Hewett,Kevin Eric DePew,2015-04-15 Foundational Practices in Online Writing Instruction addresses administrators and instructors questions for developing online writing programs and courses Written by experts in the field this book uniquely attends to issues of inclusive and accessible online writing instruction in technology enhanced settings as well as teaching with mobile technologies and multimodal compositions *Harcourt Brace Guide to Teaching First Year Composition* Kathryn Rosser Raign,1997-12 This text is designed for teachers of writing at all levels but particularly for those teaching for the first time and for teachers responsible for mentoring and guiding first time teachers **Teaching First-Year College Students** Maggie Murphy,2019-05-15 The first year experience is an emerging hot topic in academic libraries and many librarians who work with first year students are interested in best practices for engaging and retaining them Professional discussion and interest groups conferences and vendor sponsored awards for librarians working with first year students are popping up left and right A critical aspect of libraries in the first year experience is effective information literacy instruction for first year students Research shows that despite growing up in a world rife with technology and information students entering college rarely bring with them the conceptual understandings and critical habits of thinking needed for finding evaluating and ethically using information in both academic and real world contexts Faculty in upper level courses expect students to learn about the research process in their first year of college and instructors in the first year curriculum expect librarians to teach this to their students Despite all this designing teaching and evaluating effective information literacy instruction specifically for first year students is not necessarily intuitive for instruction librarians That is why *Teaching First Year College Students A Practical Guide for Librarians* is a comprehensive how to guide for both new and experienced librarians interested in planning teaching and assessing library instruction for first year students The book Examines the related histories of library instruction and first year experience initiatives Summarizes and synthesizes empirical research and educational theory about first year students as learners and novice researchers Establishes best practices for engaging first year students through active learning and inclusive teaching Features excerpts from interviews with a number of instruction librarians who work with first year students in a range of positions and instructional contexts Includes examples of activities lesson plans and assessment ideas for first year library instruction for common first year course scenarios Includes a template to use for library instruction lesson planning Written by a library instruction coordinator with a graduate degree in First Year Studies and a first year instruction librarian *Teaching First Year College Students A Practical Guide for Librarians* is the first comprehensive how to guide for both new and experienced librarians interested in planning coordinating teaching and assessing library instruction for first year students **Writing Instruction for Success in College and in the Workplace** Charles A. MacArthur,Zoi A. Philippakos,2023-12 This book describes an innovative evidence based method for

preparing students for the demands of college writing called Supporting Strategic Writers SSW The goal of SSW is to help students become independent learners who understand the value of strategies and can apply them flexibly in future courses and the workplace The text provides genre based strategies for rhetorical analysis planning evaluation and revision critical reading of sources and synthesis of sources that are part of college composition and applicable across contexts and course assignments Equally important to the SSW approach is that students learn metacognitive strategies for goal setting task management progress monitoring and reflection Instructional methods include discussion of model essays think aloud modeling of strategies collaborative writing peer review and self evaluation and reflective journaling Book Features Integrates three critical components strategies for critical reading and writing metacognitive strategies to help students take control of their learning and pedagogical strategies Provides research based approaches for teaching developmental writing courses first year composition summer bridge programs and first year seminars Offers thorough explanations of the strategies and instructional methods with practical examples and support materials for instructors Based on two years of design research and three experimental studies which found significant positive effects on writing quality and motivation with college students in developmental writing courses      First-Year Composition Deborah Coxwell-Teague, Ronald F. Lunsford, 2014-05-01 First Year Composition From Theory to Practice s combination of theory and practice provides readers an opportunity to hear twelve of the leading theorists in composition studies answer in their own voices the key question of what it is they hope to accomplish in a first year composition course In addition these chapters and the accompanying syllabi provide rich insights into the classroom practices of these theorists      **How Students Write: A Linguistic Analysis** Laura Louise Aull, 2020-04-01 Broad generalizations about people today are a familiar feature of first year student writing How Students Write brings a fresh perspective to this perennial observation using corpus linguistics techniques This study analyzes sentence level patterns in student writing to develop an understanding of how students present evidence draw connections between ideas relate to their readers and ultimately learn to construct knowledge in their writing Drawing on both first year and upper level student writing the book examines the discourse of students at different points in their education It also distinguishes between argumentative and analytic essays to explore the way school genres and assignments shape students choices In focusing on sentence level features such as hedges perhaps and boosters definitely this study shows how such rhetorical choices work together to open or close opportunities for thoughtful exchanges of ideas Attention to these features can help instructors foster civil discourse design effective assignments and expose and question norms of higher education      *The Radical Case for Teaching Skim Reading in First-Year Writing* Ellen C. Carillo, 2025-10-15 The Radical Case for Teaching Skim Reading in First Year Writing encourages faculty particularly in writing studies to check internal biases toward deep reading and teach skim reading in first year writing courses Written by Ellen C Carillo who has previously published on the importance of teaching deep reading this small book is a controversial prompt for further

discussion and exploration Data from studies of the lived experiences of undergraduates indicate that students do not need deep reading practices in the majority of their classes across the disciplines and moreover that students succeed in their classes by skim reading Rather than imagining an idealized set of circumstances that allow for sustained deep reading as does a great deal of the scholarship on reading in writing studies The Radical Case for Teaching Skim Reading in First Year Writing argues for teaching students reading practices that will support their success in their college writing assignments rather than those strategies the field believes should support their success In our information landscape and our fragile democracy encouraging skimming as opposed to deep reading may seem like a gamble this very tendency toward the quick rather than the critical has undoubtedly contributed to the current crisis of mass misinformation However teaching students to use skim reading as a strategic tool for purposeful engagement and efficient yet thoughtful information filtering better equips them to navigate the rapidly changing information landscape and manage the fast paced flow of content from diverse media sources

**Improving Writing and Thinking Through Assessment** Teresa L. Flateby, 2010-06-01 Improving Writing and Thinking through Assessment is designed to help individual faculty and administrators select assessment approaches and measures to maximize their students writing and thinking The book offers useful guidance through presentation of recommended assessment guidelines and measurement principles in Part 1 and applications from a variety of contributors in Part 2 It addresses a wide range of audiences including instructors who want to assess and thus foster writing and thinking in their courses administrators and instructors planning to assess writing and thinking at the program or institutional level and graduate students interested in improving students writing and critical thinking This book is more guide than a cookbook By providing comprehensive standards and criteria that help individuals or teams develop plans and measures to improve writing and thinking the book should be helpful for academic and Student Affairs administrators and faculty as the principles apply equally to all engaged in assessment Contributors representing a wide range of educators illustrate many of the approaches and methods described in the theoretical section of the book using a variety of assessment strategies at both classroom and program levels Readers will see how different types of institutions both private and public as well as undergraduate and graduate have designed assessment strategies and plans to gauge and enhance writing and thinking growth in the classroom and across programs They candidly describe challenges encountered and solutions they adopted or suggest These chapters reflect approaches and perspectives from various discourse communities including writing program administrators composition faculty assessment professionals and individual faculty representing several disciplines The author argues the urgent need to develop strong writers and thinkers She discusses challenges and obstacles but underscores the necessity for more faculty involvement and institutional commitment This book will help institutions and individual faculty design and implement sound meaningful assessment strategies to foster effective writing and thinking that will both advance the goals of the institutional mission and meet faculty s disciplinary objectives and scholarly concerns

**Negotiating a Meta-Pedagogy** Toni Glover, Emily Golson, 2009-03-26 A vital new resource for rhetoric and composition teachers and writing program administrators has arrived In the twenty years I have been training teachers and tutors of writing there have been few collections that specifically address the training of teachers of composition While excellent such collections are often not updated to reflect the most current research in rhetoric and composition especially those theoretical and pedagogical influences that Negotiating a Meta Pedagogy includes It is not surprising then that training composition teachers is often dependent upon cobbled together course packs and anecdotal pedagogy The field needs this book and each contribution the editors have chosen significantly helps ratchet up the pedagogy of pedagogy and now rhetoric long considered a meta discipline by those of us in the field has an official meta pedagogy resource to call its own Cynthia Haynes Clemson University

**Composition, Rhetoric, and Disciplinarity** Rita Malenczyk, Susan Miller-Cochran, Elizabeth Wardle, Kathleen Yancey, 2018-04-02 Edited by four nationally recognized leaders of composition scholarship Composition Rhetoric and Disciplinarity asks a fundamental question can Composition and Rhetoric as a discipline continue its historical commitment to pedagogy without sacrificing equal attention to other areas such as research and theory In response contributors to the volume address disagreements about what it means to be called a discipline rather than a profession or a field elucidate tensions over the defined breadth of Composition and Rhetoric and consider the roles of research and responsibility as Composition and Rhetoric shifts from field to discipline Outlining a field with a complex and unusual formation story Composition Rhetoric and Disciplinarity employs several lenses for understanding disciplinarity theory history labor and pedagogy and for teasing out the implications of disciplinarity for students faculty institutions and Composition and Rhetoric itself Collectively the chapters speak to the intellectual and embodied history leading to this point to questions about how disciplinarity is and might be understood especially with regard to Composition and Rhetoric to the curricular conceptual labor and other sites of tension inherent in thinking about Composition and Rhetoric as a discipline and to the implications of Composition and Rhetoric s disciplinarity for the future Contributors Linda Adler Kassner Elizabeth H Boquet Christiane Donahue Whitney Douglas Doug Downs Heidi Estrem Kristine Hansen Doug Hesse Sandra Jamieson Neal Lerner Jennifer Helene Maher Barry Maid Jaime Armin Mej a Carolyn R Miller Kelly Myers Gwendolynne Reid Liane

Davis, 2016-02-17 The Music History Classroom brings together essays written by recognized and experienced teachers to assist in the design implementation and revision of college level music history courses This includes the traditional music history survey for music majors but the materials presented here are applicable to other music history courses for music majors and general education students alike including period classes composer or repertory courses and special topics classes and seminars The authors bring current thought on the scholarship of teaching and learning together with practical experience into the unique environment of the music history classroom While many of the issues confronting teachers in other disciplines are pertinent to music history classes this collection addresses the unique nature of musical materials and the challenges involved in negotiating between historical information complex technical musical issues and the aesthetics of performing and listening This single volume provides a systematic outline of practical teaching advice on all facets of music history pedagogy including course design classroom technology listening and writing assignments and more The Music History Classroom presents the nuts and bolts of teaching music history suitable for graduate students junior faculty and seasoned teachers alike

**Marginalia in Modern Learning Contexts** Reid, Alan J., 2018-11-09 Although reading can be regarded as an isolated and private endeavor the white space in the margins of a printed book or the comments section at the end of an online article can provide a welcomed space for interaction Annotation and marginalia share similar meanings a reader's contribution to a text which might consist of alphabetic image and video content While it has always been more common to think of this strategy in the context of a student and a textbook it is being more widely used through online communications such as commenting on liking and sharing social media posts The behaviors of readers as they engage with a text says a lot about their involvement interest and intentions Marginalia in Modern Learning Contexts is a collection of innovative research on the methods and applications of interaction between readers and texts through digital means such as commenting or physical annotation such as writing in the margins of a book and how these strategies can be applied in educational settings While highlighting topics including social annotation teacher education and technological expertise this book is ideally designed for educators administrators academicians researchers and students seeking current research on digital and physical annotation methods and strategies and their applications in educational environments     *Florida Studies* Claudia Slate, 2009-03-26 Florida was the first region of the United States to be discovered explored and after a fashion settled by Euroamericans Its population in the early 21st century is approaching 17 million Within years the number of people living in the state will surpass those living in New York and the Sunshine State will become the most populous area east of the Mississippi The first book in English about Florida was written by Jean Ribault A French adventurer Ribault established a colony of Huguenots near present day Jacksonville He was captured by the very able Spanish commander Pedro Menendez who ordered his French rival and all his minions killed The state's long and colorful past is matched by its equally long and

colorful literary production Strangely critical assessment of Florida literature has lagged far behind With this volume the Florida College English Association has formally begun an effort to correct this lamentable oversight Included are papers on every aspect of Florida literature and history by scholars from every part of the state who are employed in every kind of institution of higher learning Of special interest are the studies of Florida literature in the 19th century and in the late 20th and early 21st centuries areas that are generally ignored in national journals The papers on the contributions of African American literary figures such as Zora Hurston and James Weldon Johnson are noteworthy Of particular interest are the suggestions for teaching Florida studies in the classroom which can be adapted for high school as well as college students
