after another until you have a house and everything in it This volume features chapters on helms and handles saws the search for the whetstone quarry crow chasers and turkey calls hurdles whimmy diddles snaplines and marking gauges candle stands planes window sash riven shingles and pit sawing The final chapter offers a glimpse of traditional woodworking techniques still used by the Colonial Williamsburg housewrights More than 260 photographs complement the text      Common Places Dell Upton, John Michael Vlach, 1986 Exploring America's material culture Common Places reveals the history culture and social and class relationships that are the backdrop of the everyday structures and environments of ordinary people Examining America's houses and cityscapes its rural outbuildings and landscapes from perspectives including cultural geography decorative arts architectural history and folklore these articles reflect the variety and vibrancy of the growing field of vernacular architecture In essays that focus on buildings and spaces unique to the U S landscape Clay Lancaster Edward T Price John Michael Vlach and Warren E Roberts reconstruct the social and cultural contexts of the modern bungalow the small town courthouse square the shotgun house of the South and the log buildings of the Midwest Surveying the buildings of America's settlement scholars including Henry Glassie Norman Morrison Isham Edward A Chappell and Theodore H M Prudon trace European ethnic influences in the folk structures of Delaware and the houses of Rhode Island in Virginia's Renish homes and in the Dutch barn widely repeated in rural America Ethnic regional and class differences have flavored the nation's vernacular architecture Fraser D Neiman reveals overt changes in houses and outbuildings indicative of the growing social separation and increasingly rigid relations between seventeenth century Virginia planters and their servants Fred B Kniffen and Fred W Peterson show how following the westward expansion of the nineteenth century the structures of the eastern elite were repeated and often rejected by frontier builders Moving into the twentieth century James Borchert tracks the transformation of the alley from an urban home for Washington's blacks in the first half of the century to its new status in the gentrified neighborhoods of the last decade while

Barbara Rubin's discussion of the evolution of the commercial strip counterpoints the goals of city planners and more spontaneous forms of urban expression. The illustrations that accompany each article present the artifacts of America's material past: Photographs of individual buildings, historic maps of the nation's agricultural expanse and descriptions of the household furnishings of the Victorian middle class, the urban immigrant population and the rural farmer's homestead complete the volume, rooting vernacular architecture to the American people, their lives and their everyday creations.
