The Mutation:

The Mutation Theory: The origin of varieties by mutation Hugo de Vries,1910 *The Mutation Theory; Experiments and Observations on the Origin of Species in the Vegetable Kingdom: The origin of species by mutation* Hugo de Vries,1909

The Mutation of European Consciousness and Spirituality Willy Obrist,2018-05-11 From the early 1970s the author worked on the neglected theory of C G Jung s depth psychology incorporating it into modern knowledge about living organisms and reflecting on the consequences of Jung s discovery for our worldview and religion What is new about the present study is that the author approaches the religious metamorphosis from the perspective of the evolution of consciousness itself The result of his exploration made the author realize that the development of European consciousness was not just an accidental historical process but a true evolutionary step a mega mutation of consciousness In this process the basic parameter of the mythical understanding of our world was overcome and replaced by a completely new worldview which after the discovery of the unconscious by Freud and Jung was founded on scientific results empirically proved This enables humanity to transcend the dilemma between knowledge and faith and to find a new understanding of both matter and mind that is adequate to today s knowledge of nature From this point of view a radically new access to spirituality and ethics becomes possible The Mutation Theory: The origin of species by mutation Hugo de Vries,1910 Importance of the Mutation Theory in Practical Breeding George Harrison Shull,1908 *A Comparative Study of the Mutation Frequency and Genetic Behavior of Mutants Induced by Acute and Chronic Gamma Irradiation in Common Beans* , Mutation and Evolution Ronny C.
