## **The Ends Of Literature:**

*The Ends of Literature* Brett Levinson, 2001 *The Ends of Literature* analyzes the part played by literature within contemporary Latin American thought and politics above all the politics of neoliberalism The why of contemporary Latin American literature is the book's overarching concern Its wide range includes close readings of the prose of Cortázar Carpentier Paz Valenzuela Piglia and Las Casas of the relationship of the Boom movement and its aftermath of testimonial narrative and of contemporary Chilean and Chicano film The work also investigates in detail various theoretical projects as they intersect with and emerge from Latin American scholarship cultural studies deconstruction psychoanalysis and postcolonial studies Latin American literature both as a vehicle of conservatism and as an agent of subversion is bound from its inception to the rise of the state Literature's nature role and status are therefore altered when the Latin American nation state succumbs to the process of neoliberalism as the too strong state dictatorship yields to the too weak state the market and as the various practices of civil society and public life are replaced by private or privatized endeavors However neither the end of literature nor the end of the state can be assumed The end of literature in Latin America is in fact the call for more literature it is the call of literature in particular that of the Boom The end of the state likewise is the demand upon this state The book then analyzes the ends in question as at once their purpose direction future and conclusion Also key to the study is the notion of transition Within much recent Latin American political discussion *la transición* refers to the passage from dictatorship to democracy as well as to the failure of this shift the failure of post dictatorship The author argues that the movement from literary to cultural studies while issuing from intellectual and aesthetic circles is an integral component of this same transition The thematization of the bind between these two displacements hence of Latin America's voyage into post transition forms a fundamental portion of the text

### **The End of Literature, Hegel, and the Contemporary Novel**

Francesco Campana, 2019-11-28 This book explores the concept of the end of literature through the lens of Hegel's philosophy of art In his version of Hegel's end of art thesis Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective Contemporary art has become a question of philosophical reflection on itself and on the world thus producing an epochal change in art history The core idea of this book is that this thesis applies quite well to all forms of art except one namely literature literature resists its end Unlike other arts which have experienced significant fractures in the contemporary world Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end Analysing the distinct character of literature this book proposes a new and original interpretation of the end of art thesis showing how it can be used as a key conceptual framework to understand the contemporary novel

### **The End of American Literature**

Jeffrey R. Di Leo, 2020-02-14 *The End of American Literature* explores the dynamics and stakes of the late age of print A time when one day it seems like printed books and bookstores are on the decline whereas on another it is

ebooks and the digital utopia showing signs of slippage The feeling that something is ending not that something is beginning is seen both in our prognostications on the fate of capitalism democracy and America as well as in declarations of the end of the book literature and theory The essays here take up these timely topics not with a nostalgic nod to the past or utopian utterances to the future but rather firmly situated in the expansiveness of the present *Post-War British Literature and the "End of Empire"* Matthew Whittle,2017-01-03 This book examines literary texts by British colonial servant and settler writers including Anthony Burgess Graham Greene William Golding and Alan Sillitoe who depicted the impact of decolonization in the newly independent colonies and at home in Britain The end of the British Empire was one of the most significant and transformative events in twentieth century history marking the beginning of a new world order and having an indelible impact on British culture and society Literary responses to this moment by those from within Britain offer an enlightening and often overlooked exploration of the influence of decolonization on received notions of race and class while also prefiguring conceptions of multiculturalism As Matthew Whittle argues in this sweeping study these works not only view decolonization within its global context alongside the aftermath of the Second World War the rise of America and mass immigration but often propose a solution to imperial decline through cultural renewal *The End-times in Medieval German Literature* Ernst Ralf Hintz,Scott E. Pincikowski,2019 Drawing upon the most current methodologies the essays in this book pursue the multifarious functions of end times in medieval German texts *The History of Irish Periodical Literature, from the End of the 17th to the Middle of the 19th Century ... with Notices of Remarkable Persons Connected with the Press in Ireland During the Past Two Centuries* Richard Robert Madden,1867 **The International Library of Famous Literature** Andrew Lang,Donald Grant Mitchell,1898 **Contemporary Literature and the End of the Novel** P. Vermeulen,2015-01-06 This book explores the paradoxical productivity of the idea of the end of the novel in contemporary fiction It shows how this idea allows some of our most significant twenty first century writers to re imagine the ethics and politics of literature and to figure intractable forms of life and affect *The history of Irish periodical literature, from the end of the 17th to the middle of the 19th century* Richard Robert Madden,1867 *The End of the Church?* Hannah Marije Altorf,John Reuben Davies,Tibor Fabiny,Michael Fuller,Trevor Hart,Alison Jack,Elisabeth Jay,Lori A . Kanitz,Vassiliki Kolocotroni,Ann Loades,Margaret Masson,Donald Orr,Jeremy J . Smith,Heather Walton,2022-12-01 These 14 essays by scholars who have worked with David Jasper in both church and academy develop original discussions of themes emerging from his writings on literature theology and hermeneutics The arts institutions literature and liturgy are among the subject areas they cover **The End of Southern Exceptionalism** Byron E. Shafer,Richard Johnston,2009-03-31 The transformation of Southern politics after World War II changed the political life not just of this distinctive region but of the entire nation Until now the critical shift in Southern political allegiance from Democratic to Republican has been explained by scholars and journalists as a white backlash to the civil rights revolution In this myth shattering book Byron Shafer and

Richard Johnston refute that view one stretching all the way back to V O Key in his classic book Southern Politics The true story is instead one of dramatic class reversal beginning in the 1950s and pulling everything else in its wake Where once the poor voted Republican and the rich Democrat that pattern reversed as economic development became the engine of Republican gains Racial desegregation never far from the heart of the story often applied the brakes to these gains rather than fueling them A book that is bound to shake up the study of Southern politics this will also become required reading for pundits and political strategists for all those who argue over what it takes to carry the South     The End of the Corporations

Daniel Campos,2025-05-05 The End of Corporations reviews the crisis of capitalism since August 2007 first in the US The U S with the falls of Bear Sterns AIG Lehman Brothers and then how the crisis spread to affect the entire world It examines the political changes it brought about in the U S USA Europe and the Middle East He draws a comparison between the current crisis and that of 1929 analyzes the subsequent evolution of capitalism in the twentieth century the post war boom the emergence of multinationals and the crisis of the 70s It assesses globalization the emergence of multinational corporations and the evolution of financial capital Following Marx s guidelines The End of Corporations traces the long road of capitalism from its birth to examine the facts and laws that characterized it throughout history the great crises it suffered and its link with social and political phenomena which explain how it came about and where the current crisis is going     *Bede and the End of Time* Peter Darby,2016-04-15 Bede c 673 735 was the leading intellectual figure of the Anglo Saxon Church and his writings had a profound influence on the development of English Christian thought Among the many issues he wrote about eschatology the study of the day of judgment and the end of time was a recurring theme Whilst recent research has furthered our knowledge of this subject in the later Middle Ages Dr Darby s book provides the first comprehensive analysis of Bede s eschatological thought and its impact upon the Anglo Saxon period Taking account of Bede s beliefs about the end of time this book offers sophisticated insights into his life his works and the role that eschatological thought played in Anglo Saxon society Close attention is given to the historical setting of each source text consulted and original insights are advanced regarding the chronological sequence of Bede s writings The book reveals that Bede s ideas about time changed over the course of his career and it shows how Bede established himself as the foremost expert in eschatology of his age The eight chapters of this book are organised into three main thematic groups the world ages framework Bede s eschatological vision and Bede s eschatological perspective It will be of interest to those studying early medieval history theology or literature as well as anyone with a particular interest in Bede and Anglo Saxon England     *The End of Meaning* Matthew Gumpert,2012-04-25 The specter of the apocalypse has always been a semiotic fantasy only at the end of all things will their true meaning be revealed Our long romance with catastrophe is inseparable from the Western hermeneutical tradition our search for an elusive truth one that can only be uncovered through the interminable work of interpretation Catastrophe terrifies and tantalizes to the extent it promises an end to this task 9 11 is this book s beginning but not its end Here it

seemed was the apocalypse America had long been waiting for until it became just another event And indeed the real lesson of 9 11 may be that catastrophe is the purest form of the event From the poetry of classical Greece to the popular culture of contemporary America The End of Meaning seeks to demonstrate that catastrophe precisely as the notion of the sui generis has always been generic This is not a book on the great catastrophes of the West it offers no canon of catastrophe no history of the catastrophic The End of Meaning asks instead what if meaning itself is a catastrophe

**The End of the Scroll** Herold Weiss, 2020-06-24 Preachers teachers and self proclaimed prophets frequently claim that the end of the world is near often based on their interpretation of Bible books such as Daniel and Revelation Are these claims justified Is there a valuable message in these books In this masterful book Dr Herold Weiss applies a lifetime of study teaching and writing on the Bible to helping readers understand apocalyptic literature and symbolism Avoiding the common error of simply finding something in recent history that can be tied to the text in some way he seeks the purpose of each of the writers Why when expected events failed to take place as predicted did the readers of these books still hold onto them as valuable What is it that they communicated to those readers and can we make use of it now Dr Weiss examines a number of apocalyptic sources some of which you might not have regarded as apocalyptic He finds however that these writers are thinking and writing in a world of apocalyptic imagery From Ezekiel Zechariah and Daniel in the Old Testament to the synoptic gospels Paul's letters and the general epistles in the new Weiss outlines how understanding the apocalyptic view of the universe can be critical in understanding the message presented As with previous books by Dr Weiss such as Meditations on According to John and Meditations on the Letters of Paul this book provides a practical view of biblical theology in action He looks at both the broad overview of the message giving a framework and then fills in the details on a verse by verse passage by passage basis so the reader can see how individual statements and themes fit into a larger framework He concludes by pointing out how by understanding the work of the apocalypticists and following the examples of their readers we can find spiritual value and encouragement in these books This book is suitable as an introduction to apocalyptic literature or as a way of organizing one's thinking after reading a number of these books It would also be suitable for reading in an experienced small study group
