Strategic Organization Design Concepts Tools And Processes:

Strategic Organization Design David Nadler, Michael Tushman, 1988 Ce document propose une approche pragmatique des stratégies organisationnelles pour la création et la recherche de l'efficacité de l'organisation Les points retenus par les auteurs touchent les concepts utilisés les outils nécessaires la création d'une organisation et les processus stratégiques décisionnels

Strategic Organizational Diagnosis and Design Richard M. Burton, Borge Obel, 2012-12-06 Organizational design is a normative science with the goal of prescribing how an organization should be structured in order to function effectively and efficiently Organizational theory is a positive science that states our understanding about how the world operates and contrasts that understanding with a view of how the world could possibly operate It provides the theoretical underpinnings for organizational design In this book we attempt to construct an approach for diagnosing and designing organizations built on a knowledge base of organizational theory Organizational design is a young field that incorporates many concepts and approaches In organizational design literature to date there seems to have been only two ways of doing things in this field either to be so general and so simple that the various interpretations do not yield practical design implications or to be so detailed and specific that generalization to other situations is almost impossible We attempt here to strike a balance and offer an approach that is applicable to a broad range of situations In our view organizational theory exists as a large body of related languages definitions hypotheses analyses and conclusions Our knowledge is vast diverse somewhat inconsistent and generally unconnected Yet there is an underlying core of knowledge that can be used for analytical purposes Creating this balanced approach requires that the knowledge be distilled and augmented to produce a set of clear and consistent design rules that can be used to recommend what the organization's design should be Solid
