Strategic Theory for the 21st Century: The Little Book on Big Strategy Harry R. Yarger, 2006 *Strategic Theory for the 21st Century* Harry Richard Yarger, 2006 The word strategy pervades American conversation and our news media and is most often used as a general term for a plan a concept a course of action or a vision of the direction in which to proceed at the personal organizational and governmental local state or federal levels Such casual use of the term to describe nothing more than what we would like to do next is inappropriate and belies the complexity of true strategy and strategic thinking This little book talks about big strategy strategy at the highest levels of the nation state It is applicable to grand strategy national security strategy national military strategy and regional or theater strategy The monograph does not propose a strategy for the United States rather it provides a framework for considering strategy at any of the levels mentioned above It is an examination of theory exploring those aspects of strategy that appear to have universal application The theory also may have application to the strategy of nonstate actors institutions and businesses but the explicit purpose and perspective offered herein focus on the nation state

Multilateral Asian Security Architecture See Seng Tan, 2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia's multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN's significance to the successes and failures of Asia's multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia's regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally
