В монографии рассмотрено состояние агропромышленного комплекса Республики Казахстан и обосновываются некоторые направления его инновационного развития. Отмечено, что продукция казахстанского аграрного сектора является неконкурентоспособной в силу таких причин как изношенность материально-технической базы, низкий уровень производительности труда, высокая себестоимость, сравнительно низкая продуктивность в растениеводстве и животноводстве. Авторами рассмотрены некоторые подходы к особо актуальной проблеме исследования экономического потенциала региона, определения степени его освоения, эффективности использования с целью оценки факторов, оказывающих наибольшие воздействие на развитие экономики сельских территорий, на выравнивание уровня экономического развития и обеспечения продовольственной безопасности на всей территории страны.
