The Enchiridion on Faith, Hope and Love Saint Augustine of Hippo, Aeterna Press, I Cannot express my beloved son Laurentius the delight with which I witness your progress in knowledge and the earnest desire I have that you should be a wise man not one of those of whom it is said Where is the wise where is the scribe where is the disputer of this world hath not God made foolish the wisdom of this world but one of those of whom it is said The multitude of the wise is the welfare of the world and such as the apostles wishes those to become whom he tells I would have you wise unto that which is good and simple concerning evil Now just as no one can exist of himself so no one can be wise of himself but only by the enlightening influence of Him of whom it is written All wisdom cometh from the Lord Aeterna Press *The Enchiridion*

Martin Bucer's Doctrine of Justification Brian Lugioyo, 2010-08-06 Martin Bucer has usually been portrayed as a diplomat who attempted to reconcile divergent theological views sometimes at any cost or as a pragmatic pastor who was more concerned with ethics than theology These representations have led to the view that Bucer was a theological light weight rightly placed in the shadow of Luther and Calvin This book makes a different argument Bucer was an ecclesial diplomat and a pragmatic pastor yet his ecclesial and

practical approaches to reforming the Church were guided by coherent theological convictions Central to his theology was his understanding of the doctrine of justification an understanding that Brian Lugioyo argues has an integrity of its own though it has been imprecisely represented as intentionally conciliatory It was this solid doctrine that guided Bucer's irenicism and acted as a foundation for his entrance into discussions with Catholics between 1539 and 1541 Lugioyo demonstrates that Bucer was consistent in his approach and did not sacrifice his theological convictions for ecclesial expediency Indeed his understanding was an accepted evangelical perspective on justification one to be commended along with those of Luther and Calvin

The Stoic Origins of Erasmus' Philosophy of Christ Ross Dealy, 2017-01-18 This original and provocative engagement with Erasmus work argues that the Dutch humanist discovered in classical Stoicism several principles which he developed into a paradigm shifting application of Stoicism to Christianity Ross Dealy offers novel readings of some lesser and well known Erasmian texts and presents a detailed discussion of the reception of Stoicism in the Renaissance In a considered interpretation of Erasmus De taedio Iesu Dealy clearly shows the two dimensional Stoic elements in Erasmus thought from an early time onward Erasmus genuinely philosophical disposition is evidenced in an analysis of his edition of Cicero's De officiis Building on stoicism Erasmus shows that Christ's suffering in Gethsemane was not about the triumph of spirit over flesh but about the simultaneous workings of two opposite but equally essential types of value on the one side spirit and on the other involuntary and intractable natural instincts

The Art of Living John Sellars, 2018-01-18 This title was first published in 2003 Presenting philosophy as an art concerned with one's way of life Sellars draws on Socratic and Stoic philosophical resources and argues for the ancient claim that philosophy is primarily expressed in one's behaviour The book considers the relationship between philosophy and biography and the bearing that this relationship has on debates concerning the nature and function of philosophy Questioning the premise that philosophy can only be conceived as a rational discourse Sellars presents it instead as an art techne that combines both logos rational discourse and askesis training and suggests that this will make it possible to understand better the relationship between philosophy and biography The first part of this book outlines the Socratic conception of philosophy as an art and the Stoic development of this idea into an art of living as well as considering some of the ancient objections to the Stoic conception Part Two goes on to examine the relationship between philosophical discourse and exercises in Stoic philosophy Taking the literary form of such exercises as central the author analyses two texts devoted to philosophical exercises by Epictetus and Marcus Aurelius

Heinrich Heshusius and Confessional Polemic in Early Lutheran Orthodoxy Michael J. Halvorson, 2016-04-22 Heinrich Heshusius 1556-97 became a leading church superintendent and polemicist during the early age of Lutheran orthodoxy and played a major role in the reform and administration of several German cities during the late Reformation As well as offering an introduction to Heshusius's writings and ideas this volume explores the wider world of late sixteenth century German Lutheranism in which he lived and worked In particular it looks at the important but inadequately understood network of Lutheran clergymen in North Germany centred around universities such as Rostock Jena K nigsberg and Helmstedt and territories such as Braunschweig Wolfenb ttel in the years after the promulgation of the Formula of Concord 1577 In 1579 Heshusius followed

his father Tilemann to the newly founded University of Helmstedt where Heinrich served as a professor on the philosophy faculty and established lasting connections within the Gnesio Lutheran party In the 1590s Heshusius completed his doctoral degree in theology and worked as a pastor and superintendent in Tonna and Hildesheim publishing over seventy sermons as well as a popular catechism based on the Psalms and Luther's Small Catechism As confessional tensions mounted in Hildesheim Heshusius worked as a polemicist for the Lutheran cause pressing for the conversion or expulsion of local Jews At the same time Heshusius began to argue aggressively for the expulsion of Jesuits who had been increasing in number due to the activities of the local bishop and administrator Ernst II of Bavaria By discussing the connection between these two expulsion efforts and the practical activities Heshusius undertook as a preacher catechist and administrator this study portrays Heshusius as a zealous protector of Lutheran traditions in the face of confessional rivals Understanding this zeal and the policies piety and propaganda that came as a result is an important factor in relating how Lutheran orthodoxy gained momentum within Germany in the last decades of the sixteenth century In all this book will reveal the complex characteristics of an important but virtually unknown Lutheran superintendent and theologian active during the era of confessionalization providing a useful resource for the ongoing efforts of scholars hoping to understand the nature of orthodoxy and its importance for early modern Europeans f
