Napoleon III James F. Mcmillan,2014-06-06 In this assessment James McMillan moves away from ideologically based representations of the man to focus on his use of power He recognises the Emperor as a highly skilled operator who in the face of innumerable obstacles attempted to conduct an original policy

Napoleon III and His Regime David Baguley,2000-11-01 Referred to in his time as the Pretender and the sphinx of the Tuileries Louis Napoleon Bonaparte the nephew of Emperor Napoleon I of France and himself ruler of the Second Empire 1852 1870 so managed the manufacture of his public image and the masking of his private self that he is ultimately unknowable to this day From the mysterious circumstances of his conception in 1807 to the strange events of his downfall in 1870 and death in 1873 he lived loved and reigned in an extraordinary aura of myth and fantasy under the shadow of his more famous uncle Taking a highly innovative approach to this intriguing historical figure David Baguley entertains sources in a range of media and forms pictures performances spectacles rituals music fiction poems plays architecture fashion as well as Louis Napoleon's own writings to explore how the ruler was represented invented and interpreted by detractors and defenders alike The dynamic process by which the legend of Napoleon III was elaborately fabricated and then vigorously dismantled unfolds under Baguley's hand not chronologically but by generic categories reflecting the author's underlying conviction that history and literary depictions are not as incompatible as is often assumed Baguley examines works by among many others Victor Hugo Karl Marx Emile Zola Honoré Daumier Jacques Offenbach Gustave Flaubert and Elizabeth Barrett Browning that range from history and biography to romanticized versions of the Emperor's feats to parody caricature and satire With its conspiratorial origins its rising and dramatically falling action its schemes scandals and tragic denouement the Second Empire appears designed to inspire writers and artists Napoleon III Baguley observes could well have been the central character or temperament in a naturalist novel While most historians consider Louis Napoleon's coup d'état of December 1851 to be his boldest endeavor Baguley shows in this expansive and eloquent work that his most extravagant venture was to found a second Napoleonic empire and he illustrates not only the power of the name and the image but also the precariousness of the Emperor's reliance upon them For Napoleon III dissimulation was his natural state opportunist or utopian reformer or something in between he must remain one of history's most elusive and controversial figures ever resisting final assessment

Human Nature and the Causes of War John David Orme,2018-04-07 What are the causes of war Wars are generally begun by a revisionist state seeking to take territory The psychological root of revisionism is the yearning for glory honor and power Human nature is the primary cause of war but political regimes can temper or intensify these passions This book examines the effects of six types of regime on foreign policy monarchy republic and sultanistic charismatic and military and totalitarian

dictatorship Dictatorships encourage and unleash human ambition and are thus the governments most likely to begin ill considered wars Classical realism modified to incorporate the impact of regimes and beliefs provides a more convincing explanation of war than neo realism The Biography Book Daniel S.
