

MISBEGOTTEN

Subrace (any race)

The Misbegotten are a twisted and corrupted offshoot of their original race, tainted by the dark forces of eldritch creatures. Mutated and imbued with otherworldly power, they possess unique abilities that reflect their connection to the eldritch realm. Though shunned by many, the Misbegotten navigate a delicate balance between embracing their newfound abilities and retaining their ancestral sense of identity.

Ability Score Increase. Your Constitution score is increased by 1.

Cursed Descentance. The energies of the void have tainted your blood and transformed your inherent racial abilities. The Misbegotten subrace replaces the features of other subraces, such as a Variant Human's feat or a High Elf's magic and weapon proficiencies.

ELDRITCH MUTATION

Due to your eldritch corruption, you gain one of the following traits based on the type of eldritch creature that tainted your bloodline. Choose one option from the list below:

Aberrant Form. Your body has undergone significant aberrant mutations. You have advantage on saving throws against being charmed or frightened. Additionally, you can use a bonus action to extend or retract a set of tentacle-like appendages from your back. These appendages have a reach of 10 feet and can be used as natural weapons, dealing 1d4 bloodgeoning damage. While they are extended, you gain a climbing speed equal to your walking speed minus 10 feet, and have advantage on acrobatics and athletics checks that can be reasonably aided by your appendages.

Twilight Veil. Shadows cling to your form, and darkness seems to be your ally. You have darkvision out to a range of 60 feet, which pierces through magical darkness. Additionally, you can cast the Darkness spell once per day without expending a spell slot. You regain the ability to cast it after finishing a short rest. You gain advantage on stealth checks when in dim light or darkness.

Whispers of Madness. Unsettling whispers echo within your mind, granting you insight into the minds of others. You have advantage on saving throws against being charmed and cannot be put to sleep by magical means. Additionally, you can cast the Detect Thoughts spell once per day without expending a spell slot. You regain the ability to cast it after finishing a long rest.

TAINTED RESILIENCE

Your corrupted physiology grants you resistance to one damage type associated with the eldritch creature that tainted your bloodline. Choose one damage type from the following options: psychic, fire, acid, necrotic, or cold. In addition, you have advantage on saving throws against disease and the poisoned condition.
