The Monroe Doctrine And American Expansionism 1843 1849:

The Monroe Doctrine and American Expansionism, 1843-1849 Frederick Merk, 1966 *The Monroe Doctrine and American Expansionism, 1843-1849* Frederick Merk, 1966 *The Monroe doctrine and American expansionism, 1843-1849* Frederick Merk, Lois Bannister Merk, 1967 **The Monroe Doctrine and American Expansionism, 1843-1849, by Frederick Merk with the Collaboration of Lois Bannister Merk. Third Printing** Frederick Merk, 1968 **The Monroe Doctrine and American Expansion, 1843-1849** Frederick Merk, 1966 *The Monroe Doctrine* Jay Sexton, 2011-03-15 A Concise History of the In Famous Doctrine that Gave Rise to the American Empire President James Monroe s 1823 message to Congress declaring opposition to European colonization in the Western Hemisphere became the cornerstone of nineteenth century American statecraft Monroe s message proclaimed anticolonial principles yet it rapidly became the myth and means for subsequent generations of politicians to pursue expansionist foreign policies Time and again debates on the key issues of nineteenth and early twentieth century foreign relations expansion in the 1840s Civil War diplomacy the imperialism of 1898 entrance into World War I and the establishment of the League of Nations were framed in relation to the Monroe Doctrine Covering more than a century of history this engaging book explores the varying conceptions of the doctrine as its meaning evolved in relation to the needs of an expanding American empire In Jay Sexton s adroit hands the Monroe Doctrine provides a new lens from which to view the paradox at the center of American diplomatic history the nation s interdependent traditions of anticolonialism and imperialism **The American Approach to Foreign Affairs** Roger S. Whitcomb, 2001-02-28 America s foreign relations tradition for all its successes has not always served the American people well Utilizing tradition as a framework of analysis of the historic American approach to foreign affairs this book critically examines the country s international conduct over time leading to a number of provocative and controversial conclusions The first section deals with ideas ideals and ideology in American history that provide a context and value structure that have long conditioned the American people s conception of the world The second part critically examines the problematic American national style of interacting with others The nation s parochial approach to problem solving is explicated in the third section The fourth part centers upon the country s historic isolationist interventionist impulse a two sided often contradictory dynamic The fifth section is an extended analysis of the country s approach to alliance building after World War II as a case study of its approach to foreign affairs in the past The final section proposes that America s traditional values and decision making style have often been incompatible and this contradiction has brought forth the exorcising role of violence in American s relationships with others *The Reckoning* Robin Blackburn, 2024-02-06 The Age of Revolution 1776 1848 destroyed the main slave regimes of the Caribbean but a Second Slavery surged in the US South Cuba and Brazil powered by demand for plantation produce and a system of financial credit that leveraged the value of the slaves By 1860 more than 6 million captives of African descent toiled to produce the cotton sugar and coffee craved by global consumers This Second

Slavery mimicked capitalist disciplines intensified slavery's racial character and launched half a century of headlong economic growth. On the eve of the American Civil War the Slave Power seemed invincible. The slaveholding elite entrenched their peculiar institution in the fabric of the Union only to risk everything on secession. Nobody solicited the slaves' wishes until it became clear that wherever they could they were deserting the plantations and joining the Union forces. Abolition radicals destroyed the Second Slavery and victory for the North also spelled defeat for slavery in Cuba and Brazil. But in each of these societies racial oppression was to be reconfigured by Black Codes, Jim Crow and toxic doctrines of racial destiny. Slavery leaves an indelible mark on many Atlantic nations. The Reckoning charts the historic impact of slavery and anti-slavery of black and white activists of fugitive slaves, feminists, writers, clerics and soldiers. Notwithstanding much unfinished business the anti-slavery struggle retains its capacity to illuminate and inspire.

A Failed Vision of Empire Daniel J. Burge, 2022. Since the early twentieth century historians have traditionally defined manifest destiny as the belief that the United States was destined to expand from coast to coast. This generation of historians has posed manifest destiny as a unifying ideology of the nineteenth century, one that was popular and pervasive and ultimately fulfilled in the late 1840s when the United States acquired the Pacific Coast. However, the story of manifest destiny was never quite that simple. In A Failed Vision of Empire Daniel J. Burge examines the belief in manifest destiny over the nineteenth century by analyzing contested moments in the continental expansion of the United States, arguing that the ideology was ultimately unsuccessful. By examining speeches, plays, letters, diaries, newspapers and other sources, Burge reveals how Americans debated the wisdom of expansion, challenged expansionists and disagreed over what the boundaries of the United States should look like. A Failed Vision of Empire is the first work to capture the messy, complicated and yet far more compelling story of manifest destiny's failure, debunking in the process one of the most pervasive myths of modern American history.

Daniel Webster Harold D. Moser, 2005-03-30. Daniel Webster captured the hearts and imagination of the American people of the first half of the nineteenth century. This bibliography on Webster brings together for the first time a comprehensive guide to the vast amount of literature written by and about this extraordinary man who dwarfed most of his contemporaries. This bibliography also provides references to materials on slavery, the tariff, banking, Indian affairs, legal and constitutional development, international affairs, western expansion and economic and political developments in general. This bibliography is divided into fifteen sections and covers every aspect of Webster's distinguished career. Sections I and II deal primarily with Webster's writings and with those of his contemporaries. Sections III through X cover the literature dealing with his family background, childhood and education, his long service in the United States House of Representatives and in the Senate, his two stints as secretary of state and his career in law. Section X provides guidance in locating materials relating to his associates. Finally, Sections XI through XV provide coverage of his personal life, his death, historiographical materials and iconography.

When people should go to the ebook stores, search establishment by shop, shelf by shelf, it is truly problematic. This is why we offer the books compilations in this website. It will certainly ease you to see guide **The Monroe Doctrine And American Expansionism 1843 1849** as you such as.
