The Mushroom Circle A Fairy Tale For Giants:

The Mushroom Circle Clare C. Newbury, 2001-11-02 When you were a child did you ever put a tooth under your pillow hoping the tooth fairy would come to take it and leave a coin in its place Did you ever worry that there might be goblins in the woods Have you ever seen a moth fly by and wondered if it just might be a pixie Have you stepped inside a ring of mushrooms and experienced the magic of the mushroom circle Step into the circle now Off the coast of Maine lies Terrapin Island shaped like a tortoise whose seaweed covered head disappears at high tide Rings of Marasmius Oreades mushrooms have been growing on the island for hundreds of years Each year the rings grow larger like droplets in a puddle until they reach the boundary of rocks that lets them go no further The entire island lies within the magic circle Terrapin Island is inhabited by giants who are people rather like yourself and by wee folk who are tiny fairies and goblins of the sort most giants cannot see and certainly do not believe in The wee folk however are very aware of the giants and for the most part take a dim view of the way they live You will be introduced to Fearbabe the mesmerizing king of the goblins His dysfunctional band of hooligans includes Obsequia Hotspur and Whipcad the trio most recently banished to goblinhood by the fairies You will meet the fairy architect Aerial Fog an ethereal pale green sprite who glows with the power of love and who has a friend among the giants Marian Fuller an eccentric and ageless artist winters in Mexico and spends her summers as librarian on Terrapin Island Marian provides Aerial Fog with building materials in exchange for information about the wee folk You will get to know Marian's seven and a half year old friend Dawn McKay who suspects that Marian is a witch Dawn loses a tooth in Marian's kitchen early one morning That night two fairies Featherbell and Fiddlehead are sent to fetch the tooth from under Dawn's pillow Their efforts are hampered by Dawn's father Boo's attempt to play the role of tooth fairy himself You will encounter Harriet Gracewell an eighty three year old bird watcher who dresses only in black and takes care of her cranky invalid sister in law Estelle Harriet accidentally finds herself in possession of a tiny cloak belonging to Osmosis the gnome She shows the little garment to Marian Fuller who tells her it must be returned to its owner Complications arise when the cloak falls into the hands of Fearbabe the goblin Harriet Marian and Dawn join forces with the fairies to make a trade with Fearbabe Because of their helpful interactions with the wee folk Marian Harriet and Dawn are invited to attend the fairies Summer Solstice celebration at which a particularly surprising event transpires [The Oxford Companion to Fairy Tales](#) Jack Zipes, 2015 This Oxford companion provides an authoritative reference source for fairy tales exploring the tales themselves both ancient and modern the writers who wrote and reworked them and related topics such as film art opera and even advertising **In the Company of Mushrooms** Moselio Schaechter, Elio Schaechter, 1998 We might slice them into a salad savor them in a sauce wonder at their power to intoxicate or poison marvel at their multifarious presence in the forest but few of us realize that mushrooms humbly thriving on decay are crucial to life on Earth as we know it In this book a distinguished biologist long intrigued by the secret life of fungi reveals the power of these curious organisms not quite animal

not quite plant to enchant and instruct to nourish and make way for all sorts of superior forms of nature In a style at once learned and quirky personal and commanding Elio Schaechter imparts the fascinating minutiae and the weighty implications of his subject a primarily microscopic life form that nonetheless accounts for up to two tons of matter for every human on the planet He shows us how fungi the great decomposers recycle most of the world s vegetable matter from a blade of grass to a strapping tree and thus prevent us from sinking under ever accumulating masses of decaying matter With the same expertise and contagious enthusiasm that he brings to the biology of mushrooms Schaechter conveys the allure of the mushroom hunt Drawing on his own experience as well as that of seasoned pickers and amateur mycologists he explains when and where to find mushrooms how they are cultivated and how they are used in various cultures From the delectable to the merely tolerable from the hallucinogenic to the deadly a wide variety of mushrooms are covered in this spirited presentation

Ploughing the Clouds Peter Lamborn Wilson,2021-10-20 The Rig Veda written in India about 1500BC praises a holy plant called Soma which is sacrificed and consumed granting the drinker an experience of enlightenment and ecstasy The late Gordon Wasson identified Soma as a magic mushroom Amanita muscaria and he and his followers discovered that such Indo Europeans as the ancient Greeks Iranians and Norse had also used a Soma type plant In Ploughing the Clouds Peter Lamborn Wilson investigates the probability of a Soma cult in ancient Ireland tracing clues in Irish and other Celtic lore By comparing Celtic folktales romances epics and topographic lore with the Rig Veda he uncovers the Irish branch of the great Indo European tradition of psychedelic or entheogenic shamanism and even reconstructs some of its secret rituals He uses this comparative material to illuminate the deep meaning of the Soma function in all cultures the entheogenic origin of poetic frenzy the link between intoxication and inspiration

On & Off Francisco Javier Morales E.,2022-02-04 The elevator door opened and he mechanically went to where he always parked his car and began to wax it After a while when he was almost done he realized that he had waxed another car a Toyota very similar to his Damn I am such an idiot he said to himself When he was about to finish waxing the car he saw his new neighbor enter the basement and said surprised and with disapproval Hey what is wrong with you I did not ask you to wax my car When did I ask you Raul felt like a real idiot for a couple of seconds and even though he knew that his brain was not fully working he told her with his best smile There are those who ask for a cup of sugar to meet their neighbor and there are those who wax their car You are my neighbor right Can I borrow a cup of sugar
