**Iranian Women in the Memoir** Emira Derbel,2017-05-11 This book investigates the various reasons behind the elevation of the memoir previously categorized as a marginalized form of life writing that denudes the private space of women especially in Western Asian countries such as Iran Through a comparative investigation of Azar Nafisi s *Reading Lolita in Tehran* and Marjane Satrapi s *Persepolis 1* and *2* the book examines the way both narrative and graphic memoirs offer possibilities for Iranian women to reclaim new territory transgress a post traumatic revolution and reconstruct a new model of womanhood that evades socio political and religious restrictions Exile is conceptualized as empowering rather than a continued status of loss and disillusionment and the liminality of both women writers turns into a space of artistic production The book also resists the New Orientalist scope within which *Reading Lolita in Tehran* more than *Persepolis* has been misread In order to reject these allegations this work sheds light on the representation of Iranian women in *Reading Lolita in Tehran* not as weak victims held captive by a totalitarian version of Islam but as active participants rewriting their stories through the liberating power of the memoir The comparative approach between narrative and comic memoirs is a fruitful way of displaying similar experiences of disillusionment loss return and exile through different techniques The common thread uniting both memoirs is their zeal to reclaim Iranian women s agency and strength over subservience and passivity      **Sexuality in Muslim Contexts** Anissa Helie,Homa Hoodfar,2012-10-11 This groundbreaking book explores resistance against the harsh policing of sexuality in some Muslim societies Many Muslim majority countries still use religious discourse to enforce stigmatization and repression of those especially women who do not conform to sexual norms promoted either by the state or by non state actors In this context Islam is often stigmatized in Western discourse for being intrinsically restrictive with respect to women s rights and sexuality The authors show that conservative Muslim discourse does not

necessarily match practices of believers or of citizens and that women's empowerment is facilitated where indigenous and culturally appropriate strategies are developed Using case studies from Pakistan Iran Indonesia China Bangladesh Israel and India they argue persuasively that Muslim religious traditions do not necessarily lead to conservative agendas but can promote emancipatory standpoints An intervention to the construction of Muslim women as uniformly subordinate this collection spearheads an unprecedented wake of organizing around sexualities in Muslim communities     **The Baker & Taylor Secondary School Selection Guide** ,1975     *The Schooling of Girls in Britain and Ireland, 1800- 1900* Jane McDermid,2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 *The Schooling of Girls in Britain and Ireland 1800 1900* presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes     **Africa After Gender?** Catherine M. Cole,Takiywaa Manuh,Stephan Miescher,2007-02-07 *Africa After Gender* looks at Africa now that gender has come into play to consider how the continent its people and the term itself have changed Leading Africanist historians anthropologists literary critics and political scientists move past simple dichotomies entrenched debates and polarizing identity politics to present an evolving discourse of gender     *Resources for Nonsexist, Interethnic, Multiracial Education* ,1979     **The Imperatives of Progressive Islam** Adis Duderija,2017-02-03 Cover Title Copyright Dedication Contents Note on transliteration Foreword Introduction broader contextualisation of progressive Islam 1 The poesis imperative 2 The epistemological imperative 3 The religious pluralism imperative 4 The Islamic liberation theology imperative 5 The human rights imperative 6 The ethical imperative in Islamic jurisprudence law 7 The gender justice imperative 8 The imperative of non patriarchal Islamic hermeneutics Conclusion the future of progressive Islam Select Bibliography Index     **The Black Church in the African American Experience** C. **The Antipolygamy Controversy in U.S. Women's Movements, 1880-1925** Joan Smyth Iversen,2014-01-21 This first study of the antipolygamy movement in the United States traces its growth from a Utah based women s group into a national crusade where it sparked a debate in suffrage politics The author analyzes this debate highlighting the differing views of marriage family and the role of women held by suffrage leaders Mormon women and antipolygamy reformers Antipolygamy rhetoric masked a more significant debate within women s groups about the structure and meaning of the American family Coming in the post Civil War period the antipolygamy agenda reflects an attempt to re construct the Republican family diminish patriarchal authority and improve the status of women The reaction of the antipolygamy women was also more than a

struggle for power Their adherence to the Republican family was a discourse involving not just rhetoric but a whole range of cultural forms and institutions which provided women with status moral authority and an identity Often the fear of polygamy was mingled with anxiety over the increase in divorce and the emergence of the new woman Ironically by the end of the long congressional battle over Utah and the Mormons both the rhetoric of polygamy and antipolygamy were used against the women s movement
