The Ottoman Empire and the Bosnian Uprising Fatma Sel Turhan, 2014-09-29 Bosnia enjoyed a special status within the Ottoman Empire Many of the empire's janissaries an elite military stratum of soldiers and nobleman hailed from this Balkan region So when Sultan Mehmet II abolished this warrior class in 1826 and this curtailed the regions access to influence in Constantinople Bosnia rebelled Under the leadership of Husein Gradasevic the dragon of Bosnia the kingdom declared independence and waged war with the Ottoman Empire For the first time Fatma Sel Turhan illuminates a period of crucial

importance to the Balkan regions She argues convincingly that the uprising was a response to Ottoman moves towards modernization designed to save the Ottoman Empire from decline but which eventually led to its demise She assesses how far the uprising can be considered a nationalist movement who the rebels were and how the central authorities dealt with and punished the perpetrators The Ottoman Empire and the Bosnian Uprising is a major fresh contribution to our understanding of the late Ottoman world and the history of the Balkans *Ottoman Wars, 1700-1870* Virginia Aksan, 2014-01-14 The Ottoman Empire had reached the peak of its power presenting a very real threat to Western Christendom when in 1683 it suffered its first major defeat at the Siege of Vienna Tracing the empire's conflicts of the next two centuries The Ottoman Wars An Empire Besieged examines the social transformation of the Ottoman military system in an era of global imperialism Spanning more than a century of conflict the book considers challenges the Ottoman government faced from both neighbouring Catholic Habsburg Austria and Orthodox Romanov Russia as well as arguably more importantly from military intellectual and religious groups within the empire Using close analysis of select campaigns Virginia Aksan first discusses the Ottoman Empire's changing internal military context before addressing the modernized regimental organisation under Sultan Mahmud II after 1826 Featuring illustrations and maps many of which have never been published before The Ottoman Wars draws on previously untapped source material to provide an original and compelling account of an empire near financial and societal collapse and the successes and failures of a military system under siege The book is a fascinating study of the decline of an international power raising questions about the influence of culture on warfare *Women and the Making of the Mongol Empire* Anne F. Broadbridge, 2018-07-18 How did women contribute to the rise of the Mongol Empire while Mongol men were conquering Eurasia This book positions women in their rightful place in the otherwise well known story of Chinggis Khan commonly known as Genghis Khan and his conquests and empire Examining the best known women of Mongol society such as Chinggis Khan's mother H el n and senior wife B rte as well as those who were less famous but equally influential including his daughters and his conquered wives we see the systematic and essential participation of women in empire politics and war Anne F Broadbridge also proposes a new vision of Chinggis Khan's well known atomized army by situating his daughters and their husbands at the heart of his army reforms looks at women's key roles in Mongol politics and succession and charts the ways the descendants of Chinggis Khan's daughters dominated the Khanates that emerged after the breakup of the Empire in the 1260s *The Mystics of al-Andalus* Yousef Casewit, 2017-04-27 A study of the writings of Ibn Barraj n an influential pioneer of intellectual mysticism in the Muslim West *Eurasian Slavery, Ransom and Abolition in World History, 1200-1860* Christoph Witzernrath, 2016-03-09 Recent research has demonstrated that early modern slavery was much more widespread than the traditional concentration on plantation slavery in the context of European colonial expansion would suggest Slavery and slave trading though little researched were common across wide stretches of Eurasia and a slave economy played a vital part in the political and cultural contacts

between Russia and its Eurasian neighbours This volume concentrates on captivity slavery ransom and abolition in the vicinity of the Eurasian steppe from the early modern period to recent developments and explores their legacy and relevance down to the modern times The contributions centre on the Russian Empire while bringing together scholars from various historical traditions of the leading states in this region including Poland Lithuania and the Ottoman Empire and their various successor states At the centre of attention are transfers transnational fertilizations and the institutions rituals and representations facilitating enslavement exchanges and ransoming The essays in this collection define and quantify slavery covering various regions in the steppe and its vicinity and looking at trans cultural issues and the implications of slavery and ransom for social economic and political connections across the steppe In so doing the volume provides both a broad overview of the subject and a snapshot of the latest research from leading scholars working in this area

A History of Social Justice and Political Power in the Middle East Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism

The Struggle for the Eurasian Borderlands Alfred J. Rieber, 2014-03-20 This book explores the Eurasian borderlands as contested shatter zones which have generated some of the world's most significant conflicts Analyzing the struggles of Habsburg Russian Ottoman Iranian and Qing empires Alfred J Rieber surveys the period from the rise of the great multicultural conquest empires in the late medieval early modern period to their collapse in the early twentieth century He charts how these empires expanded along moving military frontiers competing with one another in war diplomacy and cultural practices while the subjugated peoples of the borderlands strove to maintain their cultures and to defend their autonomy The gradual and fragmentary adaptation of Western constitutional ideas military reforms cultural practices and economic penetration began to undermine these ruling ideologies and institutions leading to the collapse of all five empires

in revolution and war within little more than a decade between 1911 and 1923

Islamic Gunpowder Empires Douglas E. Streusand, 2018-05-04 Islamic Gunpowder Empires provides readers with a history of Islamic civilization in the early modern world through a comparative examination of Islam's three greatest empires: the Ottomans centered in what is now Turkey, the Safavids in modern Iran, and the Mughals ruling the Indian subcontinent. Author Douglas Streusand explains the origins of the three empires, compares the ideological, institutional, military, and economic contributors to their success, and analyzes the causes of their rise, expansion, and ultimate transformation and decline. Streusand depicts the three empires as a part of an integrated international system extending from the Atlantic to the Straits of Malacca, emphasizing both the connections and the conflicts within that system. He presents the empires as complex polities in which Islam is one political and cultural component among many. The treatment of the Ottoman, Safavid, and Mughal empires incorporates contemporary scholarship, dispels common misconceptions, and provides an excellent platform for further study.

Identifying with Nationality Will Hanley, 2017-04-04 Nationality is the most important legal mechanism sorting and classifying the world's population today. An individual's place of birth or naturalization determines where he or she can and cannot be and what he or she can and cannot do. Although this system may appear universal even natural, Will Hanley shows that it arose just a century ago. In *Identifying with Nationality*, he uses the Mediterranean city of Alexandria to develop a genealogy of the nation and the formation of the modern national subject. Alexandria in 1880 was an immigrant boomtown ruled by dozens of overlapping regimes. On its streets and in its police stations and courtrooms, people were identified by name, occupation, place of origin, sect, physical description, and other attributes. Yet by 1914, before nationalist calls for independence and decolonization had become widespread, nationality had become the defining category of identification, and nationality laws came to govern Alexandria's population. *Identifying with Nationality* traces the advent of modern citizenship to multinational transimperial settings such as the turn of the century colonial Alexandria, where ordinary people abandoned old identifiers and grasped nationality as the best means to access the protections promised by expanding states. The result was a system that continues to define and divide people through status, mobility, and residency.

The Second Ottoman Empire Baki Tezcan, 2010-09-13 This book is a post-revisionist history of the late Ottoman Empire that makes a major contribution to Ottoman scholarship.

Empires and Bureaucracy in World History Peter Crooks, Timothy H. Parsons, 2016-08-03 How did empires rule different peoples across vast expanses of space and time? And how did small numbers of imperial bureaucrats govern large numbers of subordinated peoples? *Empires and Bureaucracy in World History* seeks answers to these fundamental problems in imperial studies by exploring the power and limits of bureaucracy. The book is pioneering in bringing together historians of antiquity and the Middle Ages with scholars of post-medieval European empires, while a genuinely world historical perspective is provided by chapters on China, the Incas, and the Ottomans. The editors identify a paradox in how bureaucracy operated on the scale of empires and so help explain why some empires endured for centuries while in the contemporary world empires fail almost

before they begin By adopting a cross chronological and world historical approach the book challenges the abiding association of bureaucratic rationality with modernity and the so called Rise of the West **Law, Society and Culture in the Maghrib, 1300-1500** David S. Powers, 2002-09-30 Focusing on the Maghrib in the period between 1300 and 1500 in this 2002 book David Powers analyses the application of Islamic law through the role of the mufti To unravel the sophistication of the law he considers six cases which took place in the Marinid period on subjects as diverse as paternity fornication water rights family endowments the slander of the Prophet and disinheritance The source for these disputes are fatwas issued by the muftis which the author uses to situate each case in its historical context and to interpret the principles of Islamic law In so doing he demonstrates that contrary to popular stereotypes muftis were in fact dedicated to reasoned argument and sensitive to the manner in which law society and culture interacted The book represents a groundbreaking approach to a complex field It will be read by students of Islamic law and those interested in traditional Muslim societies **Networks of Power in Palestine** Harel Chorev-Halewa, 2019-02-28 Informal networks are an elusive and hidden factor in every society In the Middle East the Arab Spring recently highlighted their power and scope from Iraq to Morocco exposing how family and clan networks wield influence behind institutional facades While many studies of Middle Eastern societies solely analyse formal structures and official governing bodies this book illuminates longstanding informal social systems by examining the sociopolitical history of the Palestinian highlands known from 1950 as the West Bank By studying family based networks in cities like Jerusalem Nablus and Hebron Harel Chorev Halewa shows how their influence has receded more slowly and less dramatically in recent generations than is commonly believed He also connects individual elite families to the broader landscape of informal networks comprising inter familial alliances collective economic systems Sufi orders and customary law all of which make up the unseen familial order Unfolding chronologically this book spans a period of immense change from the Late Ottoman period to the present day asking How did Palestinian informal networks adapt to new realities Why and how did they endure And what does this say about modern Palestinian national politics in particular and Arab societies in general Offering an original and innovative look at informal networks in Palestine this study is of crucial importance to scholars of Middle East studies Palestine studies political science and anthropology **The Mamluk City in the Middle East** Nimrod Luz, 2014-04-28 An interdisciplinary study of urban history urban experience and the nature of urbanism under the rule of the Mamluk Sultanate 1250 1517 **Animals in the Qur'an** Sarra Tlili, 2012-08-13 The Islamic tradition has always held animals in high esteem deserving the same level of consideration as humans The Qur'an opines that there is not an animal in the earth nor a flying creature flying on two wings but they are people like you This fascinating and highly original book examines the status and nature of animals as they are portrayed in the Qur'an and in adjacent exegetical works in which animals are viewed as spiritual moral intelligent and accountable beings In this way the study presents a challenge to the prevalent view of man's superiority over animals and suggests new ways of interpreting the Qur'an By placing the

discussion within the context of other religions and their treatment of animals the book also makes a persuasive case for animal rights from an Islamic perspective
