Parliament, 1903 **Pure Strategy** Everett Dolman, 2012-11-12 A stimulating new inquiry into the fundamental truth of strategy its purpose place utility and value This new study is animated by a startling realization the concept of strategic victory must be summarily discarded This is not to say that victory has no place in strategy or strategic planning The outcome of battles and campaigns are variables within the strategist's plan but victory is a concept that has no meaning there To the tactical and operational planner wars are indeed won and lost and the difference is plain Success is measurable failure is obvious In contrast the pure strategist understands that war is but one aspect of social and political competition an ongoing interaction that has no finality Strategy therefore connects the conduct of war with the intent of politics It shapes and guides military means in anticipation of a panoply of possible coming events In the process strategy changes the context within which events will happen In this new book we see clearly that the goal of strategy is not to culminate events to

establish finality in the discourse between states but to continue them to influence state discourse in such a way that it will go forward on favorable terms For continue it will This book will provoke debate and stimulate new thinking across the field and strategic studies **Heresies of Sea Power** Frederick Thomas Jane,1906 *A Grand Strategy for America* Robert J.
