The Musical Impulse:

The Musical Impulse Christopher Bonds, 1994 **The Aesthetic Impulse** Malcolm Ross, 2016-06-03 The Aesthetic Impulse discusses art as a commitment to the development of intelligent feeling This book discusses the central value of the arts in education as aesthetic as the qualification of sensibility This text describes the academics and the instrumentalists as challengers for what arts education is and allow integration into mainstream education The arts are different and such difference is their strength This book also defines sensibility aesthetics and the exploration of the vernacular principle or popular art This text explains what is whole and holy what a good cultural education is and labels the educational system under the present conditions as the enemy The book proposes an Aesthetic Education Department or faculty assigned for coordinating an aesthetic curriculum This text assesses aesthetic development in children in terms of pragmatic attention disinterested attention and tacit attention This book also explains the development of art drama and music into the teen age years and also points out that aesthetic education involves development of sensual knowledge This book is suitable for arts teachers child educators school counselors and school administrators as well as students in the arts **The Musical Language of Italian Opera, 1813-1859** William Nathan Rothstein, 2023 The Musical Language of Italian Opera 1813 1859 examines operatic music by five Italian composers Rossini Bellini Mercadante Donizetti and Verdi and one non Italian Meyerbeer showing how certain recurring principles define a distinctively Italian practice that left its mark on the German repertoire more familiar to music theorists **The Musical World** , 1837 *Focal Impulse Theory* John Paul Ito, 2021-01-05 Music is surrounded by movement from the arching back of the guitarist to the violinist swaying with each bow stroke To John Paul Ito these actions are not just a visual display rather they reveal what it really means for musicians to move with the beat organizing the flow of notes from beat to beat and shaping the sound produced By developing focal impulse theory Ito shows how a performer s choices of how to move with the meter can transform the music s expressive contours Change the dance of the performer s body and you change the dance of the notes As Focal Impulse Theory deftly illustrates bodily movements carry musical meaning and in a very real sense are meaning **Poetic Creation** Carl Fehrman, 1980-02-22 Poetic Creation was first published in 1980 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Myths of creativity have changed throughout Western literary history The Romantic era cherished the idea of creativity as a spontaneous unpremeditated act closely related to improvisation In the twentieth century the myth of the writer as a worker among workers has competed with the Surrealist myth of the spontaneous author who writes in a sort of trance Yet there can be no doubt that the creative process as such crosses historical boundaries Carl Fehrman devotes this book to the process of artistic creativity focusing on the dichotomy between inspiration and effort and using texts and manuscripts from the period of early Romanticism to present Fehrman is primarily concerned with the creativity of poets and

draws on authorial accounts of the process the analysis of manuscripts in successive drafts psychological and linguistic experiments in creativity and accounts of creativity in other fields At the heart of the book are case studies on Coleridge s writings of Kubla Khan Poe s composition of The Raven And Valery s account of his prolonged work on Le Cimetiere Marin Fehrman also deals with literary works that have undergone genre transformation Ibsen s Brand and Selma Lagerlof s Gosta Berlings Saga In closing chapters he draws upon his case studies and other materials to provide fascinating insights into both productivity and its converse blocked creativity and in this context discusses the general problem of periodicity in a creative life Fehrman works within a Swedish aesthetic tradition which has attracted philosophers art historians and literary scholars since the turn of the century all of them intent on discovering the origins of the work of art This translation brings his work to Englishspeaking literary scholars and will be of special interest to those concerned with comparative aesthetics and the creative process

The Music of Theology Andrew Hass,Mattias Martinson,Laurens ten Kate,2024-02-01 This book reconceives theology as a musical endeavour in critical tension with language space and silence An Overture first moves us from music to religion and then from theology back to music a circularity that drawing upon history sociology phenomenology and philosophy disclaims any theology of music and instead pursues the music in theology The chapters that follow explore the three central themes by way of theory music and myth Adorno Benjamin and Deleuze language Derrida Rosa and Nancy space Schelling Hegel Homer and Cage silence In overdubbing each other these chapters work towards theology as a sonorous rhythm between loss and freedom A Coda provides three brief musical examples Thomas Tallis Gy rgy Ligeti and Evan Parker as manifestations of this rhythm to show in summary how music becomes the very pulse of theology and theology the very intuition of music The authors offer an interdisciplinary engagement addressing fundamental questions of the self and the other of humanity and the divine in a deconstruction of modern culture and of its bias towards the eye over the ear The book harmonizes three scholarly voices who attempt to find where the resonance of our Western conceptions and practice musically and theologically might resound anew as a more expansive music of theology
