A Military History of the Cold War, 1944-1962 Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the

relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe [The Vietnam Run](#) Michael Gillen,2023-03-17 On the same day the Japanese surrender ended World War II Vietnamese nationalists declared independence from France Within weeks France sought to reestablish colonial rule American merchant seamen arriving in French ports to ship GIs back to the U S were dismayed when French troops bound for Vietnam came aboard instead Many of these seamen objected because American veterans awaited transport home and because they flew in the face of Allied war aims of national self determination Later with the Vietnam War effort dependent on Merchant Marine logistical support seamen were among the first to protest U S involvement With firsthand recollections this book tells the story from deadly encounters with mines rockets and gunfire to evacuations of refugees and to rescues of boat people in the South China Sea **Street Without Joy** Bernard B. examines four of the twentieth century's most consequential rebellions in China, Cuba, Afghanistan, and French Indochina. While insurgencies continue to erupt across the globe, most of them fail to meet their intended aims. But in *Four Rebellions that Shaped Our World*, Anthony James Joes analyzes four successful rebellions which permanently altered the global political arena: the Maoists in China against Chiang Kai-shek and the Japanese in the 1930s and 1940s; the Viet Minh in French Indochina from 1945 to 1954; Castro's followers against Batista in Cuba from 1956 to 1959; and the mujahideen in Soviet Afghanistan from 1980 to 1989. Joes illuminates patterns of failed counterinsurgencies, highlighting their avoidable political and military blunders, as well as the critical influence of the international setting. Offering provocative insights that are applicable to twenty-first century geopolitics, this comprehensive study will be of great interest to policy makers and concerned citizens alike.

Counterinsurgency and the Global War on Terror Robert M. Cassidy, 2006-04-30 Since September 2001, the United States has waged what the government initially called the global war on terrorism (GWOT). Beginning in late 2005 and early 2006, the term Long War began to appear in U.S. security documents such as the National Security Council's National Strategy for Victory in Iraq and in statements by the U.S. Secretary of Defense and the Chairman of the JCS. The description Long War, unlimited in time and space and continuing for decades, is closer to reality and more useful than GWOT. Colonel Robert Cassidy argues that this protracted struggle is more correctly viewed as a global insurgency and counterinsurgency. Al Qaeda and its affiliates, he maintains, comprise a novel and evolving form of networked insurgents who operate globally, harnessing the advantages of globalization and the information age. They employ terrorism as a tactic subsuming terror within their overarching aim of undermining the Western-dominated system of states. Placing the war against al Qaeda and its allied groups and organizations in the context of a global insurgency has vital implications for doctrine, interagency coordination, and military cultural change, all reviewed in this important work. Cassidy combines the foremost maxims of the most prominent Western philosopher of war and the most renowned Eastern philosopher of war to arrive at a threefold theme: know the enemy, know yourself, and know what kind of war you are embarking upon. To help readers arrive at that understanding, he first offers a distilled analysis of al Qaeda and its associated networks, with a particular focus on ideology and culture. In subsequent chapters, he elucidates the challenges big powers face when they prosecute counterinsurgencies, using historical examples from Russian, American, British, and French counterinsurgent wars before 2001. The book concludes with recommendations for the integration and command and control of indigenous forces and other agencies.

America and Vietnam, 1954-1963 Michael M. Walker, Col., USMC (Ret.), 2022-08-31 The conventional narrative of the Vietnam War often glosses over the decade leading up to it Covering the years 1954 1963 this book presents a thought provoking reexamination of the war's long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi's decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed

The Marine Corps Gazette, 1962 *Number One Realist* Nathaniel L. Moir, 2022-04-01 In a 1965 letter to Newsweek French writer and academic Bernard Fall 1926 67 staked a claim as the Number One Realist on the Vietnam War This is the first book to study the thought of this overlooked figure one of the most important experts on counterinsurgency warfare in Indochina Nathaniel L Moir's intellectual history analyses Fall's formative experiences his service in the French underground and army during the Second World War his father's execution by the

Germans and his mother's murder in Auschwitz and his work as a research analyst at the Nuremberg Trials Moir demonstrates how these critical events shaped Fall's trenchant analysis of Viet Minh led revolutionary warfare during the French Indochina War and the early Vietnam War In the years before conventional American intervention in 1965 Fall argued that far more than anything in the United States military arsenal resolving conflict in Vietnam would require political strength willpower integrity and skill Number One Realist illuminates Fall's study of political reconciliation in Indochina while showing how his profound humanitarian critique of war continues to echo in the endless conflicts of the present It will challenge and change the way we think about the Vietnam War
