

The Strawberry Statement: Notes of a College Revolutionary

James Simon Kunen

"a UNIVERSITY is DEFINELY NOT A Democratic
institution. Who decides? BORN TO be more democratic
around here I will not be here any longer. WHETHER
students vote YES or NO on AD. HOW IS LIFE TELLING ME
They like STRAWBERRIES."

—John Simon
California Institute of Technology
1968-1969

Strawberry Statement Notes Of A College

Raymond Lorenzo

Strawberry Statement Notes Of A College:

The Strawberry Statement James S. Kunen, 1969 In *The Strawberry Statement Notes of a College Revolutionary* James Simon Kunen a nineteen year old Columbia University sophomore attempts to explain his generation of rebellious college students The first third of the 156 page book chronicles in journal fashion Kunen's somewhat diffident participation in the protests at Columbia University between April 22 and June 4 1968 Most of the remainder of the book recounts Kunen's summer during which he is involved with the court system works on his book travels to visit draft resisters in Canada falls in love and attends Students for a Democratic Society SDS meetings and presents his thoughts on such subjects as long hair religion the Vietnam War and baseball Throughout the work he takes a humorously cynical view of both mainstream and radical society He believes that society is disintegrating but is not ready to join those calling for armed revolution

American Countercultures: An Encyclopedia of Nonconformists, Alternative Lifestyles, and Radical Ideas in U.S. History Gina Misiroglu, 2015-03-26 Counterculture while commonly used to describe youth oriented movements during the 1960s refers to any attempt to challenge or change conventional values and practices or the dominant lifestyles of the day This fascinating three volume set explores these movements in America from colonial times to the present in colorful detail *American Countercultures* is the first reference work to examine the impact of countercultural movements on American social history It highlights the writings recordings and visual works produced by these movements to educate inspire and incite action in all eras of the nation's history A-Z entries provide a wealth of information on personalities places events concepts beliefs groups and practices The set includes numerous illustrations a topic finder primary source documents a bibliography and a filmography and an index

Class Politics Stephen Parks, 2013-03-27 *Class Politics* The Movement for the Students Right to Their Own Language 2e is a response to histories of Composition Studies that focused on scholarly articles and university programs as the generative source for the field Such histories particularly in the 1980s and 1990s divorced the field from activist politics washing out such work in the name of disciplinary identity *Class Politics* shows the importance of political mass movements in the formation of Composition Studies particularly Civil Rights and Black Power *Class Politics* also critiques how the field appropriates these movements The book traces a pathway from social movement to progressive academic groups to their work in professional organizations to the formation of the Students Right to Their Own Language Stephen Parks then shows how the SRTOL was attacked and politically neutralized by conservative forces in the 1980s and 1990s arguing for a return to politics to reanimate its importance and the importance of politics in the field Stephen Parks restores politics to the history of Composition Studies Richard Ohmann

A Companion to Lyndon B. Johnson Mitchell B. Lerner, 2012-02-13 This companion offers an overview of Lyndon B Johnson's life presidency and legacy as well as a detailed look at the central arguments and scholarly debates from his term in office Explores the legacy of Johnson and the historical significance of his years as president Covers the full range of topics from the social and

civil rights reforms of the Great Society to the increased American involvement in Vietnam Incorporates the dramatic new evidence that has come to light through the release of around 8 000 phone conversations and meetings that Johnson secretly recorded as President

An Insider's Guide to Academic Medicine David C. Aron,2023-02-11 This book serves as an insider's guide to careers in academic medicine The author shares his 45 years of experience as a clinician teacher researcher and administrator His journey has often taken unpredictable turns and the book offers practical guidance to becoming a successful physician scientist in academic medicine or to become a successful clinician affiliated with an academic medical center Divided into four parts the book begins by focusing on academic medicine as a complex system This is followed by parts on academic duties academic life and concludes with words of wisdom These sections and subsequent chapters are tied together by the scholarships of discovery teaching application and integration To pursue research practice teaching and administration scholarship should be the core value of every physician

Sensational Internationalism J. Michelle Coghlan,2016-09-08 In refocusing attention on the Paris Commune as a key event in American political and cultural memory Sensational Internationalism radically changes our understanding of the relationship between France and the United States in the long nineteenth century It offers fascinating remarkably accessible readings of a range of literary works from periodical poetry and boys adventure fiction to radical pulp and the writings of Henry James as well as a rich analysis of visual print and performance culture from post bellum illustrated weeklies and panoramas to agit prop pamphlets and Coney Island pyrotechnic shows This book will speak to readers looking to understand the affective cultural and aesthetic afterlives of revolt and revolution pre and post Occupy Wall Street as well as those interested in space gender performance and transatlantic print culture

Vietnam Awakening Michael Uhl,2014-11-29 In this vividly honest memoir author Michael Uhl details his experiences in Vietnam as first lieutenant of a counterintelligence team attached to the 11th Infantry Referencing his personal journal and wartime correspondence with friends and family the author relives the most shocking events that he witnessed during his military service including the abuse and torture of several Vietnamese civilians In Part Two the author outlines his years as an activist with the veterans movement against the Vietnam War

Student Resistance Mark Edelman Boren,2013-10-18 Student Resistance is an international history of student activism Chronicling 500 years of strife between activists and the academy Mark Edelman Boren unearths the defiant roots of the ivory tower

Apollo in the Age of Aquarius Neil M. Maher,2017-03-27 In summer 1969 astronauts landed on the moon and hippie hordes descended on Woodstock two era defining events that are not entirely coincidental Neil M Maher shows how NASA's celestial aspirations were tethered to terrestrial concerns of the time the civil rights struggle the antiwar movement environmentalism feminism and the culture wars

The Game George Howe Colt,2019-10-08 A New York Times Notable Book A Kirkus Reviews Best Book of the Year From the bestselling National Book Award finalist and author of The Big House comes a well blended narrative packed with top notch reporting and relevance for our own time The Boston Globe about the

young athletes who battled in the legendary Harvard Yale football game of 1968 amidst the sweeping currents of one of the most transformative years in American history On November 23 1968 there was a turbulent and memorable football game the season ending clash between Harvard and Yale The final score was 29 29 To some of the players it was a triumph to others a tragedy And to many the reasons had as much to do with one side s miraculous comeback in the game s final forty two seconds as it did with the months that preceded it months that witnessed the assassinations of Martin Luther King and Robert F Kennedy police brutality at the Democratic National Convention inner city riots campus takeovers and looming over everything the war in Vietnam George Howe Colt s *The Game* is the story of that iconic American year as seen through the young men who lived it and were changed by it One player had recently returned from Vietnam Two were members of the radical antiwar group SDS There was one NFL prospect who quit to devote his time to black altruism another who went on to be Pro Bowler Calvin Hill There was a guard named Tommy Lee Jones and fullback who dated a young Meryl Streep They played side by side and together forged a moment of startling grace in the midst of the storm Vibrant energetic and beautifully structured NPR this magnificent and intimate work of history is the story of ordinary people in an extraordinary time and of a country facing issues that we continue to wrestle with to this day *The Game* is the rare sports book that lives up to the claim of so many entrants in this genre It is the portrait of an era **The Wall Street Journal** **War Stories** Gary Kulik,2009-10-31 War stories are mostly innocent fables and understood as such by both the teller and the hearer However they have long been used for political and national purposes and those about the war in Vietnam were no exception as painfully evidenced in the 2004 presidential campaign John Kerry campaigned as a war hero His opponents cast him as a liar and a traitor and their war story prevailed *War Stories* delves into the myths associated with the Vietnam veteran s experience and looks at them through the war stories they told and continue to tell Kulik conducts an extremely thorough review of the Vietnam literature and interviews participants wherever possible poking holes in the war myths of people throughout the political spectrum *War Stories* discusses how returning Vietnam vets were treated and delves into the myths that atrocities were commonplace that all veterans of that war suffer from PTSD and that all are guilt ridden Kulik s research and analysis of such stories lies at the heart of this book s originality and provides a new perspective on the Vietnam War for scholars students and general readers His purpose in exposing such stories is not to deny or minimize American war crimes in Vietnam but to cut through the cant of false stories so that we retain our outrage at those that are true As we are faced with future war stories from Iraq and Afghanistan and their likely exploitation the moral stance and the lessons learned in this book will be especially important **New York at War** Steven H. Jaffe,2012-04-10 This title presents the complete military history of New York from the colonial era to 9 11 showing how the Empire City and its inhabitants have been fundamentally shaped by war **Culture Moves** Thomas R. Rochon,2018-06-05 Some periods in history are marked by stability in cultural values at other times values undergo rapid change How and why do cultural transformations such as

those affecting race and gender relations take place How does one value win acceptance in society when there are conflicting values competing for attention In *Culture Moves* Thomas Rochon addresses this complex process and develops a theory to explain both how values originate and how they spread In particular he analyzes the crucial role that small communities of critical thinkers play in developing new ideas and inspiring their dissemination through larger social movements Rochon develops this theory by drawing from such sources as survey research content analysis of the mass media and historical accounts He focuses mainly on contemporary issues in the United States such as feminism civil rights and environmentalism but also discusses cases ranging from the French Revolution to the abolition of slavery He explores the cultural niches typically universities and research institutes where new ideas and values evolve and then traces how these ideas play out in society through movements that may have little formal structure Attention in the media he argues is often a deciding move in the contest over public opinion This book will fundamentally revise how we understand the process of social change and what the prospects are for particular culture moves in the future

1968 Robert C. Cottrell, Blaine T. Browne, 2018-05-18 The year 1968 retains its mythic hold on the imagination in America and around the world Like the revolutionary years 1789 1848 1871 1917 and 1989 it is recalled most of all as a year when revolution beckoned or threatened On the 50th anniversary of that tumultuous year cultural historians Robert Cottrell and Blaine T Browne provide a well informed up to date synthesis of the events that rocked the world emphasizing the revolutionary possibilities more fully than previous books For a time it seemed as if anything were possible that utopian visions could be borne out in the political cultural racial or gender spheres It was the year of the Tet Offensive the Resistance the Ultra Resistance the New Politics Chavez and RFK breaking bread LBJ's withdrawal student revolt barricades in Paris the Prague Spring SDS sharp turn leftward communes the American Indian Movement the Beatles Revolution the Stones Street Fighting Man The Population Bomb protest at the Miss America pageant and Black Power at the Mexico City Olympics 1968 was also the year of My Lai the assassinations of Martin Luther King Jr and Robert F Kennedy Warsaw Pact tanks in Czechoslovakia the police riot in Chicago the Tlatelolco massacre Reagan's belated bid Wallace's American Independent Party campaign Love It or Leave It and the backlash that set the stage at year's end for Richard Milhous Nixon's ascendancy to the White House For those readers reliving 1968 or exploring it for the first time Cottrell and Browne serve as insightful guides weaving the events together into a powerful narrative of an America and a world on the brink

Campus Life Helen Lefkowitz Horowitz, 2013-09-04 Every generation of college students no matter how different from its predecessor has been an enigma to faculty and administration to parents and to society in general Watching today's students holding themselves in because they had to get A's not only on tests but on deans reports and recommendations Helen Lefkowitz Horowitz author of the highly praised *Alma Mater* began to ask What has gone wrong how did we get where we are today *Campus Life* is the result of her search through college studies alumni autobiographies and among students themselves for an answer She begins in the post revolutionary years when the peculiarly American form of

college was born forced in the student faculty warfare in 1800 pleasure seeking Princeton students angered by disciplinary action show pistols and rolled barrels filled with stones along the hallways She looks deeply into the campus through the next two centuries to show us student society as revealed and reflected in the students own codes of behavior in the clubs social and intellectual in athletics in student publications and in student government And we begin to notice for the first time from earliest days till now younger men and later young women as well have entered not a monolithic student body but a complex world containing three distinct sub cultures We see how from the beginning some undergraduates have resisted the ritualized frivolity and rowdiness of the group she calls College Men For the second group the Outsiders college was not so much a matter of secret societies passionate team spirit and college patriotism as a serious preparation for a profession and over the decades their ranks were joined by ambitious youths from all over rural America by the first college women by immigrants Jews townies blacks veterans and older women beginning or continuing their education We watch a third subculture of Rebels both men and women emerging in the early twentieth century transforming individual dissent into collective rebellion contending for control of collegiate politics and press and eventually in the 1960s reordering the whole college university world Yet Horowitz demonstrates in spite of the tumultuous 1960s in spite of the vast changes since the nineteenth century the ways in which undergraduates work and play have continued to be shaped by whichever of the three competing subcultures college men and women outsiders and rebels is in control We see today s campus as dominated by the new breed of outsiders they began to surface in the 1970s driven to pursue their future careers with a grim professionalism And as faint and sporadic signs emerge of perhaps a new activism and a new attraction to learning for its own sake we find that Helen Lefkowitz Horowitz has given us in this study a basis for anticipated the possible nature of the next campus generation

Children's Free Play and Participation in the City Raymond Lorenzo,2022-06-03 This book presents an interplay of imaginative memoir telling action research data and future projection that reminds and inspires experiences academics researchers professionals as well as a wider public to recognize the fundamental importance and the impellent need for more and better work in favour of true political and societal recognition of the needs and rights of children to play freely to participate to live fully and enjoy their neighbourhoods and cities and to imagine and construct alternative futures together with adults The book s abundant spoken dialogue is in effect storytelling between children and youth on their own and with adults especially the elderly It conveys an appreciation of children s special capacities to think critically about their everyday places and the greater world around them and to develop solutions or projects for the problems they identify This book serves an effective catalyst for stimulating rich discussion of the theoretical and practical bases of the many themes or areas of study which are treated in the story

Boomers Victor Brooks,2009-05-16 Brooks chronicles the peaceful children s invasion of America that occurred from Dr Spock to Woodstock The author explores the home life leisure activities and school environment of children who grew up during the Cold War years

Political Violence in America Lori Cox Han,Tomislav

Han,2022-03-29 This multivolume encyclopedia surveys America's long and troubled history of political violence from the colonial era to the present with a particular emphasis on factors driving political violence and intimidation in the United States in the 21st century. Americans like to think of their nation as one grounded in high-minded democratic ideals and peaceful transitions of power. In reality though, American politics has been heavily laced with expressions of violence and intimidation since the nation's very inception which saw a campaign of violent rebellion against British rule. Since then, America has endured the deaths of four presidents from assassination, a four-year civil war, racist attacks on civil rights activists, and ordinary citizens, deadly clashes between protesting citizens and law enforcement, sustained campaigns of violence against marginalized populations seeking greater political or economic equality, politically motivated mass shootings, and on January 6, 2021, the shocking spectacle of a politically motivated mob attack on the U.S. Capitol. How and why did these events transpire? What were the root causes? What factors are driving political violence and intimidation in America today? And are there changes that we could make to our country's political discourse that would reduce such outbreaks of bloodshed? This authoritative multivolume encyclopedia provides answers to all these questions and more. *Politics in the Human Interest* William David Du Bois, R. Dean Wright, 2007-01-01 This book presents the striking proposition that by paying attention to what's been learned about human behavior, we can develop a political agenda that is in the human interest. Such values provide the basis for an action-oriented sociology. *Politics in the Human Interest* explores the theoretical foundation of a humanistic sociology. It is a call for the return to the original progressive agenda that knowledge about human behavior can be used to create social progress and a better world. *Children of the Dictatorship* Kostis Kornetis, 2013-11-01 Putting Greece back on the cultural and political map of the Long 1960s, this book traces the dissent and activism of anti-regime students during the dictatorship of the Colonels, 1967-74. It explores the cultural as well as ideological protest of Greek student activists, illustrating how these children of the dictatorship managed to reappropriate indigenous folk tradition for their progressive purposes and how their transnational exchange molded a particular local protest culture. It examines how the students' social and political practices became a major source of pressure on the Colonels' regime, finding its apogee in the three-day Polytechnic uprising of November 1973, which laid the foundations for a total reshaping of Greek political culture in the following decades.
