The Empire Of Fear:

Empire of Fear Brian Stableford, 2011-06-01 In an epic novel the Washington Post called riveting Brian Stableford brilliantly imagines a world ruled by a powerful aristocracy of vampires long lived extraordinarily handsome humans who are immune to pain but must drink the blood of their common subjects The story begins in seventeenth century London and spans three hundred years moving from England to the heart of Africa to Malta and finally to the New World Edmund Cordery Mechanician to the court of Richard Coeur de Lion believes that vampire beings must have a natural explanation But when his discoveries make him dangerous in the eyes of his masters Edmund entrusts his learned secrets to his son Noell who in turn becomes a fugitive When he returns to Europe he faces the awesome might of Coeur de Lion and the infamous Vlad the Impaler This classic has been translated into five languages and turned the typical vampire story on its ear when it was published according to the San Francisco Chronicle *The Empire of Fear* Brian M. The empire is on the brink of a collapse But can the resistance convince the people of Kaeldroga it is time to march or will they miss their opportunity Devarius knows time is fleeting and the resistance needs to make their move He sends the heroes of the resistance to all corners of the land to unite everyone together under one banner to face the empire in a last battle When he arrives in the capital no one listens to him He finds himself imprisoned Meanwhile his sister across the country is facing a political showdown to convince a well meaning duke of the corruption of the emperor a corruption that has betrayed the duke's family in times past The fate of all Kaeldroga lies in Devarius's hands Will they be able to overcome the empire or will they fall to another hundred years of tyranny under the emperor's rule If you love Eragon Dragonriders of Pern Ezaara Dragon Blood Dragon Gate and every other brilliant dragonrider epic out there you'll love Dragonica Fall of the Dragons because well dragons And wyverns drakes wyrms and amphipteres Get it Now **The**

Extinction of Nation-States L. Ali Khan, 2023-09-14 This work explores whether the nation state is a useful concept under contemporary international law It begins with an analysis of Grotius's masterpiece The Law of War and Peace tracing the historical development of the nation state It then argues that due to increased interdependence among the peoples of the world the nation state has become dysfunctional in serving the needs of global life Emphasizing a world without borders the book offers the concept of the Free State that allows the free movement of goods services capital information and the peoples of the world International legal scholars diplomats policy makers and foreign affairs experts will find this book particularly interesting **Reason's Inquisition** Christopher A. Colmo, 2023-08-29

Reasons Inquisition On Doubtful Ground is an exploration in the literature of political philosophy before and after Alfarabi and ranging from Thucydides to Leo Strauss and Eric Voegelin These studies most of them previously unpublished open inquiries into theory and practice reason and

revelation and the relation between thinkers ancient and modern Readers may be surprised to see the Platonist Alfarabi presented as a critic of Plato's theory in the name of practice while Alfarabi and Hobbes are shown to have a common interest in a theory commensurate with action Strauss Voegelin and Lucien Febvre all explore the problem of reason and revelation in relation to the limits of human knowledge An ambitious study of Shakespeare's Macbeth explores the ambiguity of both nature and knowledge in relation to male and female good and evil present and future The contrast between ancients and moderns is explicit in questions of the modern aspects of Marlowe's Doctor Faustus and of Rousseau's reversal of Plato Kierkegaard and Heidegger bring radical modernity into focus against a Platonic background in the closing essay These diverse essays attempt to follow the thinkers and themes explored in turning a critical gaze upon reason itself
