## **The Englewood Readings:**

**The Englewood Readings** Terence Clarke,1976    *Reading Comprehension* ,1978    **Elementary English** ,1951 SCC library has 1949 cur    *A Feeling for Books* Janice A. Radway,2000-11-09 Deftly melding ethnography cultural history literary criticism and autobiographical reflection *A Feeling for Books* is at once an engaging study of the Book of the Month Club s influential role as a cultural institution and a profoundly personal meditation about the experience of reading Janice Radway traces the history of the famous mail order book club from its controversial founding in 1926 through its evolution into an enterprise uniquely successful in blending commerce and culture Framing her historical narrative with writing of a more personal sort Radway reflects on the contemporary role of the Book of the Month Club in American cultural history and in her own life Her detailed account of the standards and practices employed by the club s in house editors is also an absorbing story of her interactions with those editors Examining her experiences as a fourteen year old reader of the club s selections and later as a professor of literature she offers a series of rigorously analytical yet deeply personal readings of such beloved novels as Marjorie Morningstar and To Kill a Mockingbird Rich and rewarding this book will captivate and delight anyone who is interested in the history of books and in the personal and transformative experience of reading

**Understanding and Teaching Reading** Emerald Dechant,2013-09-13 In the words of Aldous Huxley Every man who knows how to read has it in his power to magnify himself to multiply the ways in which he exists to make his life full significant and interesting Few people question the value of reading in fact most extol its virtues As our culture becomes more complex reading plays an increasingly greater role in satisfying personal needs and in promoting social awareness and growth In the last 20 years the teaching of this invaluable skill has focused so intensely on comprehension and prediction from context that it has lost sight of the significance of automaticity and fluency in the word identification process Reading is a synthesis of word recognition and comprehension thus this text is about these basic processes and their integration A common plea from teachers today is that research and psychology be translated into teaching behavior Therefore the aim of this book is twofold one to identify report organize and discuss those bits of data research and theory that are most relevant to the teacher s understanding of the reading process and two to help educators to interpret and apply theory and research data to everyday classroom teaching as well as to the problems encountered frequently in developmental and remedial teaching

**The Practice of Reading** Derek Alsop,Chris Walsh,1999-04-19 The Practice of Reading is a lucid and lively examination of the art of interpreting the novel in the context of recent developments in literary theory and criticism Believing that reading is or should be a pleasurable creative activity the authors analyse a range of seven novels from the eighteenth century to the present focusing upon the experiential dimensions of the reading process What is the role of the reader What happens when a novel is read How far does meaning depend on the reader and how far on the text These and other related questions are explored in readings of novels as diverse as Tristram Shandy Pride and Prejudice Great

Expectations Daniel Deronda A Portrait of the Artist as a Young Man Beckett's Trilogy and Possession In its insistence upon a return to the practice of close reading the book represents a timely intervention in current literary debates An accessible informative and above all stimulating text for all university and college students of literature     *Blue Book of the State of Illinois* Illinois.
