The Bradys and Gump High; Or, The Mystery of the Ruined Joss House, 1907 A'Chu and

Other Stories Emma Anderson, 1920 A Concise History of Chinese Philosophy Qi Feng, Weiping Chen, 2023-07-03 This book is an abridged version of Feng Qi's two major works on the history of philosophy: *The Logical Development of Ancient Chinese Philosophy* and *The Revolutionary Course of Modern Chinese Philosophy*. It is a comprehensive history of Chinese philosophy taking the reader from ancient times to the year 1949. It illuminates the characteristics of traditional Chinese philosophy from the broader vantage point of epistemology. The book revolves around important debates including those on Heaven and humankind, *tian ren* names and actualities, *mingshi* principle and vital force, *liqi* the Way and visible things, *daoqi* mind and matter, things *xinwu* and knowledge and action *zhixing*. Through discussion of these debates, the course of Chinese philosophy unfolds. Modern Chinese philosophy has made landmark achievements in the development of historical and epistemological theory, namely the dynamic and revolutionary theory of reflection. However, modern Chinese philosophy is yet to construct a systematic overview of logic and methodology as well as questions of human freedom and ideals. Amid this discussion, the question of how contemporary China is to take the baton from the thinkers of the modern philosophical revolution is addressed.

Trestle Board, 1923 **An Intellectual History of China, Volume One** Zhaoguang Ge, 2014-01-30 Winner of the 2014 Choice Outstanding Academic Title Award. In *An Intellectual History of China*, Professor Ge Zhaoguang presents a history of traditional Chinese knowledge, thought, and belief to the late six century CE with a new approach offering a new perspective. It appropriates a wide range of source materials and emphasizes the necessity of understanding ideas and thought in their proper historical contexts. Its analytical narrative focuses on the dialectical interaction between historical background and intellectual thought. While discussing the complex dynamics of interaction among the intellectual thought of elite Chinese scholars, their historical conditions, their canonical texts, and the worlds of general knowledge, thought, and belief, it also illuminates the significance of key issues such as the formation of the Chinese world order and its underlying value system, the origins of Chinese cultural identity, and foreign influences.
