The Handbook Of National Population Censuses:

The Handbook of National Population Censuses Doreen S. Goyer, Gera E. Draaijer, 1992-04-30 The third volume in a three volume set this work is designed to take the difficulty out of doing research using census data In alphabetically arranged chapters it provides coverage of the contents of the censuses taken in the European states and territories

The Handbook of National Population Censuses Eliane Domschke, Doreen S. Goyer, 1986-12-17 This is the second volume of a projected three volume set that will document the definitions concepts trends and contents of population censuses throughout the entire world This systematic and up to date handbook is unique in its scope and will open up a rather rare body of research literature to scholars in any field related to population The editors have organized the vast amount of information in an easily accessible format grouping countries and territories by world regions and including current maps for almost all of them Unlike previous works on censuses this handbook provides an expanded historical view of the countries which will be of great help in understanding census methods frequency and coverage

The handbook of national population censuses : Latin America and the Caribbean, North America, and Oceania Doreen S. Goyer, Eliane Domschke, 1983

Research Guide to the Russian and Soviet Censuses Ralph S. Clem, 2016-11-01 Taken together the Russian census of 1897 and the Soviet censuses of 1926 1959 1970 and 1979 constitute the largest collection of empirical data available on that country but until the publication of this book in 1986 the daunting complexity of that material prevented Western scholars from exploiting the censuses fully This book is both a guide to the use of and a detailed index to these censuses The first part of the book consists of eight essays by specialist on the USSR six of them dealing with the use of census materials and the availability of data for research on ethnicity and language marriage and the family education and literacy migration and organization age structure and occupations The second part a comprehensive index for all the published census presents more than six hundred annotated entries for the census tables a keyword index that enables researchers to find census data by subject and a list of political administrative units covered in each census

Censuses and Census Takers Gunnar Thorvaldsen, 2017-11-13 This book analyses the international development of the census by comparing the history of census taking on all continents and in many countries The timeframe is wide from male censuses in the Bible to current censuses covering the whole population There is a focus on the efforts and destinies of census takers and the development of methods used to collect information into the census questionnaires The book highlights international cooperation in census taking as well as how computerized access to census data facilitates genealogical studies

and statistical research on both historical and contemporary societies It deals with such questions as Why did the French and British gentry block efforts at census taking in the 18th century What role did German censuses play during Holocaust Why were the Soviet census directors executed as part of the Moscow processes Why did US states sue the Census Bureau in the 1970s How do wars and revolutions affect census taking The text ends by discussing whether the days of the population census as we know it are numbered since countries exceedingly construct censuses by combining information from population registers rather than with questionnaires

Reference Guide to Africa Alfred Kagan,Atoma Batoma,2014-10-16 This third edition of the Reference Guide to Africa explains the most important resources for the study of the continent of Africa It contains a general sources section and a larger disciplinary oriented section All sources are annotated A new edition is sorely needed since the last edition was published nine years ago The previous editions have been successfully used in research libraries worldwide since 1999 and it has been used to teach several African studies research courses The book provides an orientation for researching almost any topic in the arts humanities and social sciences concerning the continent of Africa and all of its countries and ethnic groups The first part explains and lists portals databases bibliographies indexes guides encyclopedias country sources biography primary sources government publications and statistics The second part presents 16 subject oriented chapters mostly in the arts humanities and social sciences from agriculture and food security to women studies It covers sources that broadly cover the continent or in some cases only North Africa and the Middle East It generally excludes sources limited to one country or region of Africa except for North Africa because of the nature of the literature One third of the sources in this edition are new and nearly half of them are available in electronic format There are author title and subject indexes This unique work is intended for students teachers librarians and researchers It likely will be used most by reference librarians and teachers for students in high school through graduate studies It will also be used independently

by undergraduate and graduate students It can be used to answer simple reference questions provide the resources for an undergraduate paper or for comprehensive work by advanced students and researchers

National Colors Mara Loveman, 2014-06-06 The era of official color blindness in Latin America has come to an end For the first time in decades nearly every state in Latin America now asks their citizens to identify their race or ethnicity on the national census Most observers approvingly highlight the historic novelty of these reforms but National Colors shows that official racial classification of citizens has a long history in Latin America Through a comprehensive analysis of the politics and practice of official ethnoracial classification in the censuses of nineteen Latin American states across nearly two centuries this book explains why most Latin American states classified their citizens by race on early national censuses why they stopped the practice of official racial classification around mid twentieth century and why they reintroduced ethnoracial classification on national censuses at the dawn of the twenty first century Beyond domestic political struggles the analysis reveals that the ways that Latin American states classified their populations from the mid nineteenth century onward responded to changes in international criteria for how to construct a modern nation and promote national development As prevailing international understandings of what made a political and cultural community a modern nation changed so too did the ways that Latin American census officials depicted diversity within national populations The way census officials described populations in official statistics in turn shaped how policymakers viewed national populations and informed their prescriptions for national development with consequences that still reverberate in contemporary political struggles for recognition rights and redress for ethnoracially marginalized populations in today s Latin America

The Handbook of Cross-Border Ethnic and Religious Affinities Charity Butcher, 2019-04-16 Increasingly ethnic and religious variables are taken into account to explain conflict and relations between nations However ethnic and religious groups exist beyond the confines of frontiers In Africa for example hundreds of ethnic groups were divided by colonial borders and many retained kinship connections to their brethren

in other countries thus creating cross border ethnic religious affinity Such cross border connections affect a variety of foreign policy from diplomacy to the use of force An internal problem can spread to other states or external actors can become involved in domestic disputes due to such factors Therefore data on cross border connections are essential to measure and assess their actual or potential effects on foreign policy or conflict This unique resource serves both qualitative and quantitative researchers For ease of use it is divided in sections for each region of world with the entries organized by pairs of contiguous countries Each entry for a pair of countries briefly discusses the ethnic and religious groups that are common to both countries and the historical and current connections between these groups The entries are organized based on the Correlates of War country codes which are widely used by researchers and allow for country pairs to be organized geographically within each section to facilitate easy use of the data *The Methods and Materials of Demography* Henry S. Shryock, 2013-10-22 Like the original two volume work this work attempts to present a systematic and comprehensive exposition with illustrations of the methods used by technicians and research workers in dealing with demographic data The book is concerned with how data on population are gathered classified and treated to produce tabulations and various summarizing measures that reveal the significant aspects of the composition and dynamics of populations It sets forth the sources limitations underlying definitions and bases of classification as well as the techniques and methods that have been developed for summarizing and analyzing the data Bpsc General Studies Preliminary Examination Guide 2022 Dr. Birendra Prasad, IAS, 2021-11-29 The presented book BPSC Bihar Public Service Commission General Studies Preliminary Examination is very much useful for the competitive examinations of the aspirant who are preparing for upcoming BPSC examinations The book carries ample amount question papers arranged in a reverse chronological manner In this book all the study matters are provided as per the latest syllabus of BPSC The book is divided in 12 parts All solutions are written in easy to understand language with the aim of providing conceptual clarity BPSC GENERAL STUDIES PRELIMINARY EXAMINATION GUIDE 2022 by Dr Birendra Prasad IAS This guide is tailored to assist candidates preparing for the Bihar Public Service Commission BPSC General Studies Preliminary Examination for the year 2022 Authored by Dr Birendra Prasad IAS it provides comprehensive information and study material to help aspirants excel in this competitive examination Key Aspects of the Book BPSC GENERAL STUDIES PRELIMINARY EXAMINATION GUIDE 2022 by Dr Birendra Prasad IAS BPSC Prelims Exam Preparation Dr Birendra Prasad IAS offers a specialized guide tailored to assist candidates in preparing effectively for the BPSC General Studies Preliminary Examination Comprehensive Study Material The book provides comprehensive study material covering various aspects of the examination enabling candidates to enhance their knowledge and skills Expert Author Dr Birendra Prasad IAS brings his expertise and experience to guide aspirants in their BPSC exam preparation Author Dr Birendra Prasad IAS offers a specialized resource to aid aspirants in their preparation for the BPSC General Studies Preliminary Examination and provides comprehensive study material Pawned States Didac

Queralt,2022-08-09 How foreign lending weakens emerging nations In the nineteenth century many developing countries turned to the credit houses of Europe for sovereign loans to balance their books and weather major fiscal shocks such as war This reliance on external public finance offered emerging nations endless opportunities to overcome barriers to growth but it also enabled rulers to bypass critical stages in institution building and political development Pawned States reveals how easy access to foreign lending at early stages of state building has led to chronic fiscal instability and weakened state capacity in the developing world Drawing on a wealth of original data to document the rise of cheap overseas credit between 1816 and 1913 Didac Queralt shows how countries in the global periphery obtained these loans by agreeing to extreme conditionality which empowered international investors to take control of local revenue sources in cases of default and how foreclosure eroded a country s tax base and caused lasting fiscal disequilibrium Queralt goes on to combine quantitative analysis of tax performance between 1816 and 2005 with qualitative historical analysis in Latin America Asia Africa and the Middle East illustrating how overreliance on external capital by local leaders distorts their incentives to expand tax capacity articulate power sharing institutions and strengthen bureaucratic apparatus Panoramic in scope Pawned States sheds needed light on how early and easy access to external finance pushes developing nations into trajectories characterized by fragile fiscal institutions and autocratic politics
