The United States and Cultural Heritage Protection in Japan (1945-1952) Nassrine Azimi,2025-10-01 One of the untold stories of the American military occupation of Japan from 1945 to 1952 is that of efforts by the Arts and Monuments Division of the Supreme Commander for the Allied Powers SCAP for the preservation of Japan s cultural heritage While the role of Allies after WWII in salvaging the cultural heritage of Europe has recently become better known not much is written of the extraordinary vision planning and endeavors by curators and art specialists embedded in the US military and later based in Tokyo and their peers and political masters back in Washington D C all of whom ensured that defeated Japan s cultural heritage was protected in the chaos and misery of post war years

The Nature and Origins of Japanese Imperialism Donald Calman,2013-02-01 This important book which many will regard as controversial argues convincingly that the Japanese imperialism of the first half of the Twentieth Century was not a temporary aberration The author looks at the detail of the great crisis of 1873 and shows that the prospect of economic gain through overseas expansion was the central issue of that year s political struggles He goes on to show that Japan had a long earlier history of aiming for economic expansion overseas and that Japan s Twentieth Century imperialism grew out of this In addition he argues convincingly that much of the writing about Japan has played down the true extent and nature of Japanese imperialism

Japan Among the Powers, 1890-1990 Sydney Giffard,1997-01-01 This absorbing book written by an author who lived in and studied Japan for many years provides a fresh perspective on Japan s history politics and culture over the past hundred years It traces Japan s phenomenal development into one of the world s great powers portraying events in Japan and its rapid industrialization as they were shaped by Japanese decision makers rather than as they were perceived by the outside world Beginning in 1890 the year in which the country s first modern constitution came into being and the Imperial Diet was first convened Sydney Giffard describes Japan s determination to gain an equal place with the dominant nations of the West He examines the complex interplay of forces underlying economic development through the century during peace and war analyzing the conflicts and contradictions as well as the achievements Recognizing the role of individuals in the development of modern Japan he includes insights into many important leaders from those who directed comprehensive national transformation at the start of the century to those who inspired economic recovery after World War II He concludes by analyzing the demand for political reform in Japan up to the spring of 1992 and commenting on its implications for Japan s future as a world power

Murray, 2004-01-01 Historians have long claimed that a tradition of fear of Japan dominated Australian thinking about foreign affairs and defense after Japan s defeat of Russia in 1905 and that this fear remained widespread throughout the Australian population until the Pacific War This study of Australian reporting on Japan challenges that claim by exposing a culture of state censorship intimidation of the media and neglect of official public discussion of foreign affairs in the years 1931 1941 which resulted in newspapers radio and news reels projecting a collective national consciousness of Japan as a nation of little import despite very real fears in senior political ranks about Japanese designs on Australia Jacqui Murray s argument for the

Australian media's underestimation of Japan's threat is sustained by close examination of media practices, publications and broadcasts which clearly show misleading representations of Japan before the Pacific War. Watching the Sun Rise details not only government peace time media censorship but also war time propaganda flows from Australian, British and Japanese sources into the Australian media and examples of cooperation and or espionage among media personnel.

Japans Struggle With Internation Ian Nish, 2012-11-12 This a study of the Manchurian and Shanghai crises the first serious confrontation between Japan and the world community. The Manchurian crisis was one of the major international crises of the period between World Wars I and II. For Britain and America it bred a new distrust of Japanese long term national objectives. It also brought home to all concerned the weaknesses of the League of Nations and the other instruments of collective security which had been devised to deal with problems of the Pacific Ocean area. The first focus of this study is on how one of the international bodies of the time the League of Nations attempted to cope with the emergency that broke out in the east in September 1931. The second focus is on the clash of attitudes in Japanese politics. The period covered by the Manchurian crisis was the point when civilian government in Japan was seriously challenged for the first time in the 20th century. The book offers a fresh account of the crisis making use of new materials in Japanese and in English which have become available and which have been drawn upon for this work. These throw new light on the struggles both within Japan and among League enthusiasts to ensure that Japan the Asian state which was at once most stable and economically most successful should not end up in isolation.
