Only a day ago things were normal As normal as this year gets anyway Tilda Braint is nearly sixteen restless and having trouble figuring out what on earth she is supposed to do next Living in a small coastal town doesn't help either When two seals land in the middle of Tilda's life they turn it upside down They're a long way from home and may well be lost For Tilda the seals may turn out to be in exactly the right place at exactly the right time A novel about finding yourself your friends and your future *Radio Moments* David Lloyd, 2017-09-26 In the 1970s 80s and 90s Britain witnessed what many in the

business saw as the second great age of radio It was a period when FM radio blossomed and local stations opened and broadcast across the land It was a step away from the output of the national broadcaster the BBC which had held a monopoly on the airways since its inception Broadcaster station manager and regulator for over forty years David Lloyd was very much a part of this revolution and is amongst his peers well placed to tell that story Lloyd describes the period as one of innovation his aim to create a timeline of radio of this era through to the present day to capture those heady days the characters the fun and heartache life on the air life off the air And to revisit those station launches company consolidations the successes and the failures Told with the insight of an insider with his characteristic wit and a huge dollop of nostalgia David Lloyd brings to life a unique age in broadcasting in this fascinating account David Lloyd has spent a lifetime in radio and has worked with some of the UK's biggest names An award winning broadcaster he was part of the first wave of commercial radio in the 1980s He later joined the Radio Authority where he was given responsibility for overseeing compliance across the commercial radio industry A Fellow of the Radio Academy he has been MD and Programme Director of LBC a programmer for Virgin Radio and a BBC manager and broadcaster He was until recently Group Editorial Director at Orion Media **Life**

should be harmonised to level the playing field between public service and commercial broadcasters when Digital Switchover happens in 2012 It is the Committee s view that a reduction in the quantity of advertising airtime that broadcasters are allowed to sell would greatly improve the viewer experience and would be fairer to the public service broadcasters ITV 1 Channel 4 and Channel 5 who are limited more than all other commercial channels at the moment All channels should be allowed an average of 7 minutes per hour appropriate peak time maximum to be determined after research from Ofcom The Committee has also looked at specific regulations which affect ITV 1 known as the Contract Rights Renewal undertakings These undertakings should be removed as long as they are replaced with binding undertakings from ITV plc to invest an appropriate proportion of any additional revenues from advertising in creating UK originated programming and training The Committee is calling on ITV s bosses to deliver on the commitments they have made to the Committee to increase its investment on quality UK originated programming in return for the removal of CRR and also to invest in training within the industry
