The Politics of Street Crime Stuart Scheingold,2010-06-17 America s contradictory attitudes toward crime repellent danger versus media glamorization *An Introduction to Crime and Criminology* Hennessey Hayes,Tim Prenzler,2014-10-01 An Introduction to Crime Criminology 4e continues to bring together some of Australia s most widely respected authorities on criminology The text explores popular knowledge and understanding about crime contrasting it with what we know about crime from official sources as well as from crime victims The authors present and analyse the various ways that crime is defined and measured the many and varied dimensions of crime the broad range of theories offered to explain crime as well as some of the main ways governments and other agencies respond to and attempt to prevent crime *Homelessness and Street Crime* Pete Schauer,2017-07-15 Hundreds of thousands of Americans are without a home sleeping on streets or in temporary shelters Nearly one fifth of homeless Americans suffer from an untreated mental illness Due in part to reductions in state and city budgets many who need assistance are left to live on the street One natural byproduct of a life on the street is criminal behavior as adaptation to illegal acts becomes a matter of survival Could ending homelessness reduce crime What are ways in which that could be achieved and whose responsibility is it Are the homeless being unfairly blamed for street crime This volume offers a close examination of the issue from a variety of viewpoints *Street Crime* Simon Hallsworth,2013-06-17 Street crime remains high on the public and political agenda and is frequently the subject of media attention and concern

This book aims to provide a detailed and accessible account of the phenomenon placing the subject in its theoretical historical and political context It addresses the question of how serious a problem street crime really is and why it has become such a hot political issue The book draws upon contemporary debates about the supposed presence of an emerging underclass and in particular the criminalisation and racialisation of black communities with whom it has come to be particular associated in the public mind The author then develops a framework of analysis which focuses upon the relationship of three key variables the production of motivated offenders the availability and suitability of victims and a study of the limits inherent in current control strategies Finally the book concludes that a successful prevention strategy requires an agenda for revitalising the public sphere in inner city areas rather than reliance policies of situational crime prevention zero tolerance policing and increased punishment
