Laughter Anca Parvulescu, 2010-08-27 Uncovering an archive of laughter from the forbidden giggle to the explosive guffaw Most of our theories of laughter are not concerned with laughter Rather their focus is the laughable object whether conceived of as the comic the humorous jokes the grotesque the ridiculous or the ludicrous In *Laughter* Anca Parvulescu proposes a return to the materiality of the burst of laughter itself She sets out to uncover an archive of laughter inviting us to follow its rhythms and listen to its tones Historically laughter especially the passionate burst of laughter has often been a faux pas Manuals for conduct abetted by philosophical treatises and literary and visual texts warned against it offering special injunctions to ladies to avoid jollity that was too boisterous Returning laughter to the history of the passions Parvulescu anchors it at the point where the history of the grimacing face meets the history of noise In the civilizing process that leads to laughter's falling into disrepute as Nietzsche famously put it we can see the formless contorted face in laughter being slowly corrected into a calm social smile How did the twentieth century laugh Parvulescu points to a gallery of twentieth century laughs and friends of laughter arguing that it is through Georges Bataille that the century laughed its most distinct laugh In Bataille's wake laughter becomes the passion at the heart of poststructuralism Looking back at the century from this vantage point Parvulescu revisits four of its most challenging projects modernism the philosophical avant gardes feminism and cinema The result is an overview of the twentieth century as seen through the laughs that burst at some of its most convoluted junctures
