The Mud Hut Dwellers:

The Mud-hut Dwellers Mihail Sadoveanu, 1952 Roman om et rum nsk bondeopr r **The Mud-hut Dwellers** Mihail Sadoveanu, 1964 **Homelessness** Neil Larry Shumsky, 2012-01-16 This book presents an unflinching investigation of homelessness in the United States a problem that has been with us since the arrival of the first English settlers nearly 400 years ago The terms historically used to describe them include bums hoboes migrants street people transients tramps and vagrants Just as varied as the words we have used to describe them are the reasons many people have found themselves living in the land of opportunity without permanent residence The book considers homelessness and its distinctive character in three periods of American history the era of tramps and hoboes in the late 1800s early 1900s the era of transients and migrants in the 1930s and the era of homeless and street people in the last 40 years It clarifies the multiple meanings of the word homeless today and demonstrates that homelessness is a symptom of more than one problem leading to confusion about the issue of homelessness and hampering attempts to reduce its occurrence Author Neil Larry Shumsky PhD also postulates that the treatment of homelessness in England before the colonization of North America laid the foundation of pervasive American attitudes and practices Housing and Homelessness Sophie Watson, 2025-11-18 Houses do not simply represent a form of shelter in addition they embody the dominant ideology of a society and reflect the way in which that society is organised Originally published in 1986 and written by two leading authorities on the subject this book tackles the problems of housing homelessness and women in the family from a feminist perspective It explores how housing helps to reproduce women s role within the family both today and historically It looks at the way British society in particular and western society in general defines and creates housing needs It discusses the way housing is provided and allocated to exclude specific forms of household and describes the experiences of a particular group single women upon whom these processes have profound impact Making effective use of interview material the authors analyse the experience and needs of women without secure accommodation Their study will be a useful text on social policy and welfare courses and with its strong political implications will also be of great interest to community workers and to local authority housing departments
