and inspiration you need to succeed      Mortimer J. Adler,2009-08-01 In this classic work Adler explores how man differs from all other things in the universe bringing to bear both philosophical insight and informed scientific hypotheses concerning the biological and behavioral characteristics of mankind Rapid advances in science and technology and the abstract concepts of that influence on man and human value systems are lucidly outlined by Adler as he touches on the effect of industrialization and the clash of cultures and value systems brought about by increased communication between previously isolated groups of people Among the other problems this study addresses are the scientific achievements in biology and physics which have raised fundamental questions about humanity s essential nature especially the discoveries in the biological relatedness of all living things Thrown into high relief is humanity s struggle to determine its unique status in the natural world and its value in the world it has created Ultimately Adler s work develops an approach to the separation between scientific and philosophical questions which stands as a model of thought on philosophical considerations of new scientific discoveries and its consequences for the human person      **The Great Ideas of Religion and Freedom**

### **Jews and the**

**Gospel at the End of History** Jim Congdon, 2009-11-01 Enlightened essays fill the pages of this tribute to Moishe Rosen. Using evangelism, ethics, and eschatology as dividing sections, *Gospel at the End of History* produces profound insights of the best theologians, exegetes, and historians who especially understand the Jewish-Christian tensions. Many Jewish Messianic Jew and Christian issues are seamlessly broached in this volume and are woven together expertly and beautifully. There are no easy solutions, and this book can attest to the sensitivities of Jewish-Christian dialogue, but this book does a great service to the reader to bring them to a greater understanding of how, what, and why of evangelism, ethics, and eschatology.

*God's Beauty* Patrick T. McCormick, 2012 What if we began our study of Christian ethics not with an examination of our moral duties but with an exploration of the call of beauty? For like justice, beauty generates a call to a larger, more generous self. In *God's Beauty*, Patrick McCormick asks: How does the beauty of the righteous community manifest the glory of God? How can we imitate and improve this beauty by reforming our own societies? What fundamental need and right do all of us, especially the poor, have to experience and create beauty in our lives and communities? Why is it also essential to our own humanity that we recognize and treasure the beauty of the stranger, alien, and foe, and resist every effort to render these unrecognized neighbors ugly? McCormick offers a fresh, positive approach to moral arguments, calling us to work for social justice. Instead of laying out the evils of failing to work for justice, protect human rights, overcome alienation and hostility, or tend to the earth, *God's Beauty* focuses on the calling of divine beauty, summoning us to be tenders and creators of beauty.
