Bruce Nelson

Strife On The Waterfront The Port Of New York Since 1945:

Strife on the Waterfront Vernon H. Jensen, 1974 USA Monograph examining labour relations trade unionisation and collective bargaining activities of dockers employed in the port of new york in the period from 1945 to 1971 covers interunion conflict strike occurrence grievance and dispute settlement the impact of automation on cargo handling techniques culminating in the advent of containerization issues such as the shape up seniority and guaranteed wages the role of the waterfront commission in regulating recruitment etc Bibliography pp 457 to 471 and references

On the Irish Waterfront James T. Fisher, 2011-01-15 Site of the world s busiest and most lucrative harbor throughout the first half of the twentieth century the Port of New York was also the historic preserve of Irish American gangsters politicians longshoremen s union leaders and powerful Roman Catholic pastors This is the demimonde depicted to stunning effect in Elia Kazan s *On the Waterfront* 1954 and into which James T Fisher takes readers in this remarkable and engaging historical account of the classic film s backstory Fisher introduces readers to the real Father Pete Barry featured in *On the Waterfront* John M Pete Corridan a crusading priest committed to winning union democracy and social justice for the port s dockworkers and their families A Jesuit labor school instructor not a parish priest Corridan was on but not of Manhattan s West Side Irish waterfront His ferocious advocacy was resisted by the very men he sought to rescue from the violence and criminality that rendered the port a jungle an outlaw frontier in the words of investigative reporter Malcolm Johnson Driven off the waterfront Corridan forged creative and spiritual alliances with men like Johnson and Budd Schulberg the screenwriter who worked with Corridan for five years to turn Johnson s Pulitzer Prize winning 1948 newspaper expos into a movie Fisher s detailed account of the waterfront priest s central role in the film s creation challenges standard views of the film as a post facto justification for Kazan and Schulberg s testimony as ex communists before the House Committee on Un American Activities *On the Irish Waterfront* is also a detailed social history of the New York New Jersey waterfront from the rise of Irish American entrepreneurs and political bosses during the World War I era to the mid 1950s when the emergence of a revolutionary new mode of cargo shipping signaled a radical reorganization of the port This book explores the conflicts experienced and accommodations made by an insular Irish Catholic community forced to adapt its economic political and religious lives to powerful forces of change both local and global in scope

Waterfront Revolts Colin John Davis, 2003 Davis also documents struggles by New York black and Hispanic longshoremen against union and employer discrimination and shows how the wildcat strikes in both ports altered the balance of power and facilitated the establishment of viable oppositional movements Addressing questions of why dockworkers were such influential and explosive forces in the postwar industrial arena *Waterfront Revolts* reveals how workers and trade unions directly influenced cold war politics the economy and culture even across geographical borders Jacket

Labor's Text Laura Hapke, 2001 Hapke s book remarkable in scope and inclusiveness offers those concerned with American working people a mine of information about and analysis of the rich

lived history of American laborers as that has been represented in fictions of every kind She provides an invaluable foundation for understanding the dirtiest of America's dirty big secrets the pervasiveness of class differences class discrimination indeed of class conflict in this the wealthiest nation in history Hers is an indispensable guided tour through more than a century and a half of literary representations of hands at their looms pickets on the line agitators on their soapboxes ordinary working women men and children in kitchens parks factories and fields across America Paul Lauter A K G M Smith Professor of Literature Trinity College Labor's Text sets over 150 years of the multi ethnic literature of work in the context of the history that informed it the history of labor organizing of industrial change of social transformations and of shifting political alignments Any scholar of American literature or American history cannot help but be enlightened by this boldly ambitious and illuminating book Shelly Fisher Fishkin professor of American studies University of Texas Austin Labor's Text traverses nearly two centuries of the U S literary response in fiction to workers and the work experience Casting her net more broadly than any of her predecessors Hapke's revision of the genre includes many recent writing not usually recognized as part of the tradition Coming at a moment when there is a steady increase in interest about class from color and gender inflected perspectives this is a work of committed scholarship that may well prove to be a crucial compass to reorient the thinking and scholarship of a new generation Alan Wald author of Writing from the Left A stunning work of scholarship It is an extraordinary achievement and an immense contribution to working class studies Janet Zandy author of Calling Home Working Class Women's Writings Laura Hapke is a professor of English at Pace University The winner of two Choice magazine Outstanding Academic Book awards she is the author of Daughters of the Great Depression Women Work and Fiction in the American 1930s and other books on labor fiction and working class studies

Labor Geographies Andrew Herod, 2001-09-24 Discussions of the geographic transformations wrought by capitalism generally treat corporations as the primary agents of spatial change We hear of billions of dollars flowing here factories moving there venture capitalists opening up new markets and workers having to take it or leave it Yet labor too is increasingly thinking and acting geographically whether by struggling to impose national contracts building regional national or international links of solidarity or engaging in debates over local economic development This book provides a comprehensive introduction to the emerging discipline of labor geography Combining innovative theoretical analysis with empirical case studies from around the world Herod examines the spatial contexts and scales in which workers live organize and work to address particular economic and political problems The first book length text of its kind this is an indispensable resource for anyone interested in working class life workers organizations and the contemporary dynamics of capitalism

Dock Workers Sam Davies, Colin J. Davis, David de Vries, Lex Heerma van Voss, Lidewij Hesselink, Klaus Weinhauer, 2017-09-29 Workers who loaded and unloaded ships have formed a distinctive occupational group over the past two centuries As trade expanded so the numbers of dock labourers increased and became concentrated in the major ports of the world This ambitious two

volume project goes beyond existing individual studies of dock workers to develop a genuinely comparative international perspective over a long historical period Volume 1 contains studies of 22 major ports worldwide Built around an agreed framework of issues these port studies examine the type of workers who dominated dock labour their race class and ethnicity the working conditions of dockers and the role of government as employer arbitrator and supporter The studies also detail how dockers organized their labour patterns of strike action and involvement in political organizations The structure of the port city is also outlined and descriptions given of the waterside environment These areas of investigation form the basis for a series of 11 thematic studies which comprise Volume 2 Drawing on the information provided in the port studies these essays identify important aspects and recurring themes and explain how and why particular cases diverge from the rest The final chapter of the book synthesizes the various approaches taken to offer a model which suggests several configurations of dock labour and presents suggestions for future research This major scholarly achievement represents the most sustained attempt to date to provide a comparative international history of dock labour An annotated bibliography completes this essential reference work

Walter Reuther Nelson Lichtenstein, 1997 Walter Reuther the most imaginative and powerful trade union leader of the past half century confronted the same problems facing millions of working Americans today how to use the spectacular productivity of our economy to sustain and improve the standard of living and security of ordinary Americans As Nelson Lichtenstein observes Reuther the president of the United Automobile Workers from 1946 to 1970 may not have had all the answers but at least he was asking the right questions The Most Dangerous Man in Detroit vividly recounts Reuther's remarkable ascent his days as a skilled worker at Henry Ford's great River Rouge complex his two year odyssey in the Soviet Union's infant auto industry in the early 1930s and his immersion in the violent labor upheavals of the late 1930s that gave rise to the CIO Under Reuther the autoworkers standard of living doubled Publisher's description

Geographies of Economies Roger Lee, Jane Wills, 2014-05-01 Setting out to explore the intersections of economy and geography this book brings together contributions from the world's top economic geographers Over forty contributors draw upon contemporary theory and experience to explore the cultural and social constitution of economic geographies processes of globalisation and new forms of political regulation and practice Although focusing upon new economic geography the book also illustrates the many connections with previous scholarship as scholars seek to reconstruct the traditions of political economy to understand the contemporary world Highlighting and illustrating contemporary developments the book opens up discussion about the implications of the complex geographies involved In pointing to new directions of research and debate this major statement in state of the art economic geography demonstrates the central relevance of economic geography not only in understanding the trajectories of change but in proposing alternatives

Bargaining Agreements for State and County Government Employees United States. Bureau of Labor Statistics,1976

Divided We Stand Bruce Nelson,2002-01-15 *Divided We Stand* is a study of how class and race have intersected in American society above all in the making and remaking of the American working class in the nineteenth and twentieth centuries Focusing mainly on longshoremen in the ports of New York New Orleans and Los Angeles and on steelworkers in many of the nation s steel towns it examines how European immigrants became American and white in the crucible of the industrial workplace and the ethnic and working class neighborhood As workers organized on the job especially during the overlapping CIO and civil rights eras in the middle third of the twentieth century trade unions became a vital arena in which old and new immigrants and black migrants forged new alliances and identities and tested the limits not only of class solidarity but of American democracy The most volatile force in this regard was the civil rights movement As it crested in the 1950s and 60s the Movement confronted unions anew with the question Which side are you on This book demonstrates the complex ways in which labor organizations answered that question and the complex relationships between union leaders and diverse rank and file constituencies in addressing it *Divided We Stand* includes vivid examples of white working class agency in the construction of racially discriminatory employment structures But Nelson is less concerned with racism as such than with the concrete historical circumstances in which racialized class identities emerged and developed This leads him to a detailed and often fascinating consideration of white working class ethnicity but also to a careful analysis of black workers their conditions of work their aspirations and identities their struggles for equality Making its case with passion and clarity *Divided We Stand* will be a compelling and controversial book

Working-Class New York Joshua B. Freeman,2021-04-20 A lucid detailed and imaginative analysis The Nation of the model city that working class New Yorkers created after World War II and its tragic demise More than any other city in America New York in the years after the Second World War carved out an idealistic and equitable path to the future Largely through the efforts of its working class and the dynamic labor movement it built New York City became the envied model of liberal America and the scourge of conservatives everywhere cheap and easy to use mass transit work in small businesses and factories that had good wages and benefits affordable public housing and healthcare for all *Working Class New York* is an engrossing Dissent account of the birth of that ideal and the way it came crashing down In what Publishers Weekly calls absorbing and beautifully detailed history historian Joshua Freeman shows how the anticommunist purges of the 1950s decimated the ranks of the labor movement and demoralized its idealists and how the fiscal crisis of the mid 1970s dealt another crushing blow to liberal ideals as the city s wealthy elite made a frenzied grab for power A grand work of cultural and social history *Working Class New York* is a moving chronicle of a dream that died but may yet rise again

Tugboats of New York George Matteson,2007-10 Rich with first person anecdotes of life on the New York waterways and 150 black and white photographs this volume will fascinate readers interested in New York history boating and maritime history

Labor Leaders in America Melvyn Dubofsky,Warren R.

Van Tine,1987 Here are the life stories of the men and women who have led the labor movement in America from Reconstruction to recent times from William H Sylvis the first major labor leader to Cesar Chavez who organized California s farm workers in the 1960s All of the chapters have been written expressly for this volume by leading authorities several of whom are authors of booklength biographies of their subjects Taken together these readable yet authoritative life studies provide a broad overview of the American labor movement that will appeal to the student and lay reader as well as to the specialist in social history and labor and industrial relations

The Rise of Maritime Containerization in the Port of Oakland Mark Rosenstein,2000 *Maritime Crime and Policing* Yarin Eski,Martin Wright,2023-04-28 This book offers a unique and scholarly perspective on a little studied subject maritime crime and policing The seas and oceans cover 70 percent of the earth s surface and 90 percent of world trade by volume travels by sea Furthermore the refugee crisis has produced an inflow of people attempting to find a better life particularly in Northwest Europe and the UK which has had an impact on the maritime domains of European ports While there has been attention paid to the role of maritime policing by scholars in maritime security studies little attention has been paid by criminologists and policing studies scholars This book aims to fill this gap Bringing together a range of international scholars this book covers a variety of topics pertinent to maritime crime and its policing such as fraud piracy and armed robbery at sea illegal and unregulated fishing smuggling people trafficking illegal immigration illegal dumping and pollution arms trafficking terrorism and cargo theft It brings together new perspectives on several key criminological themes such as transnational organised crime criminalisation and securitisation and provides a bold new direction for the landlocked discipline of criminology and policing studies An accessible and compelling read this book will be of interest to students and scholars of criminology policing sociology politics migration studies and all those interested in the policing of the sea

Industrial and Labor Relations Review ,1997 **A Report to the Congress on the Status of the Public Ports of the United States** United States. Maritime Administration,1984 East Side, West Side , Based on primary source documents this historical study establishes the interconnections between private violence and political social and economic life in New York from 1930 1950 By describing and analyzing both the social world and social system of organized crime Block provides a new perspective one based on racial and ethnic stereotypes The book provides a penetrating look at one of the most misunderstood aspects of American society important for historians criminologists and sociologists

Thank you certainly much for downloading **Strife On The Waterfront The Port Of New York Since 1945**. Most likely you have knowledge that, people have seen numerous times for their favorite books behind this Strife On The Waterfront The Port Of New York Since 1945, but end in the works in harmful downloads.
