## **The Encyclopedia Of Occult Sciences:**

The Encyclopedia of Occult Sciences ,1972      **The Encyclopedia of Occult Sciences** M. C. Poinso,2013-10 This is a new release of the original 1939 edition      **An Encyclopedia of Occultism** Lewis Spence,1968      *An Encyclopaedia of Occultism* Lewis Spence,2003-06-09 The most famous compendium of information on the occult and the first comprehensive work of its kind this volume originally appeared in 1920 Compiled by Lewis Spence a scholar of occult related topics it organizes a truly vast amount of information into 2 500 dictionary style entries many of which run to several pages These entries encompass both familiar terms abracadabra poltergeist spells vampire and more arcane topics Martian language bottle imps magic darts tinker s talk Numerous profiles of historical figures with ties to the occult include John Dee Mary Baker Eddy and Catherine de Medici An oft cited resource and a classic of its genre this remarkable compilation of history and lore offers an essential tool for a fuller understanding of occult subjects Index      **An Encyclopedia of Occultism** Lewis Spence,1984      **Encyclopedia of Occult Sciences vol.VI Second Part (The Magical Sciences) Low Magic** Poinso, Maffeo,2015-10-07 It follows from this phenomenon tested hundreds of times that every thing may carry around it an invisibly written history The same thing applies to the human being Every one of us carries around him a radiance invisible to the human eye but perceptible to the trained mind Inscribed in this radiance in the shape of pictures are the most important results of our thoughts and our actions In accordance with Tradition this radiance is termed the aura and there is an aura for every principle Thus there will be an aura of the physical body of very small extent an aura of the astral body an aura of the mind It is this last which was recognised by religious tradition surrounding the heads of saints and divinities with halos It is thanks to this radiance of the three principles of the human being that we can explain many seemingly strange phenomena such as sudden sympathies or antipathies intuitions and so called unconscious previsions etc Clairvoyance is also produced as we have said by means of a special magnetised condenser of the astral plane termed the Magic Mirror of which our author speaks in connection with the Arsenal of Magic just as he speaks of the visions seen in coffee grounds in the chapter dealing with divinations of the second degree And I quite understand the reserve which he shews here but perhaps he ought to have dealt separately at least with the psychometry which has been tested by experiments Our author it is felt gives but a limited belief to these divinations of the second degree Yet he describes conscientiously not the hundreds of ancient methods which are nearly forgotten but those of the Kabbala such as onomancy taromancy and also the oracles the prophecies which prove that the secret influences of this radiance govern many of our states of mind      **The Encyclopedia of the Occult** Lewis Spence,1988 This compendium of information on the occult sciences occult personalities psychic science demonology spiritism and mysticism was one of a kind when it was first published in 1920 and is still considered the best in its field today Spence organizes a world s worth of magic from Ab a magical month in the ancient Semitic calendar to Zulu witch finders into 2 500 dictionary style entries that explore concepts and personalities both familiar Freemasonry Morgan le Fay and

obscure palingenesis a process by which plants or vegetables are destroyed and then resurrected Leonora Galigai a 17th century Italian aristocrat who was burned as a witch A delight for devotees of the weird and the strange and a valuable resource for students of mythology and the evolution of scientific thought this important volume is at home in the libraries of all book lovers Scottish journalist and folklorist LEWIS SPENCE 1874 1955 was a Fellow of the Royal Anthropological Institute of Great Britain and Ireland and Vice President of the Scottish Anthropological and Folklore Society He published more than 40 works on mythology and the occult including History of Atlantis An Introduction to Mythology and Myth and Ritual in Dance Game and Rhyme *Encyclopedia Of Occult Sciences Vol. I Astrology* Poinsett, Maffeo, 2015-05-13 It is because his work has been that of popularising and not of creating according to his account at least that the author has desired to remain anonymous and straightway I congratulate him on having so well succeeded with this vade mecum which the scholar the woman of the world the man in the street the priest and the little maidservant will have on their table like a dictionary or a cookery book a perfect secretary in fact The task which I have before me is at once less difficult and more delicate Although in more than one passage our anonymous author shews originality expresses his opinion discusses and sometimes sums up nevertheless he asks me to explain beforehand what in fact the occult sciences are to state their connection with one another to relate briefly their general history to try to explain them shortly and finally to shew their usefulness
