String Quartet No 1 1951:

String Quartet No. 1 (1951). Elliott Carter, 1970 **String Quartet No. 1 (1951).** Elliott Carter, Composers String Quartet, 1970 *String quartet, no. 1* Elliott Carter, 1956 *The music for string quartet* Elliott Carter, 1988 *String Quartet No. 1* Henry Cowell, 1965 String Quartet No.1 Robert Wilfred Levick Simpson, 1954 **String quartet no. 1 (1916)** Henry Cowell, 1965 **Compositional Process in Elliott Carter's String Quartets** Laura Emmery, 2019-12-20

Compositional Process in Elliott Carter's String Quartets is an interdisciplinary study examining the evolution and compositional process in Elliott Carter's five string quartets. Offering a systematic and logical way of unpacking concepts and processes in these quartets that would otherwise remain opaque, the book's narrative reveals new aspects of understanding these works and draws novel conclusions on their collective meaning and Carter's place as the leading American modernist. Each of Carter's five string quartets is driven by a new idea that Carter was exploring during a particular period which allows for each quartet to be examined under a unique lens and a deeper understanding of his oeuvre at large. Drawing on key ideas from a variety of subjects including performance studies, philosophy, music cognition, musical meaning and semantics, literary criticism and critical theory, this is an informative volume for scholars and researchers in the areas of music theory and musicology. Analyses are supplemented with sketch, study, correspondence, text, manuscripts and other archival sources from the Paul Sacher Stiftung, the Library of Congress and the New York Public Library.

String Quartets Mara Parker, 2013-05-13. This research guide is an annotated bibliography of sources dealing with the string quartet. This second edition is organized as in the original publication: chapters for general references, histories, individual composers, aspects of performance, facsimiles and critical editions, and miscellaneous topics, and has been updated to cover research since publication of the first edition. Listings in the previous volume have been updated to reflect the burgeoning interest in this genre, social aspects, newly issued critical editions, doctoral dissertations. It also offers commentary on online links, databases and references.

The International Cyclopedia of Music and Musicians Oscar Thompson, 1975 *Elliott Carter* James Wierzbicki, 2011-02-15. This compact introduction to the life and works of composer Elliott Carter provides a fresh perspective on one of the most significant American composers of the twentieth and twenty-first centuries. A leading voice of the American classical music tradition and a two-time winner of the Pulitzer Prize for Music, Carter was initially encouraged to become a composer by Charles Ives and he went on to learn from Walter Piston at Harvard University and Nadia Boulanger in Paris. Drawing on Carter's voluminous writings and compositions, James Wierzbicki provides a clear discussion of Carter's evolving understanding of musical time and the influence of film on his work. Celebrating his 100th birthday in 2008 by premiering a number of new compositions, Carter has been a powerful presence on the American new music scene, an important connection to American music's foundational figures and a dynamic force in its continuing evolution.
