Catalogues of Sales Sotheby's (Firm),1994-03-10      *Catalogue* A. Dulau & Co,1925      *The Constitution of European Democracy* Dieter Grimm,2017 This book highlights Europe s democracy problem The common argument throughout is that the European Union has become over constitutionalized and Grimm makes recommendations for solving this Grimm also outlines the EU s legitimacy deficit and the proposed remedy of parliamentarization      Beyond Energy Jacopo Maria Pepe,2017-11-22 Jacopo Maria Pepe examines the rapid development of non energy transport infrastructure in the broader Eurasian space By doing so the author considers the ongoing structural transformation of the Eurasian continent against the backdrop of deepening commercial interconnectivity in Eurasia into broader areas of trade supported by the rapid development of rail connectivity He frames this process in a long wave historical analysis and considers in detail the geopolitical geo economic and theoretical implications of deepening physical connectivity for the relationships among China Russia Central Asia and the European Union      **British Imperialism** P.J. Cain,A. G. Hopkins,2016-03-02 A milestone in the understanding of British history and imperialism this ground breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries Employing their concept of gentlemanly capitalism the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties and how these ties were undone to produce the post colonial world of today Containing a significantly expanded and updated Foreword and Afterword this third edition assesses the development of the debate since the book s original publication discusses the imperial era in the context of the controversy over globalization and shows how the study of the age of empires remains relevant to understanding the post colonial world Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post imperial Britain today *British Imperialism 1688 2015* is the perfect read for all students of imperial and global history      Journal of Education ,1917      **The Journal of Education** ,1917      Journal of Education and School World ,1917      **Roman Presences** Catharine Edwards,1999-03-04 This collection of essays explores aspects of the reception of ancient Rome in a number of European countries from the late eighteenth century to the end of the Second World War Rome has been made to stand for literary authority republican heroism imperial power and decline the Catholic Church the pleasure of ruins The studies offered here examine some of the sometimes strange and unexpected places where Roman presences have manifested themselves during this period Scholars from several disciplines including English literature and history of art as well as classics bring to bear a variety of approaches on a wide range of images and texts from statues of Napoleon to Freud s analysis of dreams Rome s seemingly boundless capacity for multiple indeed conflicting signification has made it an extraordinarily fertile paradigm for making sense of and also for destabilizing history politics

identity memory and desire      **The Golden Ages of the Dark Ages** Dr. Nazry Bin Yahya, 2021-01-28 The Golden Ages of the Dark Ages is an exciting historical analysis about the civilizations and empires that exist around the globe during the European Dark Ages The use of the maps in the chapters allows readers to visualize the civilizations development away from Europe There are too many civilizations to compile Thus this book is based on two basic philosophies that the time line is limited only to the prominent civilizations within 500 CE to 1500 CE and also to have a minimum of 100 years of history Readers too must acknowledge that there were many other great world civilizations within and outside of the time line We can only pick a handful of the civilizations traditions and empires This is a factual book that might create further interests for readers to explore in depth some of the revelations This book too is hoped to help readers to critically analyze their past readings as history has been proven to be distorted by some of the historians      *The Cumulative Book Index* ,1911 A world list of books in the English language      **To the Uttermost Parts of the Earth** Martti Koskenniemi, 2021-08-26 To the Uttermost Parts of the Earth shows the vital role played by legal imagination in the formation of the international order during 1300 1870 It discusses how European statehood arose during early modernity as a locally specific combination of ideas about sovereign power and property rights and how those ideas expanded to structure the formation of European empires and consolidate modern international relations By connecting the development of legal thinking with the history of political thought and by showing the gradual rise of economic analysis into predominance the author argues that legal ideas from different European legal systems Spanish French English and German have played a prominent role in the history of global power This history has emerged in imaginative ways to combine public and private power sovereignty and property The book will appeal to readers crossing conventional limits between international law international relations history of political thought jurisprudence and legal history      [The Japanese Cinema Book](#) Hideaki Fujiki, Alastair Phillips, 2020-04-02 The Japanese Cinema Book provides a new and comprehensive survey of one of the world s most fascinating and widely admired filmmaking regions In terms of its historical coverage broad thematic approach and the significant international range of its authors it is the largest and most wide ranging publication of its kind to date Ranging from renowned directors such as Akira Kurosawa to neglected popular genres such as the film musical and encompassing topics such as ecology spectatorship home movies colonial history and relations with Hollywood and Europe The Japanese Cinema Book presents a set of new and often surprising perspectives on Japanese film With its plural range of interdisciplinary perspectives based on the expertise of established and emerging scholars and critics The Japanese Cinema Book provides a groundbreaking picture of the different ways in which Japanese cinema may be understood as a local regional national transnational and global phenomenon The book s innovative structure combines general surveys of a particular historical topic or critical approach with various micro level case studies It argues there is no single fixed Japanese cinema but instead a fluid and varied field of Japanese filmmaking cultures that continue to exist in a dynamic relationship with other cinemas media and regions The

Japanese Cinema Book is divided into seven inter related sections Theories and Approaches Institutions and Industry Film Style Genre Times and Spaces of Representation Social Contexts Flows and Interactions      **Honor and Shame in Early China** Mark Edward Lewis,2020-12-10 Lewis sheds new light on the early Chinese empires through an ambitious examination of evolving ideas about honor and shame      Scottish Geographical Magazine ,1897      Portuguese Possessions Great Britain. Foreign Office. Historical Section,1920      **Book-prices Current** ,1907      **From Vienna to Chicago and Back** Gerald Stourzh,2010-02-15 Spanning both the history of the modern West and his own five decade journey as a historian Gerald Stourzh s sweeping new essay collection covers the same breadth of topics that has characterized his career from Benjamin Franklin to Gustav Mahler from Alexis de Tocqueville to Charles Beard from the notion of constitution in seventeenth century England to the concept of neutrality in twentieth century Austria This storied career brought him in the 1950s from the University of Vienna to the University of Chicago of which he draws a brilliant picture and later took him to Berlin and eventually back to Austria One of the few prominent scholars equally at home with U S history and the history of central Europe Stourzh has informed these geographically diverse experiences and subjects with the overarching themes of his scholarly achievement the comparative study of liberal constitutionalism and the struggle for equal rights at the core of Western notions of free government Composed between 1953 and 2005 and including a new autobiographical essay written especially for this volume From Vienna to Chicago and Back will delight Stourzh fans attract new admirers and make an important contribution to transatlantic history      Bulletin ,1991
