Forget Them Not Joanne M. Hemenway, 2010-07-09 To witness effectively and powerfully to Christian testimonies of care and compassion of justice and mercy of healing and wholeness it is necessary to foster awareness of the realities of the present system of retributive justice if there is to be any hope of transformation to a system of justice which is restorative Forget Them Not provides a history of the prison system as a means of punishment contrasting it with the relatively recent but growing practice of restorative justice Joanne Hemenway explores the concept of disconnection as radical evil as a separation from God who is the source of our being and shows how our present approach to punishment fosters this evil The present system with its motif of retributive justice generates shame rejection and loneliness which stokes the fires of anger

and rage This breeds deep disconnection which only serves to fuel further cycles of violence Hemenway presents three vignettes designed to help explore forgiveness in the context of both retributive and restorative justice To promote healing and connection Forget Them Not introduces compassionate witnessing in prison ministry as a way to develop awareness and empowerment

Ninona's Story Eva Wolsgaard-Iversen,2015-08-25 Sitting in a cell knowing she is going to die Ninona thinks back on her life Her choices and the consequences When she comes to a clearing in the forest the choice she makes to settle and make it her home has consequences beyond her wildest imagination She is forced to face her fears and deal with her regrets shame and guilt Ninona s Story is not just about the physical journey but more so the spiritual journey We share her thought and feelings while learning how she deals with it all The forest itself and the animals in it help and support Ninona in her process she in turn gives back what she can As she helps the young male wolf she not only explains to him what she does and why but also how the physical ailments often are the body showing the need to deal with deep buried psychological challenges as in order to heal the broken leg the wolf has to mend his broken heart Ninona is later on reminded that even as a healer she is not expected to heal the world Ninona learns about the all important balance between the elements and how nature always has to maintain that balance as its existence depends on it She is a student of nature who becomes a teacher a teacher who speaks the language of nature While being a student of nature her own boundaries are pushed further and further out

It Takes a Child to Raise a Parent Janis Clark Johnston,2013-04-04 While advice abounds from a variety of sources before parents embark on their parenting journeys the only parent preparation we actually receive comes from our family and peer stories Yet most adults do not realize that in day to day challenges of guiding our children something interesting happens As we steer our children through life we reopen our own childhood roads Just when our child most needs us we become needy ourselves as adults and parents we find that we have unresolved raising issues basic needs that were not met in our childhoods Our needs and memories echo and influence many of the parenting decisions we make even though we re unaware of those influences at times Fortunately children help parents reach their needs as much as their parents help them fulfill their own Our child ends up guiding us by connecting us to some earlier time in our life when we encountered distress We dredge up a lesson and we adapt by adhering to or changing the story that we tell ourselves about who we are We re negotiate the five basic needs that surface from our

childhood memories as our youngsters pass through each of the developmental phases The self aware parent focuses on creative problem solving by focusing on one interaction at a time It Takes a Child to Raise a Parent offers an exploration of how our own childhood memories and needs influence and shape our parenting decisions in our adult lives Offering tips stories from a variety of families and step by step exercises Janis Johnston helps parents better understand and grasp the tools necessary to face parenting challenges head on and to explore new ways of understanding ourselves our children and our family interactions Expectant parents and current parents interested in understanding their own personality development as well as the many moods of childhood and their own children will find clear guidelines for understanding their roles in their children s lives as well as concrete suggestions for how to navigate the choppy waters of raising children
