Narrative, Interrupted Markku Lehtimäki, Laura Karttunen, Maria Mäkelä, 2012-08-31 Recent postclassical narratology has constructed top down reading models that often remain blind to the frame breaking potential of individual literary narratives Narrative Interrupted goes beyond the macro framing typical of postclassical narratology and sets out to sketch approaches more sensitive to generic specificities disturbing details and authorial interference Unlike the mainstream cognitive approaches or even the emergent unnatural narratology the articles collected here explore the artifice involved in

presenting something ordinary and realistic in literature The first section of the book deals with anti dynamic elements such as dialogue details private events and literary boredom The second section devoted to extensions of cognitive narratology addresses spatiotemporal oddities and the possibility of non human narratives The third section focuses on frame breaking fragmentarity and problems of authorship in the works of Vladimir Nabokov The book presents readings of texts ranging from the novels of Don DeLillo and Thomas Pynchon to the Animal Man comics The common denominator for the texts discussed is the interruption of the chain of events or of the experiential flow of human like narrative agents *Aircraft* David Pascoe,2004-09-03 In his celebrated manifesto *Aircraft* 1935 the architect Le Corbusier presented more than 100 photographs celebrating airplanes either in imperious flight or elegantly at rest Dwelling on the artfully abstracted shapes of noses wings and tails he declared Ponder a moment on the truth of these objects Clearness of function In *Aircraft* David Pascoe follows this lead and offers a startling new account of the form of the airplane an object that in the course of a hundred years has developed from a flimsy contraption of wood wire and canvas into a machine compounded of exotic materials whose wings can touch the edges of space Tracing the airplane through the twentieth century he considers the subject from a number of perspectives as an inspiration for artists architects and politicians as a miracle of engineering as a product of industrialized culture as a device of military ambition and finally in its clearness of function as an instance of sublime technology Profusely illustrated and authoritatively written *Aircraft* offers not just a fresh account of aeronautical design documenting in particular the forms of earlier flying machines and the dependence of later projects upon them but also provides a cultural history of an object whose very shape contains the dreams and nightmares of the modern age

**Printing History and Cultural Change** Richard Wendorf,2022-03-24 This study provides one of the most detailed and comprehensive examinations ever devoted to a critical transformation in the material substance of the printed page it carries out this exploration in the history of the book moreover by embedding these typographical changes in the context of other cultural phenomena in eighteenth century Britain The gradual abandonment of pervasive capitalization italics and caps and small caps in books printed in London Dublin and the American colonies between 1740 and 1780 is mapped in five year increments which reveal that the appearance of the modern page in English began to emerge around 1765 This descriptive and analytical account focuses on poetry classical texts Shakespeare contemporary plays the novel the Bible the Book of Common Prayer sermons and religious writings newspapers magazines anthologies government publications and private correspondence it also examines the reading public canon formation editorial theory and practice and the role of typography in textual interpretation These changes in printing conventions are then compared to other aspects of cultural change the adoption of the Gregorian calendar in 1752 the publication of Johnson s Dictionary in 1755 the transformation of shop signs and the imposition of house numbers in London beginning in 1762 and the evolution of the English language and of English prose style This study concludes that this fundamental shift in printing conventions was closely tied to a pervasive interest in

refinement regularity and standardization in the second half of the century and that it was therefore an important component in the self conscious process of modernizing British culture      **Mark My Words** Lee Clark Mitchell, 2020-05-14 Why are Emily Dickinson and Henry James drawn habitually to dashes What makes James Baldwin such a fan of commas which William Carlos Williams tends to ignore And why do that odd couple the novelist Virginia Woolf and the short story specialist Andre Dubus II both embrace semicolons while E E Cummings and Nikki Giovanni forego punctuation entirely More generally what effect do such nonverbal marks or their absence have on an author's encompassing vision The first book on modern literature to compare writers punctuation and to show how fully typographical marks alter our sense of authorial style Mark My Words offers new ways of reading some of our most important and beloved writers as well as suggesting a fresh perspective on literary style itself
