*Perspectives on Israeli Anthropology* Esther Hertzog,2010 Surveys past and present research on Israeli anthropology for students and researchers While Israel is a small country it has a diverse and continually changing society As a result since the 1960s Israeli anthropology has been a fertile ground for researchers This collection introduces readers to the diverse field of social anthropology in Israel today pointing to both its rich history and promising future Drawing upon recent research as well as a few key older articles editors Esther Hertzog Orit Abuhav Harvey E Goldberg and Emanuel Marx have selected contributors that highlight different theoretical perspectives and touch on a variety of relevant topics *Perspectives on Israeli Anthropology* begins with an introduction that

traces the development of social anthropology in Israel from its beginnings in Palestine prior to Israeli statehood to the present. The essays in this volume are divided into five major thematic sections including the effects of immigration, the influence of bureaucracies in social life, the negotiation of the social order, tensions between Jewish Israelis and Palestinian Arabs, and notions of Israeliness and Jewishness. Essays offer compelling research and a variety of perspectives on changing senses of identity, ethnicity, religiosity, and gender relations in a society deeply affected by war, violence, and dispossession. While the contributors in this volume adhere to various theoretical and ethnographic traditions, they all treat Israel as a complex, modern, and open society with much to offer other scholars. *Perspectives on Israeli Anthropology* will provide an illuminating overview of the discipline for students, teachers, and researchers in the field of social anthropology.

**Women in the Muslim World** Herbert L. Bodman, 1991

*Fasting and Feasting in Morocco* Marjo Buitelaar, 1993. Fasting during Ramadan is one of the five pillars or religious duties that Muslims must perform, and is for many the most important role for women in Islamic practice, revealing the strategies women employ to earn religious merit. Rather than downplaying the role of women in religious practice within dominant Islam, this work shows that female pious acts are essential to the carrying out of religious doctrine and no less important than the special prayers said by men in the mosques.

**Memoria y presencia de las mujeres santas de Alcazarquivir (Marruecos)** El Hour, Rachid, Marín, Manuela, 2018-04-15. La recuperación y estudio de textos hagiográficos magrebíes teniendo en cuenta la importante tradición oral que a veces se solapa con la escritura y a veces mantiene una autonomía propia, donde nos planteamos recurrir a ambos niveles de información tomando como caso de estudio el ámbito de la santidad femenina con una perspectiva cronológica amplia y una dimensión espacial por el contrario de entornos reducidos. Los resultados del trabajo de campo superaron las expectativas iniciales y nos han permitido recomponer un rico panorama de tradiciones que en ocasiones específicas se conectan con la literatura hagiográfica o incluso se nutren de ella. Estos enlaces entre oralidad y escritura son lógicamente más frecuentes cuanto más elevado es el nivel educacional de los informantes, algunos de los cuales se plantean cuestiones de carácter más amplio acerca de la evolución de las costumbres o el culto de los santos. Al mismo tiempo ha sido posible observar la difusión de tradiciones orales presentes en otras regiones de Marruecos y que no se recogen en la literatura hagiográfica. La relativa abundancia de santuarios con advocación femenina en Alcazarquivir fue uno de los motivos para su elección como objeto de estudio. Aunque los mausoleos y tumbas de mujeres santas son frecuentes en todo Marruecos, se carece aún de un estudio de conjunto o de monografías específicas sobre este fenómeno religioso y social.

Creemos que la investigación que ahora presentamos puede contribuir a un mayor conocimiento de esas áreas de religiosidad que han sido tradicionalmente consideradas como marginales pero que ocupan un espacio significativo en la práctica devocional de los musulmanes marroquíes como los de otras muchas regiones del mundo islámico
