Everyday Consumption in Twenty-First-Century

Brazilian Fiction Lígia Bezerra, 2022-08-15 Everyday Consumption in Twenty First Century Brazilian Fiction is the first in depth study to map out the representation of consumption in contemporary Brazilian prose highlighting how our interactions with commodities connect seemingly disconnected areas of everyday life such as eating habits the growth of prosperity theology and ideas of success and failure It is also the first text to provide a pluralistic perspective on the representation of consumption in this fiction that moves beyond the concern with aesthetic judgment of culture based on binaries such as good bad or elevated degraded that have largely informed criticism on this body of literary work Current Brazilian fiction provides a variety of perspectives from which to think about our daily interactions with commodities and about how consumption affects us all in subtle ways Collectively the narratives analyzed in the book present a wide spectrum of more or less hopeful portrayals of existence in consumer culture from totalizing dystopia to transformative hope

The Peninsula Question

Yoichi Funabashi, 2008-09-01 In October 2002 the United States confronted North Korea with suspicions that Pyongyang was enriching uranium in violation of the Agreed Framework that the nations had worked out during the Clinton administration North Korea subsequently evicted international monitors and resumed its nuclear weapons program The Peninsula Question chronicles the resulting second Korean nuclear crisis Japanese journalist Yoichi Funabashi informed by interviews with more than 160 diplomats and decision makers from China Japan Russia South Korea and the United States provides a behind the scenes look at the negotiations to denuclearize the peninsula Between 2002 and 2006 a series of top level diplomats including the prime minister of Japan attempted to engage with North Korea Funabashi illustrates how the individual efforts of these major powers laid the groundwork for multilateral negotiations first as the trilateral meeting and then as the Six Party Talks The first four rounds of talks 2003 2005 resulted in significant progress Unfortunately a lack of implementation after that breakthrough ultimately led to North Korea's missile tests in July and subsequent nuclear tests in October 2006 The Peninsula Question provides a window of understanding on the historical geopolitical and security concerns at play on the Korean peninsula since 2002 Offering multiple perspectives on the second Korean nuclear crisis it describes more than just the U S and North Korean points of view It pays special attention to China's dealings with North Korea providing rare insights into the decision making processes of Beijing This is an important authoritative resource for understanding the crisis in Korea and diplomacy in Northeast Asia
