Handbook of Communication and Aging Research Jon F. Nussbaum,Justine Coupland,2004-04-12 This second edition of the Handbook of Communication and Aging Research captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book's contributors include

scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter. Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities. A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older, aged, elderly, or over 65. The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda. This handbook will be of great interest to scholars and researchers in gerontology, developmental psychology, and communication, and in this updated edition will continue to play a key role in the study of communication and aging. *Elizabeth Macarthur* Michelle Scott

David Hunt, Author of *Girt In 1788*: a young gentlewoman raised in the vicarage of an English village married a handsome, haughty, and penniless army officer. Michelle Scott Tucker shines a light on an often overlooked aspect of Australia's history in this fascinating story of a remarkable woman. Michelle Scott Tucker owns and operates a management consulting company and lives on a small farm in regional Victoria with her husband and children. Elizabeth Macarthur is her first book. Core Of My Heart, My Country Maggie MacKellar,2016-05-18 When Georgiana Molloy gave birth on the beach at Augusta in 1830 with boxes of her possessions lying where they d landed she was one of the many women who literally had to remake their homes out of the broken bones of their past In this passionate book Maggie MacKellar tells the stories of women on the frontier in Canada and Australia who ventured out in bonnets and petticoats to collect seeds who abandoned sidesaddles to ride in the mountains who risked their reputations to climb mountains and beyond this it tells of the risky business of women who put their lives on the page to claim the importance of their experience Core of My Heart My Country weaves together experience and insight from women who lived and wrote in different landscapes in different climates and in different eras It is a provocative and remarkable encounter with buried stories and persistent myths

In the Eye of the Beholder Barbara Dawson,2014-11-19 This book offers a fresh perspective in the debate on settler perceptions of Indigenous Australians It draws together a suite of little known colonial women apart from Eliza Fraser and investigates their writings for what they reveal about their attitudes to views on and beliefs about Aboriginal people as presented in their published works The way that reader expectations and publishers requirements slanted their representations forms part of this analysis All six women write of their first hand experiences on Australian frontiers of settlement The division into adventurers Eliza Fraser Eliza Davies and Emily Cowl and longer term settlers Katherine Kirkland Mary McConnel and Rose Scott Cowen allows interrogation into the differing representations between those with a transitory knowledge of Indigenous people and those who had a close and more permanent relationship with Indigenous women even encompassing individual friendship More pertinently the book strives to reveal the aspects largely overlooked in colonial narratives of Indigenous agency authority and individuality
