**Evidentialism and Epistemic Justification** Kevin McCain,2014-05-09 Evidentialism is a popular theory of epistemic

justification yet as early proponents of the theory Earl Conee and Richard Feldman admit there are many elements that must be developed before Evidentialism can provide a full account of epistemic justification or well founded belief It is the aim of this book to provide the details that are lacking here McCain moves past Evidentialism as a mere schema by putting forward and defending a full fledged theory of epistemic justification In this book McCain offers novel approaches to several elements of well founded belief Key among these are an original account of what it takes to have information as evidence an account of epistemic support in terms of explanation and a causal account of the basing relation the relation that one s belief must bear to her evidence in order to be justified that is far superior to previous accounts The result is a fully developed Evidentialist account of well founded belief      *Bibliography of Agriculture* ,1963      *The Guardian Angel Level* Chuck Michael
