Research Skills for Management Studies Alan Berkeley Thomas, 2004-08-02 The recent growth of interest in the systematic study of management has transformed a once neglected area of research into one that now attracts a huge number of postgraduate students Despite this there has been a distinct lack of research guides tailored specifically for management studies Designed as a comprehensive introduction to the main phases of a research project this textbook fills that void It leads students from the very first stage of initiation through to final publication considering the nature of research skills and the fundamental elements of the research process whilst exploring the institutional context in which management research is carried out Taking current debates and the surrounding philosophical and strategic issues in hand

this book combines the key theories with the best practical advice to offer a completely rounded introduction to the topic It includes guidance and specific reference to real management research projects as well as case examples activities and further reading lists and is essential reading for anyone undertaking a management studies research project

Microcredit Meltdown Crystal Murphy, 2018-12-03 Established to help people jumpstart their lives and economy after over a half century of conflict the South Sudanese microcredit sector collapsed in 2012 six years after its takeoff to the detriment of some 80 000 participants Microcredit Meltdown is an account of the ambitious launch and premature downfall of the Southern Sudanese microcredit industry Through a mixed methods ethnographic approach the book charts the state and non state actors that embarked upon economic development after war the assumptions built into microlending and the impact of ideologies and social norms on economic practice The text compares industry theories with the experiences of borrowers and finds that microcredit failed in South Sudan due to false assumptions that were inapplicable to this post conflict environment Yet the over promising and under delivering commercial microcredit was not isolated to South Sudan or even post conflict settings The Juba microcredit story is an instance of the broader global shift toward the commercial microcredit model Initiated to get badly needed capital into the hands of poor people instead the focus became sustaining a lending program The text shows how the ideological and material constraints of the commercial microcredit paradigm were woefully misaligned with local socio cultural realities and created the collapse in South Sudan The Portable Dissertation Advisor Miles T. Bryant, 2003-11-21 Written for the doctoral graduate student this book gives you the vital support to write your dissertation when you can't be on campus full time Ethnographic Decision Tree Modeling Christina H. Gladwin, 1989-09 Why do people in a certain group behave the way they do And more importantly what specific criteria was used by the group in question This book presents a method for answering these questions *Participatory Action Research* Alice McIntyre, 2007-11-20 Participatory Action Research PAR introduces a method that is ideal for researchers who are committed to co developing research programs with people rather than for people The book provides a history of this technique its various strands and the underlying tenets that guide most projects It then draws on two PAR projects that highlight three integral dimensions the meaning of participation the way action manifests itself and the strategies for gathering analyzing and disseminating information Author Alice McIntyre describes the various ways in which PAR is carried out depending on for example the issue under investigation the site of the project the project participants people's access to resources and other related issues Intended Audience This resource is an ideal supplement for graduate courses PAR qualitative research and various types of action based research *The Long Interview* Grant McCracken, 1988-09-01 The Long Interview provides a systematic guide to the theory and methods of the long qualitative interview or intensive interviewing It gives a clear explanation of one of the most powerful tools of the qualitative researcher The volume begins with a general overview of the character and purpose of qualitative inquiry and a review of key issues The author outlines the

four steps of the long qualitative interview and how to judge quality He then offers practical advice for those who commission and administer this research including sample questionnaires and budgets to help readers design their own The author introduces key theoretical and methodological issues various research strategies and a simple four stage model of inquiry from the design of an open ended questionnaire to the write up of results Political Science Research Methods Janet Buttolph Johnson,H. T. Reynolds,Jason D. Mycoff,2019-07-04 Understand the how and the why behind research in political science Political Science Research Methods by Janet Buttolph Johnson H T Reynolds and Jason D Mycoff helps you to understand the logic behind research design by guiding you through a step by step process that explains when and why a researcher would pursue different kinds of methods The highly anticipated Ninth Edition of this trusted resource provides more international examples an increased focus on the role ethics play in the research process increased attention to qualitative research methods and expanded coverage on the role of the internet in research and analysis *Text Analysis for the Social Sciences* Carl W. Roberts,2020-07-24 This book provides descriptions and illustrations of cutting edge text analysis methods for communication and marketing research cultural historical comparative and event analysis curriculum evaluation psychological diagnosis language development research and for any research in which statistical inferences are drawn from samples of texts Although the book is accessible to readers having no experience with content analysis the text analysis expert will find substantial new material in its pages In particular this collection describes developments in semantic and network text analysis methodologies that heretofore have been accessible only among a smattering of methodology journals The book s international and cross disciplinary content illustrates the breadth of quantitative text analysis applications These applications demonstrate the methods utility for international research as well as for practitioners from the fields of sociology political science journalism communication computer science marketing education and English This is an ecumenical collection that contains applications not only of the most recent semantic and network text analysis methods but also of the more traditional thematic method of text analysis In fact it is originally with this volume that these two relational approaches to text analysis are defined and contrasted with more traditional thematic text analysis methods The emphasis here is on application The book s chapters provide guidance regarding the sorts of inferences that each method affords and up to date descriptions of the human and technological resources required to apply the methods Its purpose is as a resource for making quantitative text analysis methods more accessible to social science researchers **Systematic Data Collection** Susan C. Weller,A. Kimball Romney,1988-02-01 The process of collecting accurate data through interviewing questionnaires and other methods has not always been clear However data collection in field settings can be done in a structured systematic and scientific way These authors show us how First they focus on the importance of finding the right questions to ask By providing a variety of formats triadic comparisons and rating scales for data collection both oral and written methods and stressing cultural relativity Weller and Romney suggest ways to improve not only the data collected but

also the interpretation and analysis of such data Primarily addressed to qualitative social scientists this volume is also appropriate for anyone who wants to study attitudes and beliefs In particular it is an ideal text for courses in anthropology linguistics qualitative research methods health care and survey research **Handbook of Data Analysis** Melissa A Hardy, Alan Bryman, 2004-05-25 This text provides a reliable guide to the basic issues in data analysis such as the construction of variables the characterization of distributions and the notions of inference Research Design Julianne Cheek, Elise By, 2023-03-28 Designing research is about making decisions to transform an idea into a plan that can provide answers to a research problem or question Thinking about and then making these decisions results in the research design the plan that will be followed to conduct the research and answer the question This text engages in a dialogue with the reader providing a serious but accessible introduction to research design for use as a guide when designing your own research or when reading the research of others Julianne Cheek and Elise By show that designing research is an iterative and reflexive process in which there is constant thinking through and re visiting of decisions about that design as it develops They use a variety of pedagogical devices throughout the book including Tip Activity and Putting it into Practice boxes to emphasize specific points and encourage readers to think about the practical implications of what they have learned

Interpreting Qualitative Data David Silverman, 2024-01-25 In his signature pragmatic and friendly style David Silverman acts as your stand in supervisor in the seventh edition of this book taking you step by step through different methods for making sense of qualitative data Whether you are interested in analysing visual images interviews focus groups or online data this book provides a clear framework for using qualitative data to answer your research questions The book provides A strong grounding in research design principles so you can embed best practice into your research project Diverse real world examples so you can see how principles are applied in practice Coverage of new developments in qualitative research including working with online data If you are new to qualitative research or conducting your first research project in the social sciences this book gives you the practical grounding in qualitative methods you need to get started **The Practice of Nursing Research** Susan K. Grove, Nancy Burns (Ph. D.), Jennifer Gray, 2012-01-01 Nancy Burns is first named author on previous edition *Research Methods in Education and Psychology* Donna M Mertens, 1998 It not only covers two of the standard paradigms postpositivist and interpretive constructivist but discusses a relative newcomer the emancipatory paradigm that is inclusive of the perspectives of feminists ethnic racial minorities and persons with disabilities In each chapter Donna M Mertens carefully explains a step of the research process from the literature review to types of research method to analysis and reporting of quantitative or qualitative approaches
