Taoist Mystical Philosophy:

Taoist Mystical Philosophy Livia Kohn, 1991 The Scripture of Western Ascension is a central text of medieval Taoist mysticism Written by an unknown author in the fifth century A D it closely resembles the Tao te ching in structure and contents Edited and commented on several times until the twelfth century the text played an important role in Taoist religious thought Kohn presents the first Western introduction to this aspect of traditional Chinese religion and culture Through her careful textual study and fully annotated translation of the Scripture of Western Ascension she delineates the history structure and contents of what mystical thought meant within the Taoist religion She also discusses the religious background of the text and provides detailed analyses of the philosophical concepts of The Physical Universe Mind Knowledge Language and The Way of the Sage

Early Chinese Mysticism Livia Kohn, 2020-10-06 Did Chinese mysticism vanish after its first appearance in ancient Taoist philosophy to surface only after a thousand years had passed when the Chinese had adapted Buddhism to their own culture This first integrated survey of the mystical dimension of Taoism disputes the commonly accepted idea of such a hiatus Covering the period from the Daode jing to the end of the Tang Livia Kohn reveals an often misunderstood Chinese mystical tradition that continued through the ages Influenced by but ultimately independent of Buddhism it took forms more various than the quietistic withdrawal of Laozi or the sudden enlightenment of the Chan Buddhists On the basis of a new theoretical evaluation of mysticism this study analyzes the relationship between philosophical and religious Taoism and between Buddhism and the native Chinese tradition Kohn shows how the quietistic and socially oriented Daode jing was combined with the ecstatic and individualistic mysticism of the Zhuangzi with immortality beliefs and practices and with Buddhist insight meditation mind analysis and doctrines of karma and retribution She goes on to demonstrate that Chinese mysticism a complex synthesis by the late Six Dynasties reached its zenith in the Tang laying the foundations for later developments in the Song traditions of Inner Alchemy Chan Buddhism and Neo Confucianism

Taoist Mystical Philosophy Livia Kohn, **Daoist Mystical Philosophy** Livia Kohn, 2007 Livia Kohn presents the first Western introduction to this aspect of traditional Chinese religious and culture Through her careful textual study and fully annotated translation of the Scripture of Western Ascension she delineates the history structure and contents of what mystical thought meant within the Daoist religion She also discusses the religious background of the text and provides detailed analyses of philosophical concepts in chapters called The Physical Universe Mind Knowledge Language and The Way of the Sage

The Taoist Experience Livia Kohn, 1993-10-05 Containing sixty translations from a large variety of texts this is an accessible yet thorough introduction to the major concepts doctrines and practices of Taoism It presents the philosophy rituals and health techniques of the ancients as well as the practices and ideas of Taoists today Divided into four sections it follows the Taoist Path The Tao Long Life Eternal Vision and Immortality It shows how the world of the Tao is perceived from within the tradition what fervent Taoists did and how practitioners saw their path and goals The Taoist

Experience is unique in that it presents the whole of Taoist tradition in the very words of its active practitioners. It conveys not only a sense of the depth of the Taoist religious experience but also of the underlying unity of the various schools and strands.

Teaching Mysticism William B. Parsons, 2011-12-16. The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse. The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom. This volume addresses the diverse literature surrounding mysticism in four interrelated parts. The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions. The second part engages traditions and religious cultural strands in which mysticism is linked to other terms such as shamanism, esotericism, and Gnosticism. The volume's third part focuses on methodological strategies for defining mysticism with respect to varying social spaces. The final essays show how contemporary social issues and movements have impacted the meaning, study, and pedagogy of mysticism. **Teaching Mysticism** presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces. It surveys the broad range of meanings of mysticism, its utilization in the traditions, the theories, and methods that have been used to understand it, and provides critical insight into the resulting controversies.

Mysticism and Alchemy through the Ages Gary Edson, 2012-09-18. An in-depth look into the foundations of mysticism and alchemy. This book describes both physical and spiritual aspects of the various theories and practices of transformation with attention to the beliefs of Buddhism, Christianity, Hinduism, Islam, Judaism, Sufism, Tantrism, Taoism, and Yoga. The connection between early mystical pursuits and the development of alchemy from ancient China, India, and Egypt through Moorish Spain and into Latin Europe are illuminated along with the activities of early alchemists. The book, which is heavily illustrated, describes the beliefs, experiments, and secret messages that drew the believers and dreamers of the world together in search of wealth and immortality.
