Naga, In today's world change is the only constant factor In the last few decades there has been a radical change in how organizations function To survive in this highly volatile environment companies need a long term strategic vision and thinking In light of this strategic management has become a significant topic and is taught as the core subject in MBA PGDM programmes in Indian universities and business schools This is a book written in the context of the Indian business environment but with a global orientation It is comprehensive and contemporary in its approach **Fire Department Strategic Planning** Mark Wallace, 2006 Successful fire service leaders know that a fire department that isn't moving forward is dying or at least in danger of dying In this second edition author Mark Wallace succinctly points out that if you don't know where you're going any road will take you there Fire departments that know where they are going know the environment in which they must operate and have identified how to get there have the best chance of achieving their goals and desires These concepts form the foundation of strategic planning They challenge fire chiefs to escape from the typical operational thinking to begin strategic thinking and ultimately to manage their organizations strategically Readers will learn about the strategic planning process and why each of the steps in the process is critical if the plan is to succeed More importantly while the strategic planning process may be thought of as extremely complicated this book removes the mystery

that some think of when considering strategic planning by providing timely advice and easy to use tools to assist in the strategic planning process     Strategische Managementtheorie Rudi K. F. Bresser, 1998 Keine ausführliche Beschreibung für Strategische Managementtheorie verfügbar
