

JOHN R. CLARK

THE MODERN Satiric Grotesque AND ITS TRADITIONS

The Modern Satiric Grotesque

Shelley W. Chan

The Modern Satiric Grotesque:

The Modern Satiric Grotesque and Its Traditions John R. Clark, 2021-05-11 Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque. Assuredly he was correct. The subjects and methods of our comic literature and much of our other literature are regularly disturbing and often repulsive, no laughing matter. In this ambitious study John R. Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor. In Part I he explores the satiric strategies of authors of the grotesque: strategies that undercut conventional usage and form, the debasement of heroes, the denigration of language and style, the disruption of normative narrative technique, and even the debunking of authors themselves. Part II surveys major recurrent themes of grotesquerie: tedium, scatology, cannibalism, dystopia, and Armageddon, or the end of the world. Clearly the literature of the grotesque is obtrusive and ugly; its effect morbid and disquieting and deliberately meant to be so. Grotesque literature may be unpleasant, but it is patently insightful. Indeed, as Clark shows, all of the strategies and topics employed by this literature stem from age-old and spirited traditions. Critics have complained about this grim satiric literature, asserting that it is dank, cheerless, unsavory, and negative. But such an interpretation is far too simplistic. On the contrary, as Clark demonstrates, such grotesque writing, in its power and its prevalence in the past and present, is in fact conventional, controlled, imaginative, and vigorous, no mean achievements for any body of art.

Film and Literary Modernism Robert P. McParland, 2014-08-26 In *Film and Literary Modernism*, the connections between film, modernist literature, and the arts are explored by an international group of scholars. The impact of cinema upon our ways of seeing the world is highlighted in essays on city symphony films, avant-garde cinema, European filmmaking, and key directors and personalities from Charlie Chaplin, Sergei Eisenstein, and Alain Resnais to Alfred Hitchcock and Mae West. Contributors investigate the impact of film upon T. S. Eliot, time and stream of consciousness in Virginia Woolf, and Henri Bergson; the racial undercurrents in the film adaptations of Ernest Hemingway's fiction; and examine the film writing of William Faulkner, James Agee, and Graham Greene. Robert McParland assembles an international group of researchers, including independent film makers, critics, and professors of film, creative writers, teachers of architecture and design, and young doctoral scholars, who offer a multi-faceted look at modernism and the art of the film.

Dark Humour and Social Satire in the Modern British Novel L. Colletta, 2003-09-30 Colletta uses psychoanalytic theories of joke work and gallows humour to argue that dark humour is an important defining characteristic of Modernism. She brings together the usual suspects alongside more often overlooked writers from the period and asks probing questions about the relationship between a dark humour that revels in the non-rational, the unstable, and the fragmented, and resists easy definition and political usefulness, and the historical and social circumstances of the period. Colletta makes a compelling argument that probing deeply into the nature of humour or satire that define these social comedies brings to light a more complex and more accurate understanding of the social changes and historical circumstances that define the modern era.

Modernism, Satire and the Novel Jonathan Greenberg, 2011-09-15 In this groundbreaking study Jonathan Greenberg locates a satiric sensibility at the heart of the modern By promoting an antisentimental education modernism denied the authority of emotion to guarantee moral and literary value Instead it fostered sophisticated detached and apparently cruel attitudes toward pain and suffering This sensibility challenged the novel's humanistic tradition set ethics and aesthetics into conflict and fundamentally altered the ways that we know and feel Through lively and original readings of works by Evelyn Waugh Stella Gibbons Nathanael West Djuna Barnes Samuel Beckett and others this book analyzes a body of literature late modernist satire that can appear by turns aloof sadistic hilarious ironic and poignant but which continually questions inherited modes of feeling By recognizing the centrality of satire to modernist aesthetics Greenberg offers not only a new chapter in the history of satire but a persuasive new idea of what made modernism modern

Aggressive Fictions Kathryn Hume, 2012-01-15 A frequent complaint against contemporary American fiction is that too often it puts off readers in ways they find difficult to fathom Books such as Bret Easton Ellis's *American Psycho* Katherine Dunn's *Geek Love* and Don DeLillo's *Underworld* seem determined to upset disgust or annoy their readers or to disorient them by shunning traditional plot patterns and character development Kathryn Hume calls such works aggressive fiction Why would authors risk alienating their readers and why should readers persevere Looking beyond the theory based justifications that critics often provide for such fiction Hume offers a commonsense guide for the average reader who wants to better understand and appreciate books that might otherwise seem difficult to enjoy In her reliable and sympathetic guide Hume considers roughly forty works of recent American fiction including books by William Burroughs Kathy Acker Chuck Palahniuk and Cormac McCarthy Hume gathers attacks on the reader into categories based on narrative structure and content Writers of some aggressive fictions may wish to frustrate easy interpretation or criticism Others may try to induce certain responses in readers Extreme content deployed as a tactic for distancing and alienating can actually produce a contradictory effect for readers who learn to relax and go with the flow the result may well be exhilaration rather than revulsion

Marginality in the Contemporary British Novel Nicola Allen, 2011-10-27 The Marginal as a concept has

become an integral part of the British novel as it stands at the turn of the century Both popular and literary fiction since the mid 1970s has seen an increasing emphasis on the marginal subject This study offers readings of a wide range of contemporary British novels that represent characters or communities at the margin of society Nicola Allen analyses three conceptual categories representing the marginal subject in the contemporary British novel the character of the misfit or outsider the emergence of the grotesque and the rediscovery of previously marginalized narratives such as myth and fantasy This innovative and original monograph focuses on the contention that the contemporary novel of marginality conveys a belief in the socially transformative powers of narrative and suggests that narrative has played a central role in bringing marginal politics and marginal issues to the fore in contemporary Britain *Building Socialism* Curtis Swope, 2017-11-16

Building Socialism reveals how East German writers engagement with the rapidly changing built environment from the mid 1950s to the early 1970s constitutes an untold story about the emergence of literary experimentation in the post War period It breaks new ground by exploring the centrality of architecture to a mid century modernist literature in dialogue with multiple literary and left wing theoretical traditions and in tune with international assessments of modernist architecture and urban planning Design and construction were a central part of politics and everyday life in East Germany during this time as buildings old and new were asked to bear heavy ideological and social burdens In their novels stories and plays Heiner Müller Christa Wolf Gnter Kunert Volker Braun Gnter de Bruyn and Brigitte Reimann responded to enormous new factory complexes experimental new towns the demolition of Berlin s tenements and the propagation of a pared down modernist aesthetic in interior design Writers representation of the design construction and use of architecture formed part of a turn to modernist literary devices including montage metaphor and shifting narrative perspectives East Germany s literary architecture also represents a sophisticated theoretical reflection on the intractable problems of East Germany s socialist modernity including the alliance between state socialism and technological modernization competing commitments to working class self organization and the power of specialist planners and designers and the attempt to create an alternative to fascism *A Subversive Voice in China* Shelley W. Chan, 2010

subjects ecology nature universalism and the links between ethics and aesthetics The final section identifies key concepts and notions within Sade s corpus in a series of entries offering context and a discussion of their relevance for current thought
