The Elephant And The Polish Question:

The Elephant and the Polish Question Maurice James Craig, 1990 **The Elephant & the Polish Question, and Other Stories** Helen Lynch, 2009 The fall of the Berlin Wall and the overthrow of Communism in Eastern Europe form the backdrop for this interlinked sequence of short stories They provide an affectionate and humorous portrait of a Poland in which politics and history are played out through the psyches of individuals **The Age of Questions** Holly Case, 2018-07-10 A groundbreaking history of the Big Questions that dominated the nineteenth century In the early nineteenth century a new age began the age of questions In the Eastern and Belgian questions as much as in the slavery worker social woman and Jewish questions contemporaries saw not interrogatives to be answered but problems to be solved Alexis de Tocqueville Victor Hugo Karl Marx Frederick Douglass Fyodor Dostoevsky Rosa Luxemburg and Adolf Hitler were among the many who put their pens to the task The Age of Questions asks how the question form arose what trajectory it followed and why it provoked such feverish excitement for over a century Was there a family resemblance between questions Have they disappeared or are they on the rise again in our time In this pioneering book Holly Case undertakes a stunningly original analysis presenting chapter by chapter seven distinct arguments and frameworks for understanding the age She considers whether it was marked by a progressive quest for emancipation of women slaves Jews laborers and others a steady inexorable march toward genocide and the Final Solution or a movement toward federation and the dissolution of boundaries Or was it simply a farce a false frenzy dreamed up by publicists eager to sell subscriptions As the arguments clash patterns emerge and sharpen until the age reveals its full and peculiar nature Turning convention on its head with meticulous and astonishingly broad scholarship The Age of Questions illuminates how patterns of thinking move history **God's Playground A History of Poland** Norman Davies, 2005-02-24 This new edition of Norman Davies's classic study of the history of Poland has been revised and fully updated with two new chapters to bring the story to the end of the twentieth century The writing of Polish history like Poland itself has frequently fallen prey to interested parties Professor Norman Davies adopts a sceptical stance towards all existing interpretations and attempts to bring a strong dose of common sense to his theme He presents the most comprehensive survey in English of this frequently maligned and usually misunderstood country *A Handbook to Classical Reception in Eastern and Central Europe* Zara Martirosova Torlone, Dana LaCourse Munteanu, Dorota Dutsch, 2017-02-06 A Handbook to Classical Reception in Eastern and Central Europe is the first comprehensive English language study of the reception of classical antiquity in Eastern and Central Europe This groundbreaking work offers detailed case studies of thirteen countries that are fully contextualized historically locally and regionally The first English language collection of research and scholarship on Greco Roman heritage in Eastern and Central Europe Written and edited by an international group of seasoned and up and coming scholars with vast subject matter experience and expertise Essays from leading scholars in the field provide broad insight into the reception of the classical

world within specific cultural and geographical areas Discusses the reception of many aspects of Greco Roman heritage such as prose philosophy poetry material culture Offers broad and significant insights into the complicated engagement many countries of Eastern and Central Europe have had and continue to have with Greco Roman antiquity The American Friend, 1927 *The Exile Mission* Anna D. Jaroszyńska-Kirchmann, 2004-10-15 At midcentury two distinct Polish immigrant groups those Polish Americans who were descendants of economic immigrants from the turn of the twentieth century and the Polish political refugees who chose exile after World War II and the communist takeover in Poland faced an uneasy challenge to reconcile their concepts of responsibility toward the homeland The new arrivals did not consider themselves simply as immigrants but rather as members of the special category of political refugees They defined their identity within the framework of the exile mission an unwritten set of beliefs goals and responsibilities placing patriotic work for Poland at the center of Polish immigrant duties In *The Exile Mission* an intriguing look at the interplay between the established Polish community and the refugee community Anna Jaroszyńska-Kirchmann presents a tale of Polish Americans and Polish refugees who like postwar Polish exile communities all over the world worked out their own ways to implement the mission's main goals Between the outbreak of World War II and 1956 as Professor Jaroszyńska-Kirchmann demonstrates the exile mission in its most intense form remained at the core of relationships between these two groups *The Exile Mission* is a compelling analysis of the vigorous debate about ethnic identity and immigrant responsibility toward the homeland It is the first full length examination of the construction and impact of the exile mission on the interactions between political refugees and established ethnic communities **Translation Multiples** Kasia Szymanska, 2025-05-27 A new genre of writing demonstrating that translation is neither a transparent medium nor a secondary form of literature In *Translation Multiples* Kasia Szymanska examines what happens when translators poets and artists expose the act of translation by placing parallel translation variants next to one another in a standalone work of art presenting each as a legitimate version of the original Analyzing such translation multiples as a new genre of writing Szymanska explores how an original text can diverge into variants how such multiplicity can be displayed and embraced and how the resulting work can still be read as a coherent text To do so she focuses on contemporary projects in two different contexts Anglophone experimental practices and post 1989 Poland's emergence into democracy while viewing them against the backdrop of twentieth century cultural and political developments Szymanska first takes a broad look at Anglophone global culture debunking the myth of translation as a transparent medium and an unoriginal secondary form of writing She then turns to postcommunist Poland where projects introducing multiple translation variants with different ideological readings offered an essential platform for pluralist political discussion She examines in particular an elaborate metatranslation of *La Marseillaise* a triple rendering of Anthony Burgess's novel *A Clockwork Orange* and a quadruple book of Bertolt Brecht's poetry with distinct readings by four translators She argues that the creators of such multiples want to tell their own stories personal critical visual or political

Showing why multiple translations matter Szymanska calls for a redefined practice of reading translations that follows the ethics of the multiple

Ireland Seán Ó Nualláin, 2012-12-04 On Easter Monday 24 April 1916 the socialist writer James Connolly ordered an armed group to march down Dame Street in Dublin in what became a citizens occupation of Dublin city centre As Connolly hoped the shockwave launched by the doomed uprising kindled fires of revolution throughout the colonies during all of the 20th century On 18 November 2010 a small unescorted group of IMF technocrats walked down Dame Street home of their goal the Irish Central Bank to articulate the re colonisation of Ireland Ireland A Colony Once Again first explains the lack of public protest by the Irish in the face of a grim future In particular the author argues that the IMF move simply cemented in place a deal done long ago between globalized corporatism and Irish Catholic nationalism Almost all sectors of Irish civil society that might have offered resistance including Connolly s Labour movement had long ago been bought off or destroyed However the vacuum created by the perceived fall of the neoliberal world order in 2008 affords an opportunity to re construct Ireland In particular the author argues that the mechanisms used to buttress the current order from the state security apparatus to the mainstream media have a less firm hold on power than appears at first sight to be the case Furthermore given its history culture and geographic location Ireland is very well placed to re imagine and re invent itself in a short space of time in freedom and joy
