

Strategy: Positive

- Lean towards the positive in your essay.
- The essays are phrased in such a way so that the essays will not be negative- they never ask you bash a branch, or say bad stuff about public officials, or rip into the American public. So don't do that.
- Be positive, avoid being cynical, and rise above tendencies to say bad stuff. Those comments will rarely earn you points, so don't waste time and effort writing them in this context.

The Writing of American History Michael Kraus, Davis D. Joyce, 1990-01-01 Events which become historical says Michael Kraus do not live on because of their mere occurrence They survive when writers re create them and thus preserve for posterity their otherwise fleeting existence Paul Revere s ride for example might well have vanished from the records had not Longfellow snatched it from approaching oblivion and given it a dramatic spot in American history Now Revere rides on in spirited passages in our history books In this way the recorder of events becomes almost as important as the events themselves In other words historiography the study of historians and their particular contributions to the body of historical records must not be ignored by those who seriously wish to understand the past When the first edition of Michael Kraus s Writing of American History was published a reviewer for the New York Herald Tribune wrote No serious study of our national origins and development can afford not to have such an aid as this at his elbow The book quickly came to be regarded as one of the few truly standard general surveys of American historiography invaluable as a reference book as a textbook and as a highly readable source of information for the interested general reader This new edition with coauthor Davis D Joyce confirms its position as the definitive work in the field Concise yet comprehensive here is an analysis of the writers and writings of American history from the Norse voyages to modern times The book has its roots in Kraus s pioneering History of American History published in 1937 a unique and successful attempt to cover in one volume the entire sweep of American historical activity Kraus revised and updated the book in 1953 when it was published under the present title Now once again the demand for its revision has been met Davis D Joyce with the full cooperation and approval of Kraus has thoroughly revised and brought up to date the text of the 1953 edition The clarity and evenhandedness of Kraus s text has been carefully preserved The last three chapters add entirely new material surveying the massive and complex body of American historical writing since World War II Consensus American Historical Writing in the 1950s Conflict American Historical Writing in the 1960s and Complexity American Historical Writing in the 1970s and Beyond Michael Kraus Professor Emeritus at City College of New York received the Ph D from Columbia University and in his long career established himself as one of America s foremost historiographers Davis D Joyce is Professor Emeritus of History East

My Country Is the World Luke Stewart,2023-03-07 Staughton Lynd was one of the principal intellectuals and activists making the radical argument that the U S intervention in Vietnam was illegal under domestic and international law Lynd was uncompromising in his courageous stance that the U S should immediately withdraw from Vietnam and that soldiers and draftees should refuse to participate in the war based on their individual conscience and the Nuremberg Principles of 1950 Lynd did not just write about opposing the war he was one of the chief proponents of direct action and civil disobedience to confront the war machine at the university in the halls of power and in everyday life through refusing to pay income taxes As Staughton Lynd s speeches writings statements and interviews demonstrate there were coherent and persuasive arguments against the war in Vietnam based on U S and international law precedents from American history and moral and ethical considerations based on conscientious objection to war and an internationalism embraced by American radicals which said My country is the world my countrymen are all mankind In Defense of the Corporation Robert Hessen,1979

The New Left and Labor in 1960s Peter B. Levy,2024-04-22 It is a powerful story the relationship between the 1960s New Left and organized labor was summed up by hardhats confronting students and others over US involvement in Vietnam But the real story goes beyond the Love It or Leave It signs and melees involving blue collar types attacking protesters Peter B Levy challenges these images by exploring the complex relationship between the two groups Early in the 1960s the New Left and labor had cooperated to fight for civil rights and anti poverty programs But diverging opinions on the Vietnam War created a schism that divided these one time allies Levy shows how the war combined with the emergence of the black power movement and the blossoming of the counterculture drove a permanent wedge between the two sides and produced the polarization that remains to this day Power and Powerlessness John Gaventa,1982 Explains to outsiders the conflicts between the financial interests of the coal and land companies and the moral rights of the vulnerable mountaineers
