Understanding and Facilitating Organizational Change in the 21st Century: Recent Research and Conceptualizations Adrianna Kezar,2011-10-06 There is a widespread discontent with the quality of education and levels of college student achievement particularly for undergraduates preparing for the professions This report examines the educational challenges in preparing professionals reviews the specific types of curriculum innovations that faculty and administrators have created or significantly revised to strengthen college graduates abilities and focuses on the societal changes and expectations produced by the acceleration in technology

Technology Management Tod Treat,2011-07-07 Gain a greater understanding of technology management and what it means to the community college campus today Effective planning directing control and coordination of technological capabilities can shape and help accomplish your institution s strategic and operational objectives Editor Tod Treat assistant professor in the Department of Education Policy Organization and Leadership at the University of Illinois at Urbana Champaign and contributing authors explore community college technology management from a variety of vantage points They argue that technology management should be a strategy on par with physical human

and fiscal management They demonstrate how technology can be used to reach students how it plays a critical role in institutional research how it impacts faculty and staff and how it continues to shape broad trends in teaching and learning This is the 154th volume of the Jossey Bass quarterly report series New Directions for Community Colleges Essential to the professional libraries of presidents vice presidents deans and other leaders in today s open door institutions New Directions for Community Colleges provides expert guidance in meeting the challenges of their distinctive and expanding educational mission *Current Index to Journals in Education* ,1999 **The Public Affairs Faculty Manual** Bruce McDonald III,William Hatcher,2020-02-26 While public affairs faculty study administration and management techniques few administrators of public affairs programs receive formal training in the nuts and bolts of academic administration Even those faculty who come to academia after distinguished careers in managerial positions may not be ready for the very different and difficult environment of university administration The Public Affairs Faculty Manual argues that public affairs as a field needs to ensure that knowledge about administration and management is applied to the running of its academic programs and brings together major leaders in the discipline to explore key features of academic administration Many of these leaders have served as Master of Public Administration MPA directors chairs and deans at the nation s top public affairs programs Crucial issues of academic administration discussed include the basics of public affairs programs models of governance roles of different administrative leaders planning and budgeting for programs navigating the accreditation process assessing and improving student learning ensuring social equity and cultural competency mentoring faculty developing curriculum and helping provide service and applied research to community partners Contributors have served as MPA directors chairs and deans at the nation s top public affairs programs Themes running throughout the book s chapters are examined and additional resources to help manage public affairs programs are offered This collection of essays and the strategies within it are designed to encourage faculty to assume positions of leadership in their programs and manage those programs in an effective efficient and fair manner The Public Affairs Faculty Manual is required reading for new seasoned and aspiring academic administrators in public administration public policy and nonprofit management programs as well as schools of government **Hispanic-Serving Institutions** Anne-Marie Nunez,Sylvia Hurtado,Emily Calderón Galdeano,2015-02-11 Despite the increasing numbers of Hispanic Serving Institutions HSIs and their importance in serving students who have historically been underserved in higher education limited research has addressed the meaning of the growth of these institutions and its implications for higher education Hispanic Serving Institutions fills a critical gap in understanding the organizational behavior of institutions that serve large numbers of low income first generation and Latina o students Leading scholars on HSIs contribute chapters to this volume exploring a wide array of topics data sources conceptual frameworks and methodologies to examine HSIs institutional environments and organizational behavior This cutting edge volume explores how institutions can better serve their students and illustrates HSIs changing organizational dynamics potentials and

contributions to American higher education **Managing Community Colleges** Arthur M. Cohen, Florence B. Brawer, 1994-04-22 This collection of essays focuses on the administration of contemporary community colleges including chapters describing the staffing and functioning of major offices and pertinent issues affecting each area of work The 25 chapters of the book are 1 The Challenging Environment Context Concepts and Crises by Arthur M Cohen and Florence B Brawer 2 Understanding Administrative Work by Estela Mara Bensimon 3 Leadership Strategies by Richard C Richardson Jr and Mimi Wolverton 4 Effective Presidential Leadership Twelve Areas of Focus by George B Vaughan 5 The Governing Board by William E Piland 6 The Community College and the State by James D Tschechtelin 7 How Presidents Influence Public Policy by Judith S Eaton 8 Management Perspectives at the State Level by Earl Hale 9 The President s Office by Daniel F Moriarty 10 Business and Financial Administration by Albert L Lorenzo 11 The Personnel Office by Barbara E Janzen 12 Instructional Programs by Martha J Kanter 13 Articulation and Transfer by Trudy H Bers 14 Community and Industry Programs by Geneva Waddell 15 Student Services by Charles R Dassance 16 Institutional Research by John Losak 17 Campus Planning and Construction by Dan Angel and James Brader 18 Budgeting and Resource Allocation by Michael H Parsons 19 The Administrator s Role in Staff Management by Edwin E Vineyard 20 Faculty Evaluation and Performance Appraisal by Albert B Smith and Jacquelyn A Barber 21 Involving the Board in Personnel Management by Hans A Andrews 22 Managing Educational Operations by Alfredo G de los Santos Jr and Scott Finger 23 Building Relationships with the Community by Billie Wright Dziech 24 Educational Planning and Assessment by James C Palmer and 25 Conclusion The Future Context for Administration by Cohen and Brawer AC **Improving Research-Based Knowledge of College Promise Programs** Laura W. Perna, Edward J. Smith, 2020-03-20 Also known as free tuition and free college programs college promise programs are an emerging approach for increasing higher education attainment of people in particular places To maximize the effectiveness of their efforts and investments program leaders and policymakers need research based evidence to inform program design implementation and evaluation With the goal of addressing this knowledge need this volume presents a collection of research studies that examine several categories and variations of college promise programs These theoretically grounded empirical investigations use varied data sources and analytic techniques to examine the effects of college promise programs that have different design features and operate in different places Individually and collectively the results of these studies have implications for the design and implementation of promise programs if these programs are to create meaningful improvements in attainment for people from underserved groups The authors efforts also provide a useful foundation for the next generation of college promise research **SAGE Secondary Data Analysis** John Goodwin, 2012-07-23 One central and enduring image of the social science researcher is of an individual who commits a great deal of time to collecting original primary data from a field of enquiry This approach is often underpinned by a sincerely held belief that key research questions can only be explored by the collection of ever new and ever greater amounts of data or that already existing data are

insufficient for researchers to test their ideas Yet such an approach to social science research can be problematic not least because the collection of primary data can be an expensive time consuming and even wasteful approach to social enquiry Secondary analysis can serve many purposes as well as being a valid approach in its own right However despite its widespread application secondary analysis is often undervalued or perceived to be the preserve of only those interested in the re use of large scale survey data Highlighting both the theory and practice of secondary analysis and the use of secondary sources this collection considers the nature of secondary analysis as a research tool reflects on the definitional debates surrounding terms such as secondary analysis data re use and restudies illustrates how secondary analysis is used in social science research and finally reviews the practical methodological and ethical aspects of secondary analysis Volume One Using Secondary Sources and Secondary Analysis Volume Two Quantitative Approaches to Secondary Analysis Volume Three Qualitative Data and Research in Secondary Analysis Volume Four Ethical Methodological and Practical Issues in Secondary Analysis

In Search of Servant Leadership Dr. Abeni El-Amin, 2017-11-27 The National and Community Service Trust Act of 1990 defined service learning SL as a method by which students learn and develop through active participation in thoughtfully organized service experiences that meet actual community needs and 1 that are coordinated in collaboration with the school and community 2 that is integrated into the student s academic curriculum or provides structured time for a student to reflect upon service 3 that provides students with opportunities to use newly acquired skills and knowledge in real life situations in their own communities and 4 that enhances what is taught in school by extending student learning beyond the classroom and into the community and helps to foster the development of civic responsibility Thus SL is a method that permits students to learn and develop through active participation in thoughtfully organized service projects in communities that also meet the needs of communities
