Kammen,2012-10-03 In this major interpretive work Mr Kammen argues that most attempt to understand America's history and culture have minimized its complexity and he demonstrates that from our beginnings what has given our culture its distinctive texture pattern and thrust is the dynamic interaction of the imported and the indigenous He shows now during the years of colonization especially in the century from 1660 to 1760 many ideas and institutions were transferred virtually unchanged from Britain while simultaneously others were being transformed in the New World environment As he unravels the tangled origins of our bittersweet culture Mr Kammen makes us see that unresolved contradictions in the American experience have functioned as the prime characteristic of our national style Puritanical and hedonistic idealistic and materialistic peace loving and war mongering isolationist and interventionist consensus minded and conflict prone these opposing strands go back to the roots of our history He pursues them down through the seventeenth and eighteenth

centuries from the traumas of colonization and settlement through the tensions of the American Revolution making clear both the relevance of this early experience to nineteenth and twentieth century realities and the way in which America dualisms have endured and accumulated to produced such dilemmas as today's poverty amidst abundance and legitimized lawlessness Far from being a study in social pathology *People of Paradox* is a depiction of a complex society and an explanations of its development a bold interpretation that gives an entirely new perspective to the American ethos Voices of Shakespeare's England John A. Sovereignty and Intelligence John Michael Archer, 1993 The book examines the configurations of surveillance sovereignty and the accompanying forms of subjectivity and knowledge in the transition to modernity The association of sovereignty with intelligence extended far beyond the identification of sovereignty with the personal power of the sovereign In Montaigne's France sovereignty appeared in a disseminated form Montaigne's *Essais* exemplify the situation of the courtier self fashioned to serve an absent sovereign like Lacan's subject he is looked at from all sides Montaigne's description of the search for self knowledge as self spying reveals how deeply this quest was implicated in a culture of courtly surveillance At Elizabeth's court observation evolved into political espionage based on a system of courtly patronage and employed as a means of policing sexuality centered on the unmarried monarch Sidney's *Arcadia* inscribes ways of coping with the anxieties produced by this surveillance fraught environment

BOOK JACKET *The Masters of the Revels and Elizabeth I's Court Theatre* W. R. Streitberger, 2017-08-17 *The Masters of the Revels and Elizabeth I's Court Theatre* places the Revels Office and Elizabeth I's court theatre in a pre modern patronage and gift exchange driven world of centralized power in which hospitality liberality and conspicuous display were fundamental aspects of social life W R Streitberger reconsiders the relationship between the biographies of the Masters and the conduct of their duties rethinking the organization and development of the Office re examining its productions and exploring its impact on the development of the commercial theatre The nascent capitalist economy that developed alongside and interpenetrated the gift driven system that was in place during Elizabeth's reign became the vehicle through which the Revels Office along with the commercial theatre was transformed Beginning in the early 1570s and stretching over a period of twenty years this change was brought about by a small group of influential Privy Councillors When this project began in the early 1570s the Queen's revels were principally in house productions devised by the Master of the Revels and funded by the Crown When the project was completed in the late 1590s the Revels Office had been made responsible for plays only and put on a budget so small that it was incapable of producing them That job was left to the companies performing at court Between 1594 and 1600 the revels consisted almost entirely of plays brought in by professional companies in the commercial theatres in London These companies were patronized by the queen's relatives and friends and their theatres were protected by the Privy Council Between 1594 and 1600 for example all the plays in the revels were supplied by the Admiral's and Chamberlain's Players which included writers such as Shakespeare and legendary actors such as Edward Alleyn Richard Burbage and Will Kempe The queen's revels

essentially became a commercial enterprise paid for by the ordinary Londoners who came to see these companies perform in selected London theatres which were protected by the Council

Death, Religion, and the Family in England, 1480-1750 Ralph Anthony Houlbrooke, 2000 The interest and importance of the social history of death have been increasingly recognized during the last thirty years Ralph Houlbrooke examines the effects of religious change on the English way of death between 1480 and 1750 He discusses relatively neglected aspects of the subject such as the death bed will making and the last rites He also examines the rich variety of commemorative media and practices and is the first to describe the development of the English funeral sermon between the late Middle Ages and the eighteenth century Dr Houlbrooke shows how the need of the living to remember the dead remained important throughout the later medieval and early modern periods even though its justification and means of expression changed

Mediatrix Julie Crawford, 2014-05-29 Women Politics and Literary Production in Early Modern England considers the roles women played as literary patrons dedicatees readers and writers in the late sixteenth and early seventeenth centuries and the intimate relationship between these literary activities and what has often been called politically active humanism Focusing on the interrelated communities centered on Mary Sidney Herbert Countess of Pembroke Lady Margaret Hoby Lucy Harrington Russell the Countess of Bedford and Lady Mary Wroth Mediatrix argues that women played integral roles not only in the production of some of the most renowned literary texts in the period including Philip Sidney's *Arcadia* John Donne's poetry and Mary Wroth's *Urania* but also in wider networks of intellectual religious and political activism Each of the communities discussed was concerned with the cause loosely identified as international or militant Protestantism and frequently mediated through the circulation of texts of all kinds Illuminating women's constitutive involvement in everything from the genres of the texts produced romances verse letters texts of religious controversy to the places in which those texts were produced and circulated the estates of Wilton Penshurst Hackness Twickenham and Loughton and the conditions and hermeneutics by which they were read Mediatrix offers an account of early modern English literary production with women at the center and political activism as one of its primary rather than merely topical concerns
